

Zoom Court Meetings

Please thoroughly review all the information below before attempting to join and attend the virtual court hearing.

There are multiple methods to participate in a virtual court hearing using various devices with different rules and regulations.

1. PC/Mac Laptop or Desktop: Will require a browser that will run Zoom Meeting as needed. A microphone and video camera are required.
2. Smartphone: Install the Zoom Cloud Meetings app and allow access to your camera and microphone.

Key elements to a successful virtual court hearing via Zoom:

3. Please refrain from driving or riding as a passenger in a moving vehicle during the court hearing, as this will result in your removal from the court hearing.
4. Set up your device in a quiet room free from noise and other people.
5. Connect to the meeting with your full name, including **first and last name**. This will determine whether it appears on the calendar as a first appearance or as a plea of innocence.
6. Make sure your technical devices have access to audio and video connections on the Zoom platform.

Please review the videos listed below before attending the court hearing.
