

Johnson Visioning Project

VISUALS TO
GUIDE OUR
FUTURE

Please join the Johnson Planning Commission, community leaders, committees, neighbors, and consultants, DuBois & King, to review the community-wide project map. The intention of this map is to braid together ongoing/upcoming projects and flood mitigation efforts. Your participation is essential to this process and making the product a meaningful community resource!

Purpose

At the December meeting, the community will review the town-wide project map and site-specific visualizations that resulted from September Johnson Visioning meeting and community group input. This endeavor aims to capture projects, stakeholders, and shared goals across Johnson. This effort, facilitated by DuBois & King, will focus on the built environment, physical connectivity, civic function, flood resilience, ecological balance, and housing - with consideration of costs, benefits, and long-term maintenance.

**WHEN: Wednesday
December 3, 6:30pm**

WHERE:
Johnson Municipal Offices
293 Lower Main Street
2nd floor
Johnson, VT 05656
