

# Cemetery Referendum

April 7, 2026 – Spring Election

# Why is a referendum being considered?

---

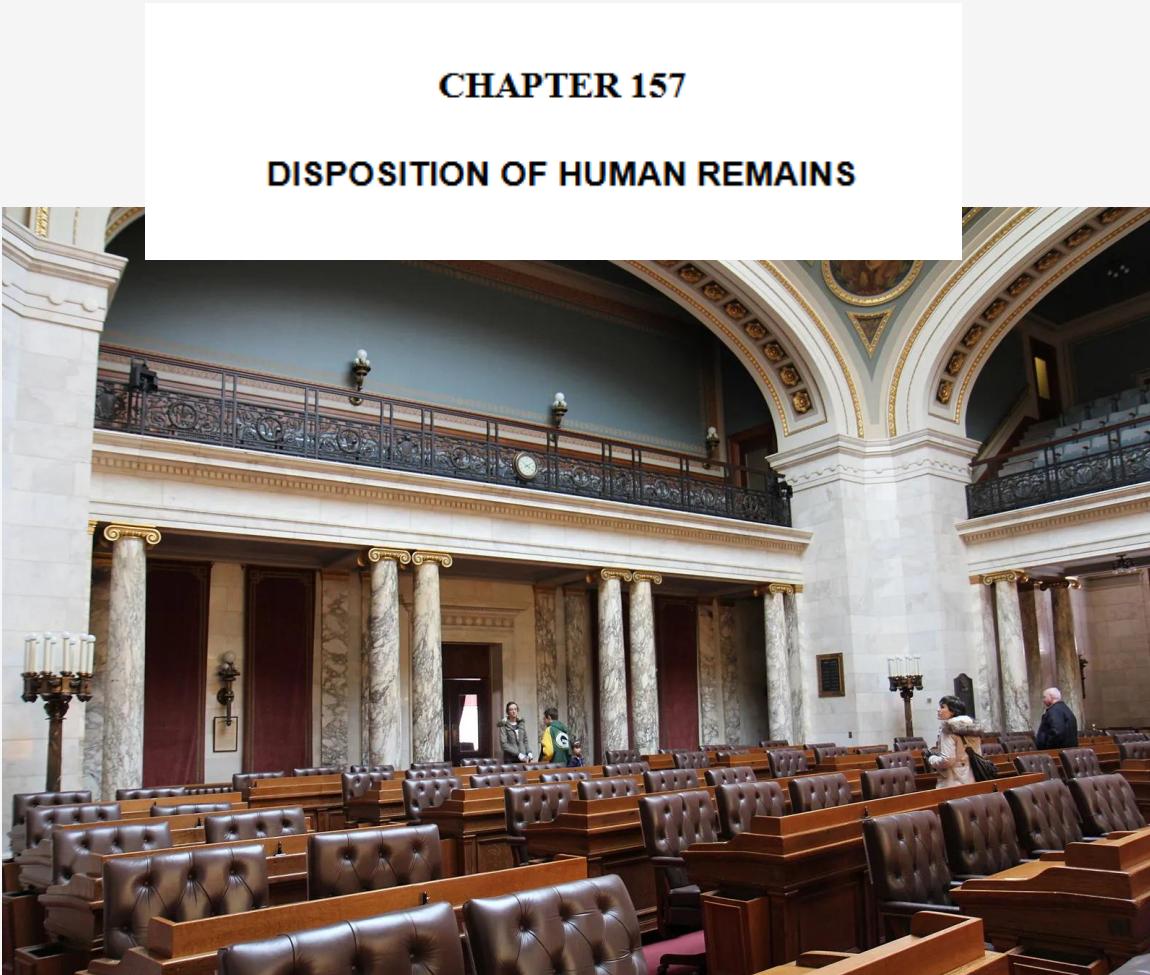

The Oak Hill Cemetery, located at 400 N Maple St, North Freedom, WI 53951, is owned and operated by the Oak Hill Cemetery Association, a private entity with 5 Board Members (1 President and 4 Trustees) and 1 Secretary/Treasurer. They hire outside services for grounds keeping and other miscellaneous expenses. The association has been operating at a deficit for many years. With their prices being on the low side, more individuals being cremated rather than buried, and all expenses steadily increasing due to inflation, it has been difficult to maintain for the current Board. Due to the financial burden and time restraints of some of the current members, the Oak Hill Cemetery Association is looking to abandon their ownership/duties.

If the Village were to assume ownership, the Village's current levy is not sufficient enough to take on the additional financial obligation.

# What happens if it is abandoned?

How Cemetery Abandonment works:

Per Wisconsin State Statute [157.115](#), when a cemetery association fails to care for the cemetery for a period of 1 or more years, the municipality that it is located in *may* take control of it, after 5 or more years, it is required.

If it is abandoned, the Sauk County Circuit Court may authorize the removal of bodies from this cemetery to another upon the petition of 6 or more residents from the Village.

“Fails to care” essentially means that there is no organization maintaining the grounds and it just sits there. Potentially there would be tall weeds/grasses, brush, hazardous conditions, etc.

*\*\*Historically, the Village of North Freedom Public Works Department plows the snow in the cemetery in the winter season and the association is responsible for removal of the snow on the sidewalk\*\**

# Can't the Cemetery just ask for money?

---

You bet! Per Wisconsin State Statute [157.062\(7\)](#), a Cemetery Association can ask the municipality it is located in for a "Tax for Maintenance" contribution when it has insufficient funds for operations. They are also "authorized" to ask any adjoining town, village, city that may have buried therein decedents for a "Tax for Maintenance" contribution. This could mean that the Town of Freedom, Excelsior, Baraboo and possibly Village of Rock Springs could also give a contribution for operations.

Individuals from the Oak Hill Cemetery Association have stated that it does not feel comfortable "begging" for money and would rather "just turn in the books".

If the Cemetery Association would go this route, the Village might have to restructure its annual budget to make a contribution based off what the current levy would be. If the amount would be over what the Village is comfortable cutting expenses for other essential services, a referendum may be needed to exceed current budget restraints.\*

What else can be done?

Keeping in mind, this would be on the Cemetery Board/Staff to do the leg work...

1. **GRANTS!!!!** The Cemetery Association can apply for grant monies through usgrants.org. There are a bunch of opportunities out there. They would still maintain their ownership of the cemetery and hopefully get some funds to help grow their revenue. The Village could potentially help them with the application processes.
2. The current Cemetery Association Board Members could find and elect ***new*** Board Members at their Annual Meeting and the current Board Members that are looking to "be done" with the association could simply "walk away". The association would then still retain ownership of the grounds and their holdings and the new Board could do a deeper dive into their financials and maybe look at a financial restructuring. They could still ask for the "Tax for Maintenance" contribution from the Village and surrounding Towns and apply for grants.  
*Potentially no tax increase\*.*
3. The current Cemetery Association could dissolve and a new cemetery association could be created and take over operations. This could be done by putting out a Request for Proposal for a different organization/entity to take it over. WI State Statute [157.062\(6\)](#). They could still ask for the "Tax for Maintenance" contribution from the Village and surrounding Towns and apply for grants.  
*Potentially no tax increase\*.*

# Village Referendum

---

From the previous slide, we see that it is approximately \$32,000+ for yearly expenses of the cemetery. However, if the Village were to take over ownership/operations, there could be some cost saving. Please note: the Village's current levy is not sufficient enough to take on this if it were to obtain ownership and operation of it regardless of the cost savings. The Village could potentially look at giving the Cemetery Association a "Tax for Maintenance" contribution if it would be substantially lower than the yearly operating costs. Potentially if they would like to discuss options for maybe assistance with mowing costs? Water? Etc.

*So, what would the referendum pay for?* The Village's office personnel would take on the record keeping/cemetery administration therefore wages/benefits for that work would be taken out of operating funds; a cemetery software would be implemented therefore an initial setup fee and annual service fee would be taken out of operating expenses; the cemetery fund would automatically be included in the Village financials, but additional financial auditing may be done on prior years; there would be possibly new equipment needed or maintenance items needed for upkeep therefore needing to take that out of operating funds; and the Village Public Works taking on the mowing/upkeep of the grounds therefore wages and benefits for that work would also be taken out of operating funds.

total allowable levy before referendum increase

## Ballot Question

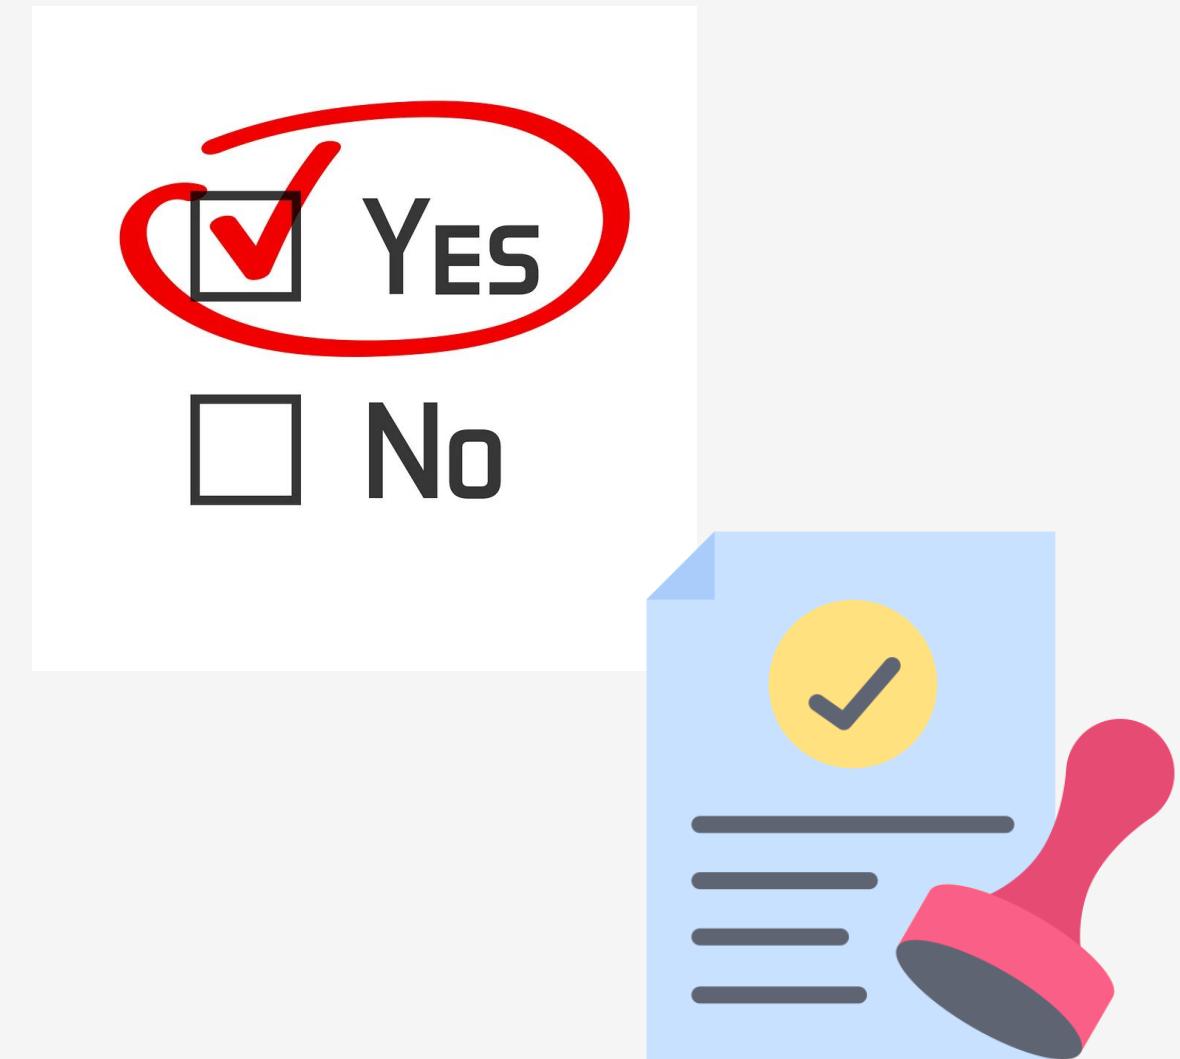

---

"Under state law, the increase in the levy of the Village of North Freedom for the tax to be imposed for the next fiscal year, 2026, is limited to 2.206%, which would result in a levy of approximately \$175,761. Shall the Village of North Freedom be allowed to exceed this limit and increase the levy for the next fiscal year, 2026, for the purpose owning, maintaining, and operating the Oak Hill Cemetery located at 400 N Maple St, North Freedom, WI 53951, by a total of **[PERCENTAGE]**%, which results in a levy of approximately **\$[REVISED LEVY]**, and on an ongoing basis, include the increase of **\$[AMOUNT OF REFERENDUM]** for each fiscal year going forward?"

## What happens if this passes?

---

If the referendum is approved by a majority of voters, the Village will be able to maintain its current level of funding for normal operations plus take on the financial obligations/ownership/maintenance of the Oak Hill Cemetery. This referendum would be perpetual (year-to-year) and the Village wouldn't have to cut funding from essential services available to the public.

# What happens if this fails?

---

It would only prolong the inevitable. The Cemetery's holdings are dwindling. They could, maybe, operate for 1-2 more years and then they truly would be out of funds. They would essentially abandon it and it would just sit there...

The Village is trying to be proactive about this so this doesn't happen. A good majority of residents/tax payers have loved ones buried there. It wouldn't be the Village's intention to let the land waste away making it not accessible for patrons.

*So, what happens if the Village takes the Cemetery over without the referendum increase?* The Village would then have to cut essential services available to the public, cut operational costs more than what has already been done, and reduce services that many people of the public have come to rely on. The Village could continue to try other referendums or have to take out loans for operations to be paid back through the Cemetery Fund revenue.

## What else would be needed?

---

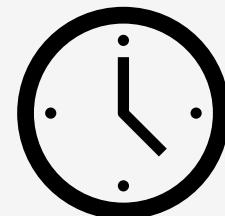

The Village of North Freedom Board will work with the Oak Hill Cemetery Association on the conveyance of the property, records, and the entirety of its holdings over to the Village. This would be projected to be completed by the end of 2026. The Village Board would then need to create a cemetery Ordinance and Policies and potentially a citizen appointed Board – similar to how a Library Board functions *\*pending how the Village would like the cemetery to be governed.* The Village Board would also then create a Special Revenue Fund based off of the State of Wisconsin Uniform Chart of Accounts for Wisconsin Municipalities where fund transactions would be recorded. A cemetery software would also be implemented bringing the record keeping to a digital platform for management of the burial records and open/available spaces.

# So, what happens next?

This question will be on the Spring Election – **Tuesday, April 7, 2026** – ballot for the electors of the Village.

*It is in YOUR hands on what happens next.*
