

CITY OF OSSEO
42% SEWER RATE INCREASE
Effective July 1st, 2024

Minimum sewer charge per month with one customer on each meter

Meter Size (in)		Current Charge per Month Since 10/1/23	New Charge per Month
5/8-3/4		\$25.08	\$35.61
1		\$50.15	\$71.21
1-1/4		\$75.24	\$106.84
1-1/2		\$100.31	\$142.44
2		\$175.55	\$249.28
2-1/2		\$275.86	\$391.72
3		\$401.25	\$569.78
4		\$702.19	\$997.11

Volume Unit Price = \$8.48 per 1,000 gallons (Current since 10/1/23)

Volume Unit Price = \$12.04 per 1,000 gallons (New)

The current Osseo Wastewater Treatment Plant (WWTP) was originally constructed over sixty years ago, with modifications made in the 1980's and early 2000's. Due to the age, condition, and operating expenses of the current WWTP, as well as changing regulatory requirements, upgrades were needed for the WWTP to remain in compliance. The City along with their engineering and financial consultants prepared a Facility Plan that investigated alternatives and we concluded construction of a new WWTP on land adjacent to the existing WWTP was the best option. The above rates were carefully set to finance and maintain the WWTP project and sanitary sewer collection system to ensure the City of Osseo can maintain reliable sewer collection and treatment operations for 20 years and beyond. The expected completion date of construction is fall of 2024.
