

Mailbox Guidelines

The United States Postal Office requires that the front of the mailbox be between 24 inches and 36 inches off of the edge of the pavement. They require that the bottom of the mailbox be from 42 inches to 46 inches above the edge of the pavement. The Town of Stettin would prefer that the mailbox be placed as far off of the pavement edge as possible while still having the positioning meet the postal service requirements for mail delivery. The town will not be responsible for mailboxes and posts damaged by plows or flying snow.
