Notice of Local Officials Meeting / Operational Planning Meeting and Public Information Meeting

CTH L, 0.7M East of Hill burn Mill Rd to Stone School Rd

Greetings:

On behalf of Walworth County, please join us for a Public Information Meeting to discuss the upcoming reconstruction planned for County Trunk Highway L (CTH L) from approximately 0.7 miles east of Hillburn Mill Road to Stone School Road (see attached location map).

The meetings will take place at East Troy Village Hall located at 2015 Energy Drive, East Troy, WI 53120 on **Thursday, November 12th, 2026**; with the **Local Officials Meeting/Operational Planning Meeting** from **3:00 p.m. to 4:00 p.m**. and the **Public Information Meeting** from **4:00 p.m. to 6:00 p.m**. The Public Information Meeting will be an informal open-house format, with a short project introduction around 4:05. Representatives from Walworth County and Baxter & Woodman, the design consultant, will be available to discuss the proposed project and address any questions or concerns.

The purpose of this project is to correct the substandard vertical curve on CTH L between Hillburn Mill Rd. and Stone School Rd. to restore adequate stopping and intersection sight distance at the Stone School Rd. intersection. The proposed work includes lowering the existing road, regrading driveways, side slopes and ditches as needed to tie into the revised road elevation. The pavement and base materials will be reconstructed, and new curb and gutter will be added along the project limits. The project is currently scheduled for construction in 2029.

Persons with interest in this project are encouraged to attend this meeting or provide comments to Walworth County. If you are unable to attend the meeting and would like to provide feedback regarding the project in general or require any special accommodations for the meeting, please do not hesitate to contact the contacts below:
