### Driveway Location

Addresses in Sheboygan County are assigned based on the driveway/access location. County Planning will use GIS to locate your property using the provided tax parcel number. Use this space to describe, as detailed as possible, where the driveway will be located. Measurements from neighboring driveways, intersections, water features, etc. are helpful. For example, **"Driveway will be 300 feet east of the existing driveway at 123 Clearview Rd."** You can also use this space to sketch a map, or utilize the County's online interactive mapping to find the property and use the drawing tools to sketch where the driveway and structure will be and include that with your application.
