#### INDEPENDENT AUDITOR'S REPORT

To the City Council City of Wisconsin Dells Wisconsin Dells, Wisconsin

#### **Opinions**

We have audited the accompanying financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the City of Wisconsin Dells, Wisconsin, as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Wisconsin Dells, Wisconsin, as of December 31, 2022, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City of Wisconsin Dells, Wisconsin, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Change in Accounting Principle

As discussed in Note 1 to the financial statements, effective January 1, 2022, the City of Wisconsin Dells, Wisconsin adopted the provisions of Governmental Accounting Standards Board Statement No. 87, *Leases*. Our opinions are not modified with respect to this matter.

#### Prior Period Adjustment

As discussed in Note 17 to the financial statements, net position was restated as of January 1, Our opinion is not modified with respect to this matter.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Responsibilities of Management for the Financial Statements (Continued)

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Wisconsin Dells, Wisconsin's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City of Wisconsin Dells, Wisconsin's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Wisconsin Dells, Wisconsin's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the required supplementary information as listed in the table of contents on pages 48-60 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted a management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

#### Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Wisconsin Dells, Wisconsin's basic financial statements. The supplementary information as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole.

## Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position December 31, 2022

| Total fund balance, governmental funds   |                        | \$ 18,017,701 |
|--|------------------------|---------------|
| Amounts reported for governmental activities in the Statement of Net Position are different because:   |                        |               |
| The net pension asset is not a current financial resource, and is therefore not reported in the fund statements.   |                        | 1,694,453     |
| Capital assets used in governmental activities are not current financial resources and therefore are not reported in this fund financial statement, but are reported in the governmental activities of the Statement of Net Position.  |                        | 27,191,268    |
| Pension and OPEB deferred outflows and inflows of resources are actuarially determined. These items are reflected in the Statement of Net Position and are being amortized with pension and OPEB expense in the Statement of Activities. They are not current financial resources or uses and are therefore not reported in the fund statements. |                        |               |
| Pension and OPEB related deferred outflows   |                        | 3,674,855     |
| Pension and OPEB related deferred inflows  |                        | (4,072,864)   |
| Certain other deferred outflows are not available to pay current period expenditures and therefore are not reported in the fund financial statements, but are reported in the governmental activities of the Statement of Net Position. This amount represents unamortized loss on advanced refunding.   |                        | 390,237       |
| Some receivables are fully accrued and recognized as revenues when the receivable is established for the governmental activities of the Statement of Net Position. They are reported as deferred inflows on the fund financial statements to the extent they are not available.  |                        |               |
| Special assessments  |                        | 1,004,375     |
| Some liabilities, (such as Notes Payable, Long-term Compensated Absences, and Bonds Payable), are not due and payable in the current period and are not included in the fund financial statement, but are included in the governmental activities of the Statement of Net Position.  |                        | , ,           |
| Long-term debt   | (27,773,702)           |               |
| Accrued liability - Athletic fields  | (85,000)               |               |
| Compensated absences   | (274,600)              |               |
| Net OPEB liability - LRLIF   | (368,287)              |               |
| OPEB liability - group health insurance Accrued interest   | (789,553)<br>(218,476) |               |
| Rounding   | (2)                    |               |
|  |                        | (29,509,620)  |
| Net Position of Governmental Activities in the Statement of Net Position   | =                      | \$ 18,390,405 |

# Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended December 31, 2022

| Net change in fund balances - total governmental funds:  | \$<br>3,373,876 |
|--|-----------------|
| Amounts reported for Governmental Activities in the Statement of Activities are different because:   |                 |
| The acquisition of capital assets are reported in the governmental funds as expenditures. However, for governmental activities those costs are shown in the Statement of Net Position and allocated over their estimated useful lives as annual depreciation expenses in the Statement of Activities.  Capital outlay reported in governmental fund statements  Depreciation expenses reported in the Statement of Activities  Amount by which capital outlays are greater (less) than depreciation in the current period.   | 3,312,105       |
| Vested employee benefits are reported in the governmental funds as an expenditure when the amounts are paid. The Statement of Activities reports the value of benefits earned during the year.  Compensated absences paid in current year.   | 56,200          |
| Governmental funds report bond and note proceeds as current financial resources. In contrast, the Statement of Activities treats such issuance of debt as a liability. Governmental funds report repayment of bond and note principal as an expenditure. In contrast, the Statement of Activities treats such repayments as a reduction in long-term liabilities.  Debt proceeds for the year Premium on long term debt The amount of long-term debt principal payments in the current year is Amortization of long term debt premium Amortization of loss on refunding  (4,990,000) (223,309) 18,014 (43,359) | (2,457,779)     |
| In governmental funds, interest payments on outstanding debt are reported as an expenditure when paid. In the Statement of Activities, interest is reported as incurred.  Interest paid is greater (less) than interest accrued by   | 14,885          |
| Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.  |                 |
| Accrued liability - Amount paid in current year  | 85,000          |
| Special assessments in the governmental funds that provide current financial resources were previously accrued in the Statement of Activities when they were earned.   | (114,174)       |
| Pension and OPEB expense reported in the governmental funds represent current year required contributions into the defined benefit plans. Pension and OPEB expense in the Statement of Activities is actuarially determined by the defined benefit pension or OPEB plan as the difference between the net pension or OPEB asset/liability from the prior year to the current year, with some adjustments.  |                 |
| Difference between current year required contributions into the defined benefit pension or OPEB plan and the actuarially determined change in net pension asset/liability between years, with adjustments  | 305,463         |
| Change in Net Position of Governmental Activities  | \$<br>4,575,576 |

#### 1. Significant Accounting Policies

The accounting policies of the City of Wisconsin Dells, Wisconsin conform to accounting principles generally accepted in the United States of America as applicable to governmental units.

#### A. Reporting Entity

The City is a municipal corporation governed by an elected council of a mayor and six alderpersons. The reporting entity for the City consists of (a) the primary government, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. The primary government is financially accountable if it appoints a voting majority of the organization's governing body and (1) it is able to impose its will on that organization or (2) there is a potential for the organization to provide specific financial benefits to or burdens on the primary government. The primary government may be financially accountable if an organization is fiscally dependent on the primary government. The City has identified the Community Development Authority of the City of Wisconsin Dells as a component unit that is required to be included in the financial statements. Activities of the Authority are reported in a capital projects fund and are discussed in Note 15.

See Note 13 regarding joint ventures.

#### B. Government-Wide and Fund Financial Statements

The government-wide financial statements report information on all of the nonfiduciary activities of the City. The effect of most interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers for services provided by a given function or segment and 2) grants and contributions that are restricted to meeting the requirements of a particular function. Taxes and other items not included in program revenues are reported as general revenues.

Separate financial statements are provided for governmental funds and proprietary funds. Governmental funds include general, special revenue, debt service and capital projects funds. Proprietary funds include enterprise funds. Major individual governmental and enterprise funds are reported in separate columns in the fund financial statements.

The City reports the following major governmental funds:

**General Fund** - the general operating fund of the municipality. It is used to account for all financial resources except those required to be accounted for in another fund.

**Premier Resort Tax Fund** – used to account for the collection and expenditure of the premier resort taxes received from the state, legally restricted for certain expenses.

#### 1. Significant Accounting Policies (Continued)

#### **B.** Government-Wide and Fund Financial Statements (Continued)

**Capital Reserve Fund** - used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary Funds).

**Room Tax Fund** - used to account for the collection and expenditure of the City's room tax legally restricted for tourism promotion and tourism development.

**Debt Service Fund** - used to account for the accumulation of resources for, and the payment of, long-term debt principal, interest, and related costs that are related to the City's governmental activities.

**Tax Increment District Fund** - Transactions of the City's tax incremental districts are accounted for in a capital projects fund.

The City reports the following major proprietary funds:

**Enterprise Funds** - The enterprise funds are the Water Utility, Sewer Utility, Electric Utility and Parking Utility.

The nonmajor governmental funds of the City are reported in a single column on the fund financial statements.

**Fiduciary Funds** – consist of pension (and other employee benefit) trust funds, private-purpose trust funds, investment trust funds, and custodial funds. Fiduciary funds should be used only to report resources held for individuals, private organizations, or other governments. A fund is presented as a fiduciary fund when all of the following criteria are met: a) the government *controls* the assets that finance the activity, b) Assets are *not* generated from the *government's own-source revenues* or from government-mandated or voluntary nonexchange transactions, c) assets are administer through a *qualifying trust* or the government does *not* have *administrative involvement* and the assets are *not* generated from the *government's delivery of goods or services* to the beneficiaries, *or* the assets are for the benefit of *entities that are not part of the government's reporting entity*.

The City reports the following fiduciary fund:

**Custodial Fund** – used to account for assets held by the City in a trustee capacity or as an agent for individuals, private organizations, and/or other governmental units. The City accounts for tax collections payable to overlaying taxing jurisdictions in a custodial fund.

#### C. Measurement Focus and Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recognized when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized in the year for which they are levied. Grants and similar items are recognized when all eligibility requirements have been met.

#### 1. Significant Accounting Policies (Continued)

#### C. Measurement Focus and Basis of Accounting (Continued)

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recorded when both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Resources not available to finance expenditures and commitments of the current period are recorded as deferred inflows or nonspendable fund balance. Expenditures are recorded when the related fund liability is incurred, except for debt service expenditures, claims, judgments, compensated absences, and pension expenditures, which are recorded as a fund liability when expected to be paid with expendable available financial resources.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

#### D. Budgets

Annual budgets for the general fund and debt service fund are approved by the City Council. City management submits the proposed budget to the common council. The council conducts public hearings on the proposed budget and adopts the budget before December each year. See notes to required supplementary information for additional information.

#### E. Cash and Cash Equivalents

For purposes of the statement of cash flows, the City considers all highly liquid, unrestricted investments with an initial maturity of three months or less to be cash equivalents.

#### F. Taxes Receivable

Property taxes are recorded in the year levied as receivables and deferred inflows. They are recognized as revenues in the succeeding year when services financed by the levy are being provided. In addition to property taxes for the municipality, taxes are collected for and remitted to the state and county governments as well as the local and vocational school districts. Taxes for other state and local governmental units collected in the current year for the succeeding year are reported as payable to other governments. Taxes are levied in December on the assessed value as of the prior January 1.

#### Property tax calendar – 2022 roll

Lien and levy date, tax bills mailed

Payment in full or first installment due

Second installment due

July 31, 2023

Tax sale – 2022 delinquent real estate taxes

December, 2022

January 31, 2023

October, 2025

#### 1. Significant Accounting Policies (Continued)

#### **G.** Allowance for Uncollectible Accounts

Delinquent real estate taxes are paid in full by the county, which assumes the collection thereof. No provision for uncollectible utility accounts receivable has been made in the accompanying financial statements because the utilities have the right by law to place delinquent bills on the tax roll.

#### H. Capital Assets

Additions to and replacements of capital assets are recorded at original cost, which includes material, labor, overhead, and interest incurred during construction. Contributed capital assets are recorded at estimated acquisition value at the time received. The cost of property replaced, retired or otherwise disposed of is deducted from plant accounts and accumulated depreciation. Depreciation is recorded using the straight-line method over the estimated useful lives.

The historical cost of streets, storm water sewers, sidewalks, and curb and gutter acquired prior to 2004 was estimated. Capital assets acquired for governmental purposes are recorded as expenditures in the governmental fund financial statements.

#### I. Land Held for Resale

The financial statements include land held for resale. This represents the original cost of land purchased by the City and held for resale to developers.

#### J. Inventories

Proprietary fund inventories are generally used for construction or maintenance - not for resale. They are valued at cost based on first in - first out and charged to construction or maintenance when used.

#### K. Long-Term Debt

In the government-wide and proprietary fund financial statements, long-term liabilities are reported. Bonds payable are reported net of the applicable bond premium or discount. Long-term liabilities are not reported in the governmental fund financial statements. Proceeds of long-term debt issues are reflected as "Other Financing Sources" in the operating statement of the recipient fund. Retirement of these issues is reported as an expenditure in the year in which the debt matures or is repaid, whichever is earlier.

#### L. Regulatory Credit

In 2004 the Public Service Commission of Wisconsin ("Wisconsin PSC") required regulated utilities (the water utility and electric utility) to create a deferred regulatory credit account. The amount of the credit was equal to the estimated accumulated depreciation on contributed utility plant as of December 31, 2003. The credit has the effect of reducing the rate base used by the Commission in approving user rates charged by the utilities. The credit is being amortized to non-operating income over a period of 20 years.

#### 1. Significant Accounting Policies (Continued)

#### M. Compensated Absences

The governmental funds have not recorded liabilities for accrued employee vacations and sick leave since these will not be liquidated from current revenues. The actual expenditure will be recorded at the time the benefits are used by the employee, and will be paid at the rate of pay then in effect. Under terms of employment, municipal employees are granted vacations and sick leave in varying amounts. To the extent that sick leave and vacation must be paid by the municipality when an employee leaves employment, such amounts are considered to be a long-term liability and are reported in the government-wide and proprietary fund financial statements.

#### N. Deferred Outflows and Inflows of Resources

Deferred outflows of resources represent a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then.

Deferred inflows of resources represent an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time.

#### O. Claims and Judgments

Claims and judgments that would normally be liquidated with expendable available financial resources are recorded during the year as expenditures in the governmental funds. The related expenditure is recognized when the liability is liquidated. Claims and judgments are reported in the government-wide and proprietary fund financial statements as expenses when the related liabilities are incurred.

#### P. Equity

Equity is classified as net position in the government-wide and proprietary fund financial statements and displayed in three components. 1) Net investment in capital assets – the amount of capital assets less accumulated depreciation and outstanding debt related to the purchase, construction, or improvement of capital assets. 2) Restricted net position – amount of net position subject to restrictions that are imposed by external groups or law. 3) Unrestricted net position – net position that is classified as neither of the above.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

In the governmental fund financial statements, equity is reported as fund balance.

Fund Balance is report in five separate classifications:

**Nonspendable** – resources which cannot be spent because they are either a) not in spendable form or; b) legally or contractually required to be maintained intact.

**Restricted** – resources with constraints placed on the use of resources are either a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or b) imposed by law through constitutional provisions or enabling legislation.

#### 1. Significant Accounting Policies (Continued)

#### P. Equity (Continued)

**Committed** – resources which are subject to limitation the government imposes upon itself at its highest level of decision making, and that remain binding unless removed in the same manner.

**Assigned** – resources neither restricted nor committed for which a government has a stated intended use as established by the City Council or a body or official to which the City Council has delegated the authority to assign amounts for specific purposes.

**Unassigned** – resources which cannot be properly classified in one of the other four categories. The General Fund is the only fund that reports a positive unassigned fund balance amount. Unassigned balances also include negative balances in the governmental funds reporting resources restricted for specific programs.

When restricted and other fund balance resources are available for use, it is the City's policy to use restricted resources first, followed by committed, assigned, and unassigned amounts, respectively.

#### Q. Revenues and Expenses

Intergovernmental aids and grants are recognized as revenues in the period the related expenditures are incurred, if applicable, or when the municipality is entitled to the aids.

In the governmental funds, special assessments are recorded as revenues when collected. Annual installments due in future years are reflected as receivables and deferred inflows. As of December 31, 2022, the City is owed \$1,004,375 in special assessments related to developer projects. The assessments are due in annual installments of approximately \$291,000 for ten to fourteen years bearing interest ranging from 3.75% to 4.98%. These assessments are reported in the General Fund, TID, and Debt Service funds.

Proprietary fund revenues are recorded when services are billed. Estimated unbilled revenues are accrued to the end of the year. Rates charged by the water utility and electric utility are regulated by the Public Service Commission of Wisconsin.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds are user charges for water consumption, for wastewater disposal and treatment, for electricity use and parking fees. Operating expenses for enterprise funds include the cost of services, administrative expenses, and depreciation. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. Contributions and contributed capital to the utilities are reflected as nonoperating revenue.

#### **R.** Change in Accounting Principle

Effective January 1, 2022, the City adopted GASB statement No. 87, *Leases*. GASB No. 87 replaces previous lease accounting methodology and establishes a single model for lease accounting based on the foundation principle that leases are financing the right to use an underlying asset. GASB No. 87 requires recognition of certain lease assets and liabilities for lease agreements where the City is the lessee and lease receivables and deferred inflows of resources for lease agreements where the City is the lessor. No restatement of net position was necessary due to adopting this standard.

#### 1. Significant Accounting Policies (Continued)

#### S. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; employee health; and natural disasters. These risks are covered by commercial insurance purchased from independent third parties and from the Cities and Villages Mutual Insurance Company (CVMIC). The City is a participant in the Wisconsin Municipal Insurance Commission (WMIC) which formed CVMIC to operate as a public entity risk pool. The City retains responsibility for the first \$10,000 on all risks and has \$5,000,000 of liability coverage from CVMIC. The City's participation in WMIC and CVMIC is described in Note 12. Management believes such coverage is sufficient to preclude any significant uninsured losses to the City. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years.

#### T. Pensions

For purposes of measuring the net pension liability (asset), deferred outflows of resources, and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position of the Wisconsin Retirement System (WRS), and additions to/deductions from WRS' fiduciary net position have been determined on the same basis as they are reported for WRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefits terms. Investments are reported at fair value.

#### U. Other Postemployment Benefits (OPEB) Plan – Group Life Insurance Plan

The fiduciary net position of the Local Retiree Life Insurance Fund (LRLIF) has been determined using the flow of economic resources measurement focus and the accrual basis of accounting. This includes, for purposes of measuring the net Other Postemployment Benefits (OPEB) liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about the fiduciary net position of the LRLIF and additions to/deductions from LRLIF's fiduciary net position that have been determined on the same basis as they are reported by LRLIF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. See Note 8 for additional information.

#### V. Other Postemployment Benefits (OPEB) Plan – Group Health Insurance Plan

The City has their health insurance through Employee Trust Fund (ETF). The ETF health plan allows all retirees who are eligible for WRS to choose to self-pay the full (100%) amount of premiums to remain on the City's group health insurance plan indefinitely, provided they continue to pay all required premiums. The City's group health insurance plan OPEB liability is based upon the actuarial assumptions and projections. The City's annual liability for retiree medical benefits is on a pay-as-you-go basis. See Note 9 for additional information.

#### 2. Cash and Investments

#### Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. State law limits investments to the list below. The City's investment policy is to follow state statutes. Available investments are limited to:

- 1. Deposits in any credit union, bank, savings bank, trust company or savings and loan association which is authorized to transact business in this State;
- 2. Bonds or securities issued or guaranteed as to principal and interest by the federal government, or by a commission, board or other instrumentality of the federal government;
- 3. Bonds or securities of any county, drainage district, VTAE district, village, city, town, or school district of this State;
- 4. Any security which matures or which may be tendered for purchase at the option of the holder within not more than seven years of the date on which it is acquired, if that security has a rating which is the highest or second highest rating category assigned by Standard & Poor's Corporation, Moody's investor service or other similar nationally recognized rating agency or if that security is senior to, or on a parity with, a security of the same issuer which has such a rating;
- 5. The local government pooled-investment fund as established under Section 25.50 of the Wisconsin Statutes:
- 6. Agreements in which a public depository agrees to repay funds advanced to it by the Board, plus interest, if the agreement is secured by bonds or securities issued or guaranteed as to principal and interest by the federal government;
- 7. Securities of an open-end management investment company or investment trust, subject to various conditions and investment options;
- 8. Bonds issued by the University of Wisconsin Hospital and Clinics Authority and the Wisconsin Aerospace Authority.

#### Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the City would not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial risk for investments is the risk that, in the event of failure of the counterparty (e.g. broker-dealer) to a transaction, the City would not be able to recover the value of its investment of collateral securities that are in the possession of another party. The City's policy for custodial credit risk is to obtain collateral for all deposits.

Deposits in each local and area bank are insured by the FDIC in the amount of \$250,000 for demand accounts and \$250,000 for time and savings accounts. Bank accounts and the local government investment pool are also insured by the State Deposit Guarantee Fund in the amount of \$400,000. However, due to the relatively small size of the Guarantee Fund in relationship to the total deposits covered and other legal implications, recovery of material principal losses may be significant to individual organizations.

Fluctuating cash flows during the year due to tax collections, receipt of state aids and/or proceeds from borrowing may have resulted in temporary balances exceeding insured amounts.

#### 2. Cash and Investments (Continued)

As of December 31, 2022, \$8,174,095 of the City's deposits with financial institutions were exposed to custodial credit risk as follows:

| Uninsured and collateralized   | \$<br>5,620,165 |
|--------------------------------|-----------------|
| Uninsured and uncollateralized | <br>2,553,930   |
| Total Uninsured                | \$<br>8,174,095 |

#### Wisconsin Local Government Investment Pool

The Wisconsin Local Government Investment Pool is part of the State Investment Fund (SIF), and is managed by the State of Wisconsin Investment Board (SWIB). The SIF is not registered with the Securities and Exchange Commission, but operates under the statutory authority of Wisconsin Chapter 25. The SIF reports the fair value of its underlying assets annually. All investments are valued at amortized cost by the SIF for purposes of calculating earnings to each participant. Specifically, the SIF distributes income to pool participants monthly, based on their average daily share balance. Distributions include interest income based on stated rates (both paid and accrued), amortization of discounts and premiums on a straight-line basis, realized investment gains and losses calculated on an amortized cost basis, and investment expenses. This method does not distribute to participants any unrealized gains or losses generated by the pool's investments. Detailed information about the SIF is available in separately issued financial statements available at <a href="http://www.doa.wi.gov/Pages/StateFinances/LGIP.aspx">http://www.doa.wi.gov/Pages/StateFinances/LGIP.aspx</a>. Participants in the LGIP have the right to withdraw their funds in total on one day's notice. At December 31, 2022, the fair value of the City's share of the LGIP's assets was substantially equal to the amount as reported in these statements.

SWIB may invest in obligations of the U.S. Treasury and its agencies, Commercial Paper, Bank Time Deposits/Certificates of Deposit, Bankers' Acceptances, Asset Backed Securities and Repurchase Agreements secured by the U.S. Government or its agencies and other instruments authorized under State Investment Fund investment guidelines.

Investment allocation in the LGIP as of December 31, 2022, was: 88% in U.S. Government Securities, 2% in Certificates of Deposit, Bankers' Acceptances and Time Deposits and 10% in Commercial Paper and Corporate Notes. The Wisconsin State Treasurer updates the investment allocations on a monthly basis.

#### Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity its fair value has to changes in market interest rates.

The City's investment policy follows state statutes that limit investment maturities to three years as a means of managing exposure of fair value losses arising from increasing interest rates. City investments at December 31, 2022, were available on demand or had maturities of less than one year.

#### 2. Cash and Investments (Continued)

#### **Restricted Cash and Investments**

Bond covenants and external sources require portions of debt proceeds and income to be set aside for debt service payments and asset replacements. The following balances were restricted as of December 31, 2022:

| General Fund - library donation                      | \$<br>65,900    |
|--|-----------------|
| Capital Reserve - unspent bond proceeds              | 3,604,993       |
| Tax Increment Districts - lease revenue bond reserve | 1,371,475       |
| Debt Service - current refunding proceeds            | 52,265          |
| Sewer Utility - DNR replacement                      | 495,852         |

#### 3. Leases as Lessor

The City has entered into various lease arrangements where the City is the lessor. In the financial statements, lease revenue for the year ended December 31, 2022 was as follows:

| Lease Revenue       |               |
|---------------------|---------------|
| Pole Attachment     | \$<br>2,946   |
| Cell Tower          | 71,375        |
| Total Lease Revenue | 74,321        |
| Interest Revenue    | 33,974        |
| Total               | \$<br>108,295 |

Aggregate future cash flows for revenue generated by the lease receivable and interest for the City as of December 31, 2022 were as follows:

| Year Ending  |                 |               |                 |
|--------------|-----------------|---------------|-----------------|
| December 31, | Principal       | Interest      | Total           |
| 2023         | \$<br>36,264    | \$<br>33,592  | \$<br>69,856    |
| 2024         | 39,827          | 32,663        | 72,490          |
| 2025         | 43,585          | 31,644        | 75,229          |
| 2026         | 47,549          | 30,529        | 78,078          |
| 2027         | 51,728          | 29,314        | 81,042          |
| 2028-2032    | 329,556         | 124,418       | 453,974         |
| 2033-2037    | 472,524         | 75,471        | 547,995         |
| 2038-2042    | 296,682         | 16,451        | 313,133         |
| 2043-2047    | 18,110          | 1,890         | 20,000          |
| 2048         | 3,901           | 99            | 4,000           |
|              | \$<br>1,339,726 | \$<br>376,071 | \$<br>1,715,797 |
|              |                 |               |                 |

## 4. Capital Assets

Capital asset activity for the year ended December 31, 2022, is shown below:

|                                       |            | Balance    |                 |       |           |           | Balance    |  |            |

Interest paid in 2022 on governmental activities and business-type activities debt was \$605,939 and \$139,230, respectively.

#### 5. Long-Term Obligations (Continued)

#### A. General Obligation Debt

All general obligation notes and bonds payable are backed by the full faith and credit of the municipality. Revenue debt for governmental activities is payable from annual tax increments collected on the tax roll. If the tax increments are not sufficient, the debt will be paid by future tax levies. Business-type activities debt is payable by revenues from user fees of the proprietary funds.

In accordance with Wisconsin Statutes, total general obligation indebtedness of the municipality may not exceed five percent of the equalized value of taxable property within the municipality's jurisdiction. The debt limit as of December 31, 2022, was \$28,632,840. The total of general obligation debt at December 31, 2022, was \$17,655,000.

Following is a schedule of the general obligation long-term debt of the City at December 31, 2022. Interest on all indebtedness is due semi-annually, except for the state trust fund loans which are due annually.

| GENERAL OBLIGATION DEBT  |    | vernmental<br>activities | Business-type Activities |   |
|--|----|--------------------------|--------------------------|---|
| General obligation promissory notes issued in 2014 at an interest rate of .75 to 3.0%, due in varying amounts until maturity at 9/1/23             | \$ | 910,000                  | \$                       | - |
| General obligation refunding bonds issued in 2016 at interest rates of .75 to 2.35%, due in varying amounts until maturity at $3/1/30$             |    | 1,740,000                |                          | - |
| General obligation promissory note issued in 2020 at interest rates of .3 to 1.1%, due in varying amounts until maturity at 9/1/29                 |    | 2,350,000                |                          | - |
| General obligation promissory note issued in 2020 at interest rates of .3 to 2.0%, due in varying amounts until maturity at 9/1/29                 |    | 3,380,000                |                          | - |
| General obligation refunding bonds issued in 2021 at interest rates of 2.00 to 2.20%, due in varying amounts until maturity at 5/1/30              |    | 4,285,000                |                          | - |
| General obligation promissory note issued in 2022 at interest rates of 2.50 to 4.00%, due in varying amounts until maturity at 9/1/32              |    | 1,390,000                |                          | _ |
| General obligation maintenance facility bonds issued in 2022 at interest rates of 4.00 to 5.00%, due in varying amounts until maturity at $9/1/42$ |    | 3,600,000                |                          |   |

#### 5. Long Term Obligations (Continued)

#### E. Financed Purchase

The City has entered into a purchase agreement as of December 31, 2015, for a fire truck. The cumulative amount of assets acquired under the agreement described above amounted to \$462,467 with \$231,233 of accumulated depreciation as of December 31, 2022. The future minimum lease obligations and the net present value of these minimum lease payments as of December 31, 2022, were as follows:

| Year  | Amount     |  |  |  |
|---|------------|--|--|--|
| 2023  | 43,804     |  |  |  |
| 2024  | 43,804     |  |  |  |
| 2025  | 43,802     |  |  |  |
| Total Minimum Lease Payments                | 131,410    |  |  |  |
| Less: Amount representing Interest          | (8,923)    |  |  |  |
| Present Value of Net Minimum Lease Payments | \$ 122,487 |  |  |  |

## F. Other Long-Term Obligations

The following is a summary of changes in other long-term obligations for the year ended December 31, 2022.

|   | Balance<br>/1/2022 | Increases |   | Decreases |        | Balance<br>12/31/2022 |        |

|                          | Worker's Compensation                       | Wiscons | in Statutory Limits |                 |  |  |
|                          | Worker's Compensation Employer's Liability: |         |                     |                 |  |  |
|                          | Each Accident                               |         | 500,000             |                 |  |  |
|                          | Each Employee for Disease                   |         | 500,000             |                 |  |  |
|                          | Policy Limit for Disease                    |         | 500,000             |                 |  |  |
|                          |   |         |                     |                 |  |  |

The Sewer Utility is required by bond ordinances to produce net revenues sufficient to provide 110% of the annual principal and interest requirements on the bonds.

| Net Revenues Required | \$<br>201,707 |  |  |
|-----------------------|---------------|--|--|
| 2022 Net Revenues     | \$<br>712,351 |  |  |

#### 6. Compensated Absences and Termination Benefits

The following is a summary of changes in other long-term obligations related to the governmental activities for the year ended December 31, 2022.

|                        | Balance       |           |              | Balance       |
|------------------------|---------------|-----------|--------------|---------------|
|                        | 1/1/2022      | Increases | Decreases    | 12/31/2022    |
| Compensated Absences:  |               |           |              |               |
| Accumulated vacation   | \$<br>191,400 | \$<br>-   | \$<br>43,400 | \$<br>148,000 |
| Accumulated sick leave | 139,400       | -         | 12,800       | 126,600       |
| Totals                 | \$<br>330,800 | \$<br>-   | \$<br>56,200 | \$<br>274,600 |

The City will pay a portion of the monetary value of accumulated sick leave to union employees upon retirement or death. Alternatively, the retiring employee may apply a greater portion of the sick leave balance to future health insurance premiums. An expenditure and a liability are recorded in the general fund at the time of an eligible employee's retirement for the value of the employee's accumulated sick leave that is expected to be paid during the current year. The estimated long-term obligation for pay outs of the accumulated sick leave of current and retired employees on December 31, 2022, was \$126,600 and is accrued in the government-wide financial statements. The City finances these benefits on a pay-as-you-go basis. Obligations for compensated absences will be paid out of the general fund.

#### 7. Interfund Balances and Transfers

Interfund balances at December 31, 2022 were:

| Receivable Fund                                | Payable Fund        | Amount                 | Purpose                           |
|--|---------------------|------------------------|-----------------------------------|

#### 8. Employee Retirement Plan

#### Defined Benefit Pension Plan

*Plan description*. The WRS is a cost-sharing multiple-employer defined benefit pension plan. WRS benefits and other plan provisions are established by Chapter 40 of the Wisconsin Statutes. Benefit terms may only be modified by the legislature. The retirement system is administered by the Wisconsin Department of Employee Trust Funds (ETF). The system provides coverage to all eligible State of Wisconsin, local government and other public employees. All employees, initially employed by a participating WRS employer on or after July 1, 2011, and expected to work at least 1200 hours a year (880 hours for teachers and school district educational support employees) and expected to be employed for at least one year from employee's date of hire are eligible to participate in the WRS.

ETF issued a standalone WRS Financial Report, which can be found at <a href="https://etf.wi.gov/about-etf/reports-and-studies/financial-reports-and-statements">https://etf.wi.gov/about-etf/reports-and-studies/financial-reports-and-statements</a>.

**Vesting.** For employees beginning participation on or after January 1, 1990, and no longer actively employed on or after April 24, 1998, creditable service in each of five years is required for eligibility for a retirement annuity. Participants employed prior to 1990 and on or after April 24, 1998, and prior to July 1, 2011, are immediately vested. Participants who initially became WRS eligible on or after July 1, 2011, must have five years of creditable service to be vested.

**Benefits provided**. Employees who retire at or after age 65 (54 for protective occupation employees, 62 for elected officials and State executive participants, if hired on or before 12/31/16) are entitled to receive a retirement benefit based on a formula factor, their final average earnings, and creditable service.

Final average earnings is the average of the participant's three highest years' earnings. Creditable service includes current service and prior service for which a participant received earnings and made contributions as required. Creditable service also includes creditable military service. The retirement benefit will be calculated as a money purchase benefit based on the employee's contributions plus matching contributions, with interest, if that benefit is higher than the formula benefit.

Vested participants may retire at age 55 (50 for protective occupation employees) and receive actuarially-reduced benefits. Participants terminating covered employment prior to eligibility for an annuity may either receive employee-required contributions plus interest as a separation benefit or leave contributions on deposit and defer application until eligible to receive a retirement benefit.

The WRS also provides death and disability benefits for employees.

#### 8. Employee Retirement Plan (Continued)

**Post-Retirement Adjustments.** The Employee Trust Funds Board may periodically adjust annuity payments from the retirement system based on annual investment performance in accordance with s. 40.27, Wis. Stat. An increase (or decrease) in annuity payments may result when investment gains (losses), together with other actuarial experience factors, create a surplus (shortfall) in the reserves, as determined by the system's consulting actuary. Annuity increases are not based on cost of living or other similar factors. For Core annuities, decreases may be applied only to previously granted increases. By law, Core annuities cannot be reduced to an amount below the original, guaranteed amount (the "floor") set at retirement. The Core and Variable annuity adjustments granted during recent years are as follows:

|      | Core Fund Adjustment | Variable Fund Adjustment |
|------|----------------------|--------------------------|
| Year | (%)                  | (%)                      |
| 2012 | (7.0)                | (7.0)                    |
| 2013 | (9.6)                | 9.0                      |
| 2014 | 4.7                  | 25.0                     |
| 2015 | 2.9                  | 2.0                      |
| 2016 | 0.5                  | (5.0)                    |
| 2017 | 2.0                  | 4.0                      |
| 2018 | 2.4                  | 17.0                     |
| 2019 | 0.0                  | (10.0)                   |
| 2020 | 1.7                  | 21.0                     |
| 2021 | 5.1                  | 13.0                     |

Contributions. Required contributions are determined by an annual actuarial valuation in accordance with Chapter 40 of the Wisconsin Statutes. The employee required contribution is one-half of the actuarially determined contribution rate for general category employees, including teachers, and Executives and Elected Officials. Starting on January 1, 2016, the Executives & Elected Officials category was merged into the General Employee Category. Required contributions for protective employees are the same rate as general employees. Employers are required to contribute the remainder of the actuarially determined contribution rate. The employer may not pay the employee required contribution unless provided for by an existing collective bargaining agreement.

During the reporting period, the WRS recognized \$299,833 in contributions from the employer.

Contribution rates as of December 31, 2022 are:

| Employee Category                  | Employee | Employer |
|------------------------------------|----------|----------|
| General (including teachers,       |          |          |
| executives and elected officials)  | 6.50%    | 6.50%    |
| Protective with Social Security    | 6.50%    | 12.00%   |
| Protective without Social Security | 6.50%    | 16.40%   |

#### 8. Employee Retirement Plan (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At December 31, 2022, the City reported an asset of \$2,118,321 for its proportionate share of the net pension asset. The net pension asset was measured as of December 31, 2021, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of December 31, 2020, rolled forward to December 31, 2021. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The City's proportion of the net pension asset was based on the City's share of contributions to the pension plan relative to the contributions of all participating employers. At December 31, 2021, the City's proportion was 0.02628130%, which was a decrease of .00021235% from its proportion measured as of December 31, 2020.

For the year ended December 31, 2022, the City recognized pension revenue of \$183,351.

At December 31, 2022, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|   |    | erred Outflows<br>of Resources | Deferred Inflows of Resources |             |
|---|----|--------------------------------|-------------------------------|-------------|
| Differences between expected and actual experience  | \$ | 3,422,040                      | \$                            | (246,766)   |
| Net differences between projected and actual earnings on pension plan investments                                   |    | -                              |                               | (4,738,861) |
| Changes in assumptions  |    | 395,206                        |                               | -           |
| Changes in proportion and differences between<br>employer contributions and proportionate share of<br>contributions |    | 1,475                          |                               | (1,611)     |
|   |    | 1,173                          |                               | (1,011)     |
| Employer contributions subsequent to the measurement date   |    | 327,875                        |                               |             |
| Total   | \$ | 4,146,596                      | \$                            | (4,987,238) |

#### 8. Employee Retirement Plan (Continued)

\$327,875 reported as deferred outflows related to pension resulting from the WRS Employer's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability (asset) in the year ended December 31, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

|                     | Net Deferred Outflows |              |  |
|---------------------|-----------------------|--------------|--|
| Year Ended December |                       | (Inflows)    |  |
| 31:                 |                       | of Resources |  |
| 2023                | \$                    | (98,331)     |  |
| 2024                |                       | (574,421)    |  |
| 2025                |                       | (253,144)    |  |
| 2026                |                       | (242,621)    |  |
| Total               | \$                    | (1,168,517)  |  |

Actuarial assumptions. The total pension liability in the December 31, 2020, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| Actuarial Valuation Date:                          | December 31, 2020                   |
|--|-------------------------------------|
| Measurement Date of Net Pension Liability (Asset): | December 31, 2021                   |
|  | January 1, 2018 - December 31, 2020 |
| Experience Study:                                  | Published November 19, 2021         |
| Actuarial Cost Method:                             | Entry Age Normal                    |
| Asset Valuation Method:                            | Fair Value                          |
| Long-Term Expected Rate of Return:                 | 6.8%                                |
| Discount Rate:                                     | 6.8%                                |
| Salary Increases:                                  |                                     |
| Wage Inflation                                     | 3.0%                                |
| Seniority/Merit                                    | 0.1% - 5.6%                         |
| Mortality:   | 2020 WRS Experience Mortality Table |

<sup>\*</sup> No post-retirement adjustment is guaranteed. Actual adjustments are based on recognized investment return, actuarial experience and other factors. 1.9% is the assumed annual adjustment based on the investment return assumption and the post-retirement discount rate.

Actuarial assumptions are based upon an experience study conducted in 2021 that covered a three-year period from January 1, 2018 to December 31, 2020. Based on this experience study, actuarial assumptions used to measure the Total Pension Liability changed from the prior year, including the discount rate, long-term expected rate of return, post-retirement adjustment, price inflation, mortality and separation rates. The Total Pension Liability for December 31, 2021 is based upon a roll-forward of the liability calculated from the December 31, 2020 actuarial valuation.

#### 8. Employee Retirement Plan (Continued)

Long-term expected Return on Plan Assets. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Allocation Targets and Expected Returns<sup>1</sup> As of December 31, 2021

|                              |                    | Long-Term               | Long-Term         |
|------------------------------|--------------------|-------------------------|-------------------|
|                              |                    | <b>Expected Nominal</b> | Expected Real     |
| Core Fund Asset Class        | Asset Allocation % | Rate of Return %        | Rate of Return %2 |
| Global Equities              | 52                 | 6.8                     | 4.2               |
| Fixed Income                 | 25                 | 4.3                     | 1.8               |
| Inflation Sensitive Assets   | 19                 | 2.7                     | 0.2               |
| Real Estate                  | 7                  | 5.6                     | 3.0               |
| Private Equity/Debt          | 12                 | 9.7                     | 7.0               |
| Total Core Fund <sup>3</sup> | 115                | 6.6                     | 4.0               |
| Variable Fund Asset Class    |                    |                         |                   |
| U.S. Equities                | 70                 | 6.3                     | 3.7               |
| International Equities       | 30                 | 7.2                     | 4.6               |
| Total Variable Fund          | 100                | 6.8                     | 4.2               |

<sup>&</sup>lt;sup>1</sup>Asset Allocations are managed within established ranges; target percentages may differ from actual monthly allocations

<sup>&</sup>lt;sup>2</sup>New England Pension Consultants Long Term US CPI (Inflation) Forecast: 2.5%

<sup>&</sup>lt;sup>3</sup>The investment policy used for the Core Fund involves reducing equity exposure by leveraging lower-volatility assets, such as fixed income securities. This results in an asset allocation beyond 100%. Currently, an asset allocation target of 15% policy leverage is used, subject to an allowable range of up to 20%.

#### 8. Employee Retirement Plan (Continued)

Single Discount rate. A single discount rate of 6.8% was used to measure the total pension liability, as opposed to a discount rate of 7.00% for the prior year. This single discount rate is based on the expected rate of return on pension plan investments of 6.80% and a municipal bond rate of 1.84% (Source: Fixed-income municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-year Municipal GO AA Index" as of December 31, 2021. In describing this index, Fidelity notes that the Municipal Curves are constructed using option-adjusted analytics of a diverse population of over 10,000 tax-exempt securities.). Because of the unique structure of WRS, the 6.80% expected rate of return implies that a dividend of approximately 1.7% will always be paid. For purposes of the single discount rate, it was assumed that the dividend would always be paid. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments (including expected dividends) of current plan members. Therefore, the municipal bond rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the City's proportionate share of the net pension liability (asset) to changes in the discount rate. The following presents the City's proportionate share of the net pension liability (asset) calculated using the discount rate of 6.80 percent, as well as what the City's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (5.80 percent) or 1-percentage-point higher (7.80 percent) than the current rate:

|                                       | 1%            | Decrease to |               | Current     | 19 | 6 Increase to |
|---------------------------------------|---------------|-------------|---------------|-------------|----|---------------|
|                                       | Discount Rate |             | Discount Rate |             | D  | iscount Rate  |
|                                       |               | (5.80%)     |               | (6.80%)     |    | (7.80%)       |
| City's proportionate share of the net |               |             |               |             |    |               |
| pension liability (asset)             | \$            | 1,503,099   | \$            | (2,118,321) | \$ | (4,725,069)   |

**Pension plan fiduciary net position.** Detailed information about the pension plan's fiduciary net position is available in separately issued financial statements available at <a href="https://etf.wi.gov/about-etf/reports-and-studies/financial-reports-and-statements">https://etf.wi.gov/about-etf/reports-and-studies/financial-reports-and-statements</a>.

*Allocation of Pension Plan.* Pension amounts are allocated between the Proprietary Funds and the General Fund based on the percentage of required contributions of each fund to the whole.

#### 9. Other Postemployment Benefits – Multiple-Employer Life Insurance Plan

**Plan description.** The Local Retiree Life Insurance Fund (LRLIF) is a multiple-employer defined benefit OPEB plan. LRLIF benefits and other plan provisions are established by Chapter 40 of the Wisconsin Statutes. The Wisconsin Department of Employee Trust Funds (ETF) and the Group Insurance Board have statutory authority for program administration and oversight. The plan provides post-employment life insurance benefits for all eligible members.

**OPEB Plan Fiduciary Net Position.** ETF issues a standalone Comprehensive Annual Financial Report (CAFR), which can be found at <a href="http://etf.wi.gov/publications/cafr.htm">http://etf.wi.gov/publications/cafr.htm</a>.

#### 9. Other Postemployment Benefits – Multiple-Employer Life Insurance Plan (Continued)

**Benefits provided**. The LRLIF plan provides fully paid up life insurance benefits for post-age 64 retired employees and pre-65 retirees who pay for their coverage.

**Contributions.** The Group Insurance Board approves contribution rates annually, based on recommendations from the insurance carrier. Recommended rates are based on an annual valuation, taking into consideration an estimate of the present value of future benefits and the present value of future contributions. A portion of employer contributions made during a member's working lifetime funds a post-retirement benefit.

Employers are required to pay the following contributions based on employee contributions for active members to provide them with Basic Coverage after age 65. There are no employer contributions required for pre-age 65 annuitant coverage. If a member retires prior to age 65, they must continue paying the employee premiums until age 65 in order to be eligible for the benefit after age 65.

Contribution rates as of December 31, 2022 are:

| Coverage Type                | Employer Contribution      |
|------------------------------|----------------------------|
| 50% Post Retirement Coverage | 40% of Member Contribution |

Member contributions are based upon nine age bands through age 69 and an additional eight age bands for those age 70 and over. Participating employees must pay monthly contribution rates per \$1,000 of coverage until the age of 65 (age 70 if active). The member contribution rates in effect for the year ended December 31, 2020, are as listed below:

Life Insurance
Employee Contribution Rates\*

For the year ended December 31, 2021

| Attained Age | Basic  | Supplemental |
|--------------|--------|--------------|
| Under 30     | \$0.05 | \$0.05       |

<sup>\*</sup>Disabled members under age 70 receive a waiver-of-premium benefit.

During the reporting period, the LRLIF recognized \$1,275 in contributions from the employer.

#### 9. Other Postemployment Benefits – Multiple-Employer Life Insurance Plan (Continued)

*OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs.* At December 31, 2022, the City reported a liability of \$368,287 for its proportionate share of the net OPEB liability (asset). The net OPEB liability (asset) was measured as of December 31, 2021, and the total OPEB liability used to calculate the net OPEB liability (asset) was determined by an actuarial valuation as of January 1, 2021, rolled forward to December 31, 2021. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The City's proportion of the net OPEB liability (asset) was based on the City's share of contributions to the OPEB plan relative to the contributions of all participating employers. At December 31, 2021, the City's proportion was 0.06231200%, which was a decrease of 0.010372% from its proportion measured as of December 31, 2020.

For the year ended December 31, 2022, the City recognized OPEB expense of \$43,292.

At December 31, 2022, the City reported deferred outflows of resources and deferred inflows of resources related to OPEBs from the following sources:

|   | Ou | referred<br>tflows of<br>esources | In | Deferred<br>Inflows of<br>Resources |  |
|---|----|-----------------------------------|----|-------------------------------------|--|
| Differences between expected and actual experience  | \$ | -                                 | \$ | (18,734)                            |  |
| Net differences between projected and actual earnings on plan investments                                     |    | 4,792                             |    | -                                   |  |
| Changes in actuarial assumptions  |    | 111,272                           |    | (17,851)                            |  |
| Changes in proportion and differences between employer contributions and proportionate share of contributions |    | 13,078                            |    | (37,010)                            |  |
| Employer contributions subsequent to the measurement date Totals  | \$ | 129,142                           | \$ | (73,595)                            |  |

No amount was reported as deferred outflows related to OPEB resulting from the City's contributions subsequent to the measurement date to be recognized as a reduction of the net OPEB liability (asset) in the year ended December 31, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

|                     | Net Deferred |                  |  |  |
|---------------------|--------------|------------------|--|--|

#### 9. Other Postemployment Benefits – Multiple-Employer Life Insurance Plan (Continued)

*Actuarial Assumptions.* The total OPEB liability in the January 1, 2021, actuarial valuation was determined using the following assumptions, applied to all periods included in the measurement:

| Actuarial Valuation Date:                      | January 1, 2021   |
|--|-------------------|
| Measurement Date of Net OPEB Liability (Asset) | December 31, 2021 |

Experience Study: January 1, 2018 - December 31, 2020, Published November 19, 2021

| Actuarial Cost Method:                   | Entry Age Normal |
|--|------------------|
| 20 Year Tax-Exempt Municipal Bond Yield: | 2.06%            |
| Long-Term Expected Rated of Return:      | 4.25%            |
| Discount Rate:                           | 2.17%            |
| Salary Increases                         |                  |
| Inflation:                               | 3.00%            |
| Seniority/Merit:                         | 0.1% - 5.6%      |
|  |                  |

Mortality: 2020 WRS Experience Mortality Table

Actuarial assumptions are based upon an experience study conducted in 2021 that covered a three-year period from January 1, 2018 to December 31, 2020. Based on this experience study, actuarial assumptions used to measure the Total OPEB Liability changed from the prior year, including the price inflation, mortality and separation rates. The Total OPEB Liability for December 31, 2021 is based upon a roll-forward of the liability calculated from the January 1, 2021 actuarial valuation.

Long-term Expected Return on Plan Assets. The long-term expected rate of return is determined by adding expected inflation to expected long-term real returns and reflecting expected volatility and correlation. Investments for the LRLIF are held with Securian, the insurance carrier. Interest is calculated and credited to the LRLIF based on the rate of return for a segment of the insurance carriers' general fund, specifically 10-year A- Bonds (as a proxy, and not tied to any specific investments). The overall aggregate interest rate is calculated using a tiered approach based on the year the funds were originally invested and the rate of return for that year. Investment interest is credited based on the aggregate rate of return and assets are not adjusted to fair market value. Furthermore, the insurance carrier guarantees the principal amounts of the reserves, including all interest previously credited thereto.

## Local OPEB Life Insurance Asset Allocation Targets and Expected Returns As of December 31, 2021

| Asset Class                  | Index                       | Target Allocation | Long-Term Expected<br>Geometric Real Rate of<br>Return |
|------------------------------|-----------------------------|-------------------|--|
| US Intermediate Credit Bonds | Bloomberg US Interim Credit | 45%               | 1.68%  |
| US Credit Bonds              | Bloomberg US Long Credit    | 5%                | 1.82%  |
| US Mortgages                 | Bloomberg US MBS            | 50%               | 1.94%  |
| Inflation                    |                             |                   | 2 30%  |

#### 9. Other Postemployment Benefits – Multiple-Employer Life Insurance Plan (Continued)

The long-term expected rate of return remained unchanged from the prior year at 4.25%. The long-term expected rate of return is determined by adding expected inflation to expected long-term real returns and reflecting expected volatility and correlation. The expected inflation rate increased from 2.20% as of December 31, 2020 to 2.30% as of December 31, 2021.

Single Discount Rate. A single discount rate of 2.17% was used to measure the Total OPEB Liability for the current year, as opposed to a discount rate of 2.25% for the prior year. The significant change in the discount rate was primarily caused by the decrease in the municipal bond rate from 2.12% as of December 31, 2020 to 2.06% as of December 31, 2021. The Plan's fiduciary net position was projected to be insufficient to make all projected future benefit payments of current active and inactive members. Therefore, the discount rate for calculating the Total OPEB Liability is equal to the single equivalent rate that results in the same actuarial present value as the long-term expected rate of return applied to benefit payments, to the extent that the plan's fiduciary net position is projected to be sufficient to make projected benefit payments, and the municipal bond rate applied to benefit payment to the extent that the plan's fiduciary net position is projected to be insufficient. The plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through December 31, 2036.

The projection of cash flows used to determine the single discount rate assumed that employer contributions will be made according to the current employer contribution schedule and that contributions are made by plan members retiring prior to age 65.

**Sensitivity of the City's Proportionate Share of the Net OPEB Liability (Asset) to Changes in the Discount Rate.** The following presents the City's proportionate share of the net OPEB liability (asset) calculated using the discount rate of 2.17 percent, as well as what the City's proportionate share of the net OPEB liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (1.17 percent) or 1-percentage-point higher (3.17 percent) than the current rate:

|                                       | 1% Decrease to Discount Rate (1.17%) |         | Current Discount Rate (2.17%) |                                       | 1% Increase to Discount Rate (3.17%) |                                       |
|---------------------------------------|--------------------------------------|---------|-------------------------------|---------------------------------------|--------------------------------------|---------------------------------------|
| City's proportionate share of the net |                                      | ,       |                               | · · · · · · · · · · · · · · · · · · · |                                      | · · · · · · · · · · · · · · · · · · · |
| OPEB liability (asset)                | \$                                   | 499,633 | \$                            | 368,287                               | \$                                   | 269,455                               |

#### 9. Other Postemployment Benefits – Group Health Insurance Plan

**Plan Description.** The City has their health insurance through Employee Trust Fund (ETF). The ETF health plan allows all retirees who are eligible for WRS to choose to self-pay the full (100%) amount of premiums to remain on the City's group health insurance plan indefinitely, provided they continue to pay all required premiums.

Funding Policy. The City funds the policy on a pay-as-you-go basis.

**Benefits Provided.** The Group Health Insurance plan was provided to all employees who are eligible for WRS upon their retirement.

#### 10. Other Postemployment Benefits – Group Health Insurance Plan (Continued)

*Employees Covered by Benefit Terms.* At December 31, 2021, the following employees were covered by the benefit terms:

| Inactive employees or beneficiaries currently receiving benefit payments | 9  |
|--|----|
| Inactive employees entitled to but not yet receiving benefit payments    | -  |
| Active employees   | 49 |
|  | 58 |

*Total OPEB Liability.* The City's total group health insurance plan OPEB liability, reported as of December 31, 2022, of \$789,553 was measured at December 31, 2021, by an actuarial valuation as of December 31, 2021.

Actuarial Assumptions and Other Inputs. The total group health insurance plan OPEB liability in the December 31, 2021 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless other specified:

Actuarial Valuation Date: December 31, 2021
Measurement Date December 31, 2021

Actuarial Cost Method: Entry Age Normal (level percent of salary)
6.5% decreasing by 0.1% per year down to 5.0%,

and level thereafter

Discount Rate \* 2.25%
Inflation 2.00%
Asset Valuation Method Market Value

Average of Expected Remaining 9 years

Service Lives 9 years

Wisconsin 2018 Mortality Table adjusted for future Mortality mortality improvements using the MP-2018 fully generated improvement scale (multiplied 60%)

Actuarial assumptions are based upon an experience study conducted in 2018 using Wisconsin Retirement System (WRS) experience from 2015-2017.

<sup>\*</sup>The discount rate is based on the S&P Municipal Bond 20 Year High Grade Index as of the week of the measurement date

#### 11. Tax Abatements

Tax abatements are a reduction in tax revenues that results from an agreement between one or more governments and an individual or entity in which (a) one or more governments promise to forgo tax revenues to which they are otherwise entitled and (b) the individual or entity promises to take a specific action after the agreement has been entered into that contributes to economic development or otherwise benefits the governments or the citizens of those governments. The City of Wisconsin Dells, through a Tax Increment Finance District, has entered into a tax abatement agreement for development of a senior housing complex. The agreement calls for a total tax abatement of \$1,579,620, which is payable over seven (7) years starting in 2021. Tax abatement payments are contingent upon collection of tax increment revenues from the development project and, therefore, no liability has been accrued in these financial statements.

As of December 31, 2022, the City provides tax abatements for the following programs:

| Tax Abatement Program | Amount in Taxes Abated: |  |  |  |  |
|-----------------------|-------------------------|--|--|--|--|
| Riverwood Eagles Nest | \$ 235,258              |  |  |  |  |

#### 12. Fund Balances

Governmental fund balances as of December 31, 2022, include the following:

|                                | Nonspendable |         | Restrict   | ed  | Committed  | l Assigned  |

#### 13. Joint Ventures

### A. Wisconsin Municipal Insurance Commission (WMIC) Cities and Villages Mutual Insurance Company (CVMIC)

The City is one of about 40 members of WMIC, an intergovernmental cooperation commission formed to facilitate the formation of CVMIC. CVMIC provides liability insurance coverage to the cities and villages which make up the membership of WMIC. The City's proportionate share of the equity in WMIC is about 0.6%. The investment in WMIC has not been reflected on the balance sheet.

Separate financial statements of WMIC and CVMIC are available at CVMIC, 9898 West Bluemound Rd, Wauwatosa, Wisconsin 53226.

#### B. Wisconsin Dells - Lake Delton Sewerage Commission

The City has a 50% interest in the Wisconsin Dells - Lake Delton Sewerage Commission. The Commission owns and operates facilities for the joint treatment and disposal of sewage from the two municipalities. The City's share of the capital cost, depreciation, and debt of the joint facilities is included in the sewer utility's financial statements. Operating costs are paid to the Commission based on usage and are also reflected in the financial statements of the sewer utility. The net amount paid in 2022 was \$379,715. Separate financial statements of the Commission are available at the Lake Delton Municipal Building.

#### C. Dells-Delton EMS Commission

The City of Wisconsin Dells, Village of Lake Delton, and Town of Delton created the Dells-Delton EMS Commission. The Commission provides emergency medical services to the three municipalities effective January 1, 2003. The City contributed all of its EMS vehicles and equipment to the Commission. The Commission assumed the City's lease obligations related to that equipment. The Commission may assess the participating municipalities for financial deficits. The expenditures in the accompanying 2022 financial statements include the City's payments to the Commission for operations in the amount of \$610,518.

#### 14. Contingencies and Commitments

The City is involved in claims and lawsuits arising in the normal course of business. In the opinion of management, the ultimate outcome of these actions will not have a materially adverse effect on the City's financial position at December 31, 2022.

In 2002, the City purchased real estate for a parking lot and a park. The property may have environmental contamination. The remediation costs may be eligible for reimbursement from the state. No loss accrual has been made in the financial statements.

Various infrastructure improvement projects began in 2022 and are expected to be completed in 2023. Total costs to complete these projects are expected to be approximately \$348,000.

The City has entered developer incentive agreements with various developers in which the City has agreed to pay incentives based on future tax increment collections. Generally, the City will rebate up to 90% of the tax increment generated from the developments each year. Payments are expected to begin in 2025 and end in 2032. The total amount of incentives are \$8,325,000.

#### 15. Business Improvement District

In 1998, the City formed a business improvement district (BID) under Wisconsin Statutes section 66.608. The BID finances improvements within its boundaries through special assessments of properties within the BID. The City collects the assessments with the annual real estate taxes. The BID also receives other funds from the City and others.

#### 16. Tax Increment Financing (TIF)

The City created Tax Increment Finance District #2 (TID #2) in 2001. The total cost of planned projects that will be charged to the TID is \$3,860,000.

The City created Tax Increment Finance District #3 (TID #3) in 2005. The total cost of planned projects that will be charged to the TID is over \$26,000,000.

The City created Tax Increment Finance District #4 (TID #4) in 2006. The total cost of planned projects that will be charged to the TID is \$19,030,000.

In 2002, the City created the Community Development Authority of the City of Wisconsin Dells (CDA). The CDA is responsible for overseeing development in the tax increment districts. The CDA issued lease revenue bonds in 2002 and 2003 and used the proceeds for improvements in TID #2. The CDA leased improvements in TID #2 to the City. The CDA issued lease revenue bonds in 2005, 2006, 2007, and 2008 and used the proceeds for improvements in TID #3. The CDA leases improvements in TID #3 to the City. Lease payments from the City provide revenues to repay the bonds. In 2013 and 2014, the lease payments were insufficient to pay the scheduled bond payment, and the City refunded the scheduled payment with general obligation debt. In 2015, the City refunded the 2005 CDA lease revenue bonds with general obligation debt. In 2017, the City refunded the 2006, 2007, and 2008 CDA lease revenue bonds with lease revenue bonds.

#### 17. Prior Period Adjustment

The following prior period adjustment was recorded effective January 1, 2022 as follows:

|  | <br>Sewer        |  |  |
|--|------------------|--|--|
| Net position as previously stated      | \$<br>12,970,619 |  |  |
| Cumulative effect of reducing capital  |                  |  |  |
| assets for overstated Work in Progress | <br>(898,616)    |  |  |
| Net position, January 1, as restated   | \$<br>12,072,003 |  |  |

#### 18. Subsequent Events

In April 2023, the City approved the issuance of \$3,745,000 in community development lease revenue bonds. The proceeds of these notes will be used to finance infrastructure improvements in TIF #2.

In 2023, the City approved various infrastructure improvements and equipment purchases. The total cost of these items is approximately \$4,500,000.

Data presented as of the measurement date.

### 1. Budgetary Information and Excess Expenditures and Other Financing Uses Over Appropriations

Annual budgets, as required by state statues, are adopted on a basis consistent with U.S. generally accepted accounting principles for all governmental funds. The City's Room Tax Fund is not legally required to adopt an annual budget. Budget amounts in the financial statements include appropriations authorized in the original budget resolution and subsequent revisions authorized by the City Council. Changes to the overall budget must be approved by a two-thirds City Council action. Such revisions are required by a statutory provision which states that no expenditure can be made from an expired appropriation. The statutes also require publication of these budget revisions. Appropriations lapse at year end, except those specifically carried forward by Council action.

The City does not utilize encumbrances in its budget process but does take into consideration certain appropriations, which do not lapse on an annual basis.

No material budget adjustments were made during the year. Unexpended appropriations may be carried over to subsequent years. Budget carryovers are reported as assigned fund balance. Expenditures are controlled at the department level. For the year ended December 31, 2022, the following areas exceeded their budgeted appropriations:

| Public Safety             | \$<br>25,030 |
|---------------------------|--------------|
| Public Works              | 7,355        |
| Health and Human Services | 7,982        |
| Capital Outlay            | 24,312       |

In total, General Fund expenditures were under budget by \$34,451.

#### 2. Employee Retirement Plan

Governmental Accounting Standards Board Statement No. 68 requirements have been implemented prospectively, therefore, the illustrations do not present similar information for the 3 preceding years.

Changes of Benefit Terms. There were no changes of benefit terms for any participating employer in WRS.

Changes of Assumptions. Based on a three-year experience study conducted in 2021 covering January 1, 2018 through December 31, 2020, the ETF Board adopted assumption changes that were used to measure the total pension liability beginning with the year-end December 31, 2021, including the following:

- Lowering the long-term expected rate of return from 7.0% to 6.8%
- Lowering the discount rate from 7.0% to 6.8%
- Lowering the price inflation rate from 2.5% to 2.4%
- Lowering the post-retirement adjustments from 1.9% to 1.7%
- -Mortality assumptions were changed to reflect updated trends by transitioning from the Wisconsin 2018 Mortality Table to the 2020 WRS Experience Mortality Table.

Based on a three-year experience study conducted in 2018 covering January 1, 2015 through December 31, 2017, the ETF Board adopted assumption changes that were used to measure the total pension liability beginning with the year-end December 31, 2018, including the following:

- Lowering the long-term expected rate of return from 7.2% to 7.0%
- Lowering the discount rate from 7.2% to 7.0%
- Lowering the wage inflation rate from 3.2% to 3.0%
- Lowering the price inflation rate from 2.7% to 2.5%
- Lowering the post-retirement adjustments from 2.1% to 1.9%
- -Mortality assumptions were changed to reflect updated trends by transitioning from the Wisconsin 2012 Mortality Table to the Wisconsin 2018 Mortality Table.

<sup>\*</sup>No post-retirement adjustment is guaranteed. Actual adjustments are based on recognized investment return, actuarial experience, and other factors. Value is the assumed annual adjustment based on the investment return assumption and the post-retirement discount rate.

#### 3. Notes to the Local Retiree Life Insurance Schedules

Governmental Accounting Standards Board Statement No. 75 requirements have been implemented prospectively, therefore, the illustrations do not present similar information for the 6 preceding years.

Changes of Benefit Terms: There were no changes of benefit terms for any participating employer in LRLIF.

Changes of assumptions. In addition to the rate changes detailed in the tables at Note 10 to the financial statements, the State of Wisconsin Employee Trust Fund Board adopted economic and demographic assumption changes based on a three year experience study performed for the Wisconsin Retirement System. These assumptions are used in the actuarial valuations of OPEB liabilities (assets) for the retiree life insurance programs and are summarized below.

The assumption changes that were used to measure the December 31, 2021 total OPEB liabilities, including the following:

- Lowering the price inflation rate from 2.5% to 2.4%.
- -Mortality assumptions were changed to reflect updated trends by transitioning from the Wisconsin 2018 Mortality Table to the 2020 WRS Experience Mortality Table.

The assumption changes that were used to measure the December 31, 2018 total OPEB liabilities, including the following:

- Lowering the long-term expected rate of return from 5.00% to 4.25%.
- Lowering the wage inflation rate from 3.2% to 3.0%.
- Lowering the price inflation rate from 2.7% to 2.5%.
- -Mortality assumptions were changed to reflect updated trends by transitioning from the Wisconsin 2012 Mortality Table to the Wisconsin 2018 Mortality Table.

#### 4. Notes to the Group Health Insurance Plan Schedules

Governmental Accounting Standards Board Statement No. 75 requirements have been implemented prospectively, therefore, the illustrations do not present similar information for the 6 preceding years.

Changes of Benefit Terms: There were no changes of benefit terms.

Changes of Assumptions: There were no change of assumptions.
