Re: **STH 69 RESURFACING Notification and Information Request**

Project ID: 1690-05-03/73
NEW GLARUS - VERONA
COW PATH LANE TO DANE COUNTY LINE
GREEN COUNTY

Dear Sir/Madam,

The Wisconsin Department of Transportation (WisDOT) is in the process of pre-plan data gathering for a proposed project on STH 69. The purpose of the project is to extend the service life of the pavement on STH 69 from Cow Path Lane to the Dane county line.

Construction is currently planned for 2031. In preparation for the project's design, studies will be conducted to identify environmental and cultural resources located in the project area. To facilitate this process, WisDOT requests that property owners share information they may have pertaining to archaeological resources, historical structures, erosion control/wetland locations, endangered species, and hazardous/contaminated materials that may be located in the project area. Additional studies may include soil testing and survey work. Information obtained will help WisDOT avoid or minimize the proposed project's effect on these resources while providing a safe and cost-efficient roadway for the community.

State Statute 84.01(10) gives WisDOT and their representatives the right to access your property to gather the aforementioned data. If requested, we'll notify you prior to our crews entering your property, and for example, follow specific safety requests you note on the attached survey. Also, if you find we've placed wood stakes on your property, be assured they'll be removed after the crews have completed their work, so please don't remove them as it will increase the work time for the crews.

If you have any information or would like our crews to notify you before entering your property, please let me hear from you. I can be reached by mail at 2101 Wright Street, Madison WI 53704, or by calling (608)-246-7901. I would like to thank you in advance for your cooperation in our data-gathering process.

Sincerely,

Anthony Buerger, P.E.
