Assisting Agencies: Trans Am

## NARRATIVE OF INCIDENT

OFD alerted of structure fire @ 517 School street Olean NY by a neighbor who called Central Fire after witnessing flames through a window. Upon arrival OFD personnel found light smoke throughout the home with a small fire in the dining room. Homeowner attempted to extinguish prior to Fire Department arrival but was forced to evacuate due to smoke conditions. Fire was contained to room of origin with no further spread. Structure was ventilated and turned over to the homeowner. Fire cause was determined to be a candle burning on the desk in the dining room. The candle was found tipped over and it was determined the papers ignited first followed by fire spread to the shelves above the desk. One patient was treated on scene for smoke inhalation by OFD staff initially before being turned over to Trans Am ambulance for further evaluation. OFD responded with 7 personnel staffing 2 engines and 1 aerial. Trans am ambulance responded to the scene for ambulance coverage at the incident. Weston Mills VFD ambulance crews handled one EMS call in the city while OFD staff were tied up at the scene.
