- Notes.
- 1. Contractor shall attach a copy of their General Liability insurance policy to this application. Such insurance policy shall have a minimum occurrence limit of \$1 million dollars and the Town of Milo shall be shown as the Certificate Holder.
 - 2. Contractor shall ensure that a competent person, as defined by the applicable OSHA standard, shall be in charge of all work. The Town shall not accept any responsibility for liability or safety of the work.

REGULATIONS

All connections to and the use of the Town's public water system is controlled and regulated by Chapter 136, Water, of the Code of the Town of Milo as well as the "Water Service Installation Standards" adopted by the Town. As prescribed by such law, the owner is responsible to ensure that the proposed work is in compliance with such regulations. Furthermore, the owner is responsible for scheduling construction inspections with the Town's water operator at least 48 hours in advance. For this reason, please contact the Town's water operator at (315) 694-0829 if any concerns or questions arise pertaining to compliance with the law.

SERVICE INFORMATION

Service Location: Tax Map ID No.:
Size of Water Service: Type of Material (e.g., copper, plastic):

Note. 12 AWG "Blue" High Strength CCS, 30 mil HDPE Coating, tracer wire shall be spiraled around service. Tracer wire shall be Copperhead HS-CCS HDPE 30 mil insulation or pre-approved equal and made in the USA. Two feet of slack tracer wire shall be installed within curb box in a workmanlike manner.

Proposed Water Service shall serve: Nonresidential Use Residential Use (1 or 2 unit dwelling)

Type of Service: Fire Sprinkler System Potable Water (a.k.a. Domestic)

Backflow Prevention Device Required: Yes No

Note. The NYSDOH has historically considered 1 or 2 unit dwellings to be non-hazardous facilities that do not generally require containment in accordance with Part 5-1.31 of the Sanitary Code of NYS. However, such state department is particularly concerned with the potential for backflow into the public water supply system from those residential customers having auxiliary water supplies, fire sprinkler system, lawn sprinkler and irrigation systems and other miscellaneous residential water uses. If the application is for a nonresidential use or a dwelling that contains potential backflow items, you will need to install a NYSDOH approved backflow prevention device unless approved otherwise by the Town of Milo.

SIGNATURE

THE UNDERSIGNED HEREBY ATTESTS that he or she is the owner of the lot of record that is the subject of this application and officially requests from the Town that a new water service to be installed. Additionally, the owner hereby certifies that the information contained in this application is accurate, true and complete to the best of his or her knowledge and understands that false statements made in this application are subject to the applicable provisions of the Penal Law of the State of New York. Furthermore, the owner comprehends that he or she is ultimately responsible for the compliance with all local, state and federal laws regardless of any contractual agreements with the contractor.
