

EXHIBIT B: Adopting a Comprehensive Plan

SUMMARY: This amendment to the Comprehensive Plan updates the Comprehensive Plan as required under Wisc Stats 66.1001 (4)(b) and would add County Road I to Future Land Use Classification under Supply of Vacant Lands (p.18) as follows:

“Supply of Vacant Lands:

As mentioned previously, over 17,340 acreage of land in the Town is undeveloped and contains ample sites for future Development while preserving the town’s rural environment. To maintain the rural feel, the town is projecting concentrated development of lands primarily in the Town Core Area, along State HWY 57 south of the core area and **County Highways I, T, V and A**. This ensures a systematic growth pattern while maintaining the town’s small, safe and quiet atmosphere.”
