

Public Involvement Meeting

County A and County J Intersection Improvement Project

September 5, 2024

Racine County, in cooperation with the Wisconsin Department of Transportation (WisDOT), is proposing a Highway Safety Improvement Program (HSIP) project located at the intersection of County A (Plank Road) and County J (English Settlement Avenue) in the Village of Rochester. This project intends to reconstruct the intersection into a single lane roundabout, add curb and gutter, and improve roadway drainage with the overall goal of increasing driver safety at the intersection. You are invited to attend the second in-person public involvement meeting to receive updates on the project, get your questions answered, and provide comments for the project team.

We Are Seeking Your Input!

Join us at our open-house public involvement meeting. Your participation is invaluable as we aim to improve our community's infrastructure.

Date: Thursday, September 19, 2024

Time: 4-6 p.m.

Place: Rochester Municipal Hall
300 W. Spring Street
Rochester, WI 53167

Free parking will be available onsite.

Hearing and visually impaired individuals may request accommodations by contacting the project manager.

Can't Make It?

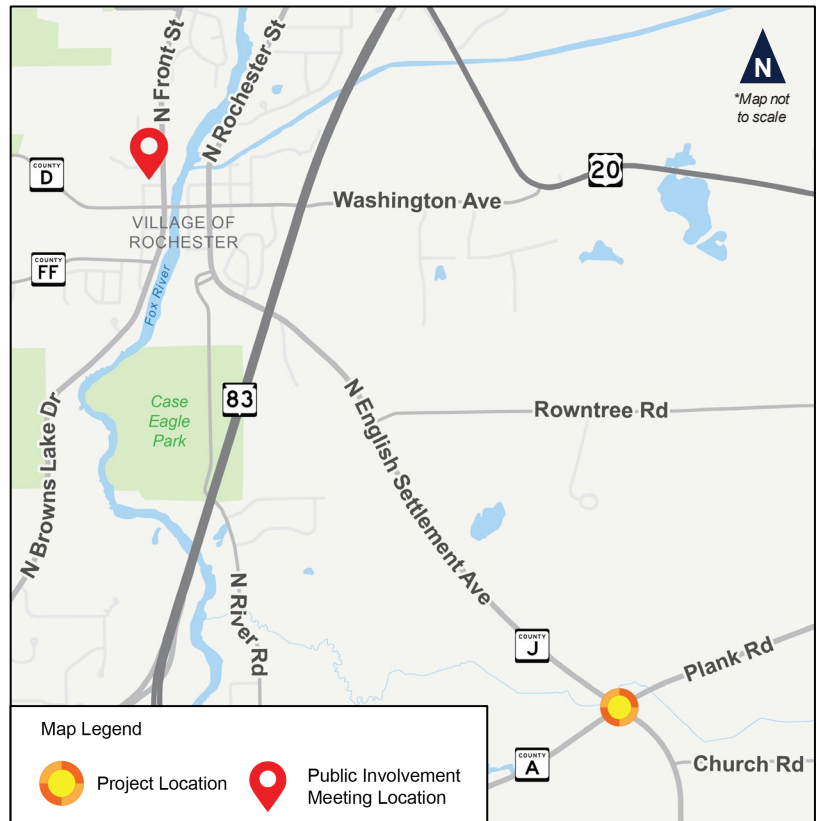

Mail the accompanying comment form to the project manager by October 4, 2024.
