Call before you dig!

Levan Town is your Natural Gas distributor. As such, we operate our gas system with an emphasis on safety. We design, operate and maintain our underground natural gas pipeline system in accordance with federal safety standards.

The following are guidelines you as the Natural Gas user need to be aware of:

It is the responsibility of the customer to maintain the gas piping downstream from the gas meter (for example, from the gas meter throughout the home or structure). If it is not properly maintained, it may corrode or leak. To insure the lines are safe and reliable, they should be checked periodically. It is recommended that you contact a licensed plumber or heating contractor to assist you in downstream plumbing beyond the gas meter.

If any unsafe conditions are discovered, repair should be made as soon as possible. Levan Town Gas Department can refer you to licensed plumbing and heating contractors, or you can use the Yellow Pages for listings.

Should you plan to do any outside digging, Utah law requires that you contact Blue Stakes by calling 811 two days in advance.

This is a free service that is used to locate all underground utility services.

Please be advised that under state law if you do not call 811, you will be billed by all 3rd party entities that are required to be notified in the event of a gas line incident. You can be billed up to \$5,000.00 per party for damage prevention with a maximum civil penalty of \$100,000.00 per excavation. If an excavator fails to provide notice of an excavation, they may be fined an additional \$500.00 along with the previously listed penalties.

Please contact the Levan Town Hall (435) 623-1959 during regular office hours for more information. Monday-Thursday, 8:30 a.m.-12:30 p.m.
