Hello, our names are Keira, Terefech, and Isaiah. We are from the Phelps School District and are members of the SkillsUSA program. If you're not familiar with SkillsUSA, it is a national program where students from across the country compete in over 150 different events. It gives students the opportunity to showcase their talents, develop real-world skills, and gain valuable experience.

The way the competition works is students compete against others from around their state, and those who earn a gold medal at the state level advance to the national competition. Last year, nationals were held in Atlanta, Georgia. Participating in SkillsUSA is a great experience that allows students to demonstrate what they are capable of, while also building important skills even if they don't place.

Last year, one of your projects advanced to nationals and won a gold medal for our small school, which was a huge accomplishment for our community.

This brings us to the reason we are reaching out. We would greatly appreciate it if you could scan the QR code below and complete a short survey. Your feedback will help our town understand what we are doing well and what we can improve on. Thank you for your time and support.

Thank you
