Discussed Siggelkow Road with Mr Brown and Mr Miller representing Wadhams Oil Co.,

Mr Harlow Tipple came in.

Atty Cooper and Atty Brickhouse .

Prepared the following letter to for Socony Vacuum Oil Company:

Gentlemen-

This is to advise you that the Siggelkow Road from U. S. Highway 51 West to its intersection with the C. M. St. P. & P. Railroad Crossing , is a part of the road system of the Town of Blooming Grove and as such it is subject to regulations and restrictions imposed by the Town Board.

At a meeting of the Town Board held on January 4th, 1955, it was agreed that there would be no restrictions placed on this road that would interfere with the normal operation with your business of transportation of petroleum products. By this we mean that you will at no time be shut off from access to paved Highway 51, over and across this road, because of weight limit restrictions placed on it by the Town Board. It is understood that any vehicles used on this road will be subject to weight limits applicable to Class A Highways.

Yours truly,

Leroy W. Bohnsack, Chairman

Mutually agreed too and signed by chairman.

February 14, 1955. Special Meeting.

Omitted from the minutes.

Clerk called attention to the board that it might be advisable to get started on the Sigglekow Road, particularly getting title to the additional width of the road. He stated that the Vacuum Oil Company had called up about the dimensions of their property stating that they were laying out the property to fit their needs. *Sigglekow Rd*

After discussion it was decided that it might be difficult to acquire the necessary width on the south side of the road (near the Brandt house) and that the company might be willing to cooperate and give a little on the north side of the road, then the approach to the railroad would be at Right Angles.

Agreed to meet Saturday forenoon and go and see Mrs Mc Connell, the former Mrs Brandt, and owner of the property south of the Sigglekow Road. Town Clerk to go along.

Discussed appoinment of a committee on Relief, which the Town Clerk had requested as a great aid to him. *Relief Com*

We graded five and one-half miles of roads and streets, 1.9 miles rural and 3.6 miles in platted area.

We blacktopped nearly three miles and sealed 3.5 miles of blacktop that was laid in 1953. For that work we used nearly 12,000 cubic yards of crushed rock.

We enjoyed a real good price on crushed rock this year. The crushed rock for the Lake Edge, Morningside area and Sprecher Road was delivered for \$1.19 per cubic yard and for all other areas for \$1.23.

For the above sealing and blacktopping done by the Dane County Highway Department, we spent \$13,664.15 for blacktopping and \$4,562.96 for sealing, a total of \$18,227.11.

For the above grading and base course we spent \$10,476.00 for grading and \$13,088.91 for crushed rock, a total of \$23,564.91. We purchased three new pieces of equipment, 1—a used 1952 Ford F6 truck, long wheel base, two speed rear axle, had 1900 miles and we paid \$2,275.00. 2—a used 1948 Ford, long wheel base, two speed rear axle truck with a Heil inclosed garbage body for \$1,000.00. 3—a new Wisconsin Special snow plow for \$801.00. This plow is of the flip over type blade for platted areas where there are manholes and valve boxes.

Three miles are scheduled for grading, 2.7 miles for blacktopping and nine miles for sealcoating.

H. O. FEMRITE, Town Clerk

April 9, 1955 Special Meeting 8:00 A. M.

All three members of the board, Mr Pederson, Atty Cooper present.

→ Mrs Florence Brandt Mc Connel and her attorney, Mr. Schneider, appeared at the request of the town board in regard to improving the Siggelkow Road and the effect on her property.

Widening the road would take property along the north edge of her property. Taking down the hill would leave her property with a high bank.. Board proposed to excavate along the edge of the road and slope it back towards the hill.

After discussion the board offered her \$200.00, to slope of her property along the high bank, to fill in between the road and the railroad, and after filling in for the road to the new width, to place the balance of the fill on her lot or tract south of the road and west of Hy 51.

After discussing Mrs McConnell through her attorney insisted on getting \$ 400.00

The board went down to view the property in relation to the new road.

Later the chairman came back and said that they had agreed to pay \$ 400.00.

Meeting adjourned.

Town Clerk

April 18, 1955 Special Meeting 8:00 P. M.

All three members of the board and clerk present.

N.Y. Dept.

Meeting called for conference with road men.

Chairman called the meeting to order.

Phil Pederson, Carl Mc Conley, Earl Kroetz, Richard Dvorak, Harvey Hermsdorf, Lloyd Crabtree present.

Walter B. Johnson called but had to go bowling.

Arthur Amacher had to attend legion meeting.

Chairman called on men to tell their story.

Mr Mc Conley stated that we have not been working together. That this has been going on for six months. He has not learned anything after being here two years,

Mr Pederson said that Mr McConley drove without a drivers license but that he did an excellent job on Garbage collection.

Chairman Bohnsack said that Mr Pederson was under contract to the town and should tell the men what to do.

Mrp Pederson said that after he started at the Bus Company, he wanted to become a mechanic, and he asked Mr Montgomery what he should do to become a mechanic. He was told to get a Manuel and study it and they would see what they could do. He got a Manuel and studied it, became a mechanic, and later foreman. He said that in this kind of employment a man was often on his own and he should be able to get out of a tight spot.

Chairman said that there was no harmony as there should be. But that Mr Pederson was strictly the boss.

Mr Kroetz said that it was no fault of theirs if they did not have a drivers license. They were never asked.

Mr Mc Conley stated that he had been in a serious accident when he was young, and never had a license.

Mr Dvorak said that he had been here seven months - that he had never worked with a gang before. That he had been self employed. He said that there was no harmony, Jealousy, talking about each other, etc.

Mr Kroetz said that he had been accused of doing a rotten job mowing.

Chairman Bohnsack said that any greivances should be brought to Mr. Pederson. If necessary Phil would bring them to board.

Mr Tipple said it was a situation where men did not know if should follow foreman or go to Mr Pederson.

Mr McGonley sais that he was called dumme, critized, laughed at for scrubbing floors, etc. He said if he was to scrub floors he scrubbed tham and they were dlean. Approved by others.

Mr Pederson said that he did not think that he should be here much longer.

Men were called in seperately before the board.

Mr Dvorak said the foreman was running the crew. And who is the boss. He gives the instructions after Phil is gone.

Mr Mc Conley stated that Mr Pederson takes the foreman into his confidence too much. Never sees the men except at noon.

Mr Kroetz stated: Phil is a nice guy, everybody likes him- They have been thinking about a sit down strike - There is some

CAA976

connection between Phil and Lloyd, but does not know what it is.
-Mr Crabtree criticizes everybody behind his back.

Mr Hermsdorf stated: Mr Crabtree never says that anything ~~is~~ is right, but always criticizes - Never finishes a job - Some days he is good - Next day he is awfull.

Mr Pederson stated: Lloyd is good for some things like everybody else - He tries to pick the right man for each job - That he uses his pickup truck for everything, hauling on to the job, etc, has practically wore out one truck and now has a new one - both welding outfits belong to him, always used without question.

Chairman Bohnsack stated that if the town needs a pick - up truck we better get it.
Other members of the board nodded approval.

Mr Crabtree stated: That he had no gripes - Phil said that he should be foreman when he started four years ago - That there, is jealousy - Carl gripes at times.

Chairman Bohnsack if he has been foreman four years we should have known it and the men should have been told. That throws a new light on the matter.

Mr Leonhardt said that Phil should give the orders.

Mr Pederson agreed that Lloyd was foreman.

Board agreed that there was no need of foreman.

Mr Pederson explained that Carl was no truck driver - that Lloyd was trustworthy, that he was careful about flares - would often get up nights to see about something.

Chairman Bohnsack told Mr Crabtree that there would be ~~no~~ no foreman, that Phil was strictly the boss - That the town will not use his pick up truck and will furnish no gas. If we need pick up truck town will buy it.

If Phil is gone someone in the crew will be told what ~~to~~ to do.

Someone would be named stanby for the week end, who should call others if needed. Or the Chairman might cell on them.

Mr Pederson said that he had assigned jobs, like Kroetz & for street cleaning (who would be in charge) and other men for other jobs.

Chairman thought it might be better to pay according to ability. Board discussed the matter - men having to work at so many different jobs - decided to continue present rate.

All were called in.

Chairman told them they were all going back to work and to try to have harmony. Phil will be boss. There will be no foreman. If Phil tells someone to take care of a job he will see that the men finish it.

Mr Pederson asked if they knew that Lloyd was boss when he was on vacation.

Everyone must take his vacation.

Bonds for approval: H. O. Femrite and Ualair W. Brandt.

Mr Tipple moved to Approve. Seconded and carried.

Justice Singer filed his report.

Police report for March filed.

Mr Tipple moved adjournment, Seconeded and carried.

October 12, 1955

Town of Blooming Grove
Mr. Helmer O. Femrite, Clerk
4615 Monona Drive
Madison, Wisconsin

Gentlemen:

At a meeting of the Nichols School Board on October 11, 1955, the school district's need for a school site in the Town of Blooming Grove was discussed.

Because of the rapid building growth in the area east and south of the present school, the electors of the Nichols District and the school board feel it necessary that a school building be built in the presently unplatted area of OL-18 or OL-35, Assessor's Plat No. 2, Town of Blooming Grove.

The school board requests that an area of approximately 20 acres be set aside for school purposes when this area is being considered for platting. The board also requests that it be notified of any proposed platting in either of these areas so that a school location can be selected that will be advantageous to both the person or persons platting and the school district.

It is further requested that this communication be read at and become a part of the minutes of the first town board meeting after it is received by you.

Please do not hesitate to call upon the Nichols School Board if we can be of help at any time. Your past cooperation and considerations are very much appreciated.

Very truly yours,

McFarland Annexation--Where have they been assessed for improvements they did not get? Storm Sewers are usually taken care of when street improvements are made and have been on Bremer Road. Bremer Road--Cost to property owners was \$9,056.00; not \$13,000.00. The story is an absolute falsehood. The widening was all on the side where open space found no obstacles, and therefore resulted in litigation.

Since the court decision, the town expended \$9,660.00 on the project and are liable for \$2,970.00--the amount estimated for blacktop, which was included in special assessments. ✓

The Siggelkow Road has been in use for years. There are only four property owners on that road west of Highway 51. Are those properties assessable under the Special Assessment law?

The residents of Edwards Park, Idlewild and Larson Survey are the ones benefitted by the widening. The widening and improvement was done for these residents, rather than for the oil companies.

Indebtedness of the town is only a small percent of the limit. It is true that Storm Sewers are a large percent of the indebtedness. Storm Sewers will probably last for fifty years. By what reasoning should the few residents here now, pay for the Storm Sewers that will be ^{enjoyed} ~~benefitted~~ by a greatly increased population for years to come. Would that be good financing?

That area was beginning to get the benefits. Town officials were working on plans to take care of the watershed to the northwest--probably their biggest problem.

Mr Leonhardt moved adoption of resolution. Seconded by Mr Bohnsack and carried.

The following letter was written by the town clerk:

In a telephone conversation to-day with Mr. Perry Neff, Atty
he stated that he was ^{un}able to set a firm price on subject property
as he represented various Bruenig creditors. He said he felt the
\$17,500. price discussed was realistic, but he could not be certain
at what figure the creditors would want to put on the property, nor
what Mr. Riley, referee in bankruptcy, would accept.

Mr. Neff stated that he felt the proper way to handle the deal on
the part of the Town would be to submit a bid stating a desire by
the Town to purchase said property at the figure of \$17,500. and
accompany the bid with a certified check for 10% or \$1,750. This would
start the ball rolling. Mr. Neff also stated that a counter offer of
\$18,000. might be returned to the Town, but he still felt that the
\$17,500. was probably close.

In the event the Town desires to proceed the check shall be made out
to; Walter Perry Neff, Trustee in the estate of M. A. Bruenig, Bankrupt.
9 W. Main St. Madison, Wis.

It is my opinion that any 1956 real estate taxes on said property
be paid by the trustee as there is a current assessment (partial)
of \$7800. Special assessments were not checked. (No mention has been
made of this detail)

Respectfully submitted, *M. E. Entenaille*

CHAPTER 341 LAWS OF 1953

SECTION 1. 34.01 (7) of the statutes is amended to read:

34.01 (7) "Treasurer" shall mean any duly elected, appointed or acting official of the state or of any county, city, village, town, drainage district, power district, school district, sewer district, or of any commission, committee, board or any officer or employe of any governmental subdivision of the state, or the clerk of any court in this state, whose duties require that he receive and account for public moneys.

SECTION 2. 34.105 of the statutes is repealed and recreated to read:

34.105 WITHDRAWAL OF PUBLIC FUNDS. (1) Withdrawal or disbursement by a treasurer of any county, city, village, town or school district of moneys deposited in a public depository shall be made as provided by s. 66.042 (1) to (5). "Treasurer" as used herein means only the elected, appointed or acting official treasurer of a county, city, village, town or school district and does not include all of the other persons within the definition of that term in s. 34.01 (7). This section shall not affect the provisions of s. 67.10 (2).

(2) Withdrawal or disbursement of moneys deposited in a public depository by treasurers as defined in s. 34.01 (7), except those mentioned in sub. (1) of 34.105 shall be as provided in s. 66.042 (6).

SECTION 3. 66.042 of the statutes is repealed and recreated to read:

66.042 DISBURSEMENT FROM LOCAL TREASURY. (1) Except as otherwise provided in subs. (2), (3), (4) and (5), in every county, city, village, town and school district, all disbursements from the treasury shall be made by the treasurer thereof upon the written order of the county, city, village, town or school clerk after proper vouchers have been filed in the office of the clerk; and in all cases where the statutes provide for payment by the treasurer without an order of the clerk, it shall hereafter be the duty of the clerk to draw and deliver to the treasurer an order therefor before or at the time when such payment is required to be made by the treasurer. The provisions of this section shall apply to all special and general provisions of the statutes relative to the disbursement of money from the county, city, village, town or school district treasury except s. 67.10 (2).

(2) Notwithstanding any other provision of law, a county having a population of 500,000 may, by ordinance, adopt any other method of allowing vouchers, disbursing funds, reconciling outstanding county orders, reconciling bank accounts, examining county orders, and accounting therefor consistent with accepted accounting and auditing practices, provided that such ordinance shall prior to its adoption be submitted to the state department of audit, which department shall submit its recommendations with respect thereto to the county board of supervisors.

(3) Except in cities of the first class and counties having a population of 500,000 or more, disbursements from the county, city, village, town or school treasury shall be by order check. No such order check shall be released to the payee, nor shall such be valid, unless signed by the clerk and treasurer. The governing body may also by ordinance authorize additional signatures. In lieu of the personal signatures of the clerk and treasurer and such other signature as may be required, there may be affixed on such order check the facsimile signatures of such persons adopted by them and approved by the governing body concerned but the use of such facsimile signature shall not relieve any such official from any liability to which he is otherwise subject, including the unauthorized use thereof. Any public depository shall be fully warranted and protected in making payment on any check bearing such facsimile notwithstanding that the same may have been placed thereon without the authority of the designated persons.

(4) Whenever any board, commission or committee of any county, city, village, town or school district is vested by statute with exclusive control and management of a fund, including the audit and approval of payments therefrom, independently of the governing body, such payments shall be made by order checks issued by the county, city, village, town or school clerk upon the filing with him of certified bills, vouchers or schedules signed by the proper officers of such board, commission or committee, giving the name of the claimant or payee, and the amount and nature of each payment.

(5) In cities of the first class, municipal disbursements of public moneys shall be by order, check or order check. Checks shall be signed by the treasurer and countersigned by the comptroller. Orders shall be signed by the mayor and clerk and countersigned by the comptroller, as provided in the charter of such city.
