WATER SYSTEM CROSS CONNECTION PROGRAM

During 2010 the Village of Mishicot initiated a water system cross connection control program to ensure that water quality for customers of the Mishicot Water Utility continues to be maintained at the highest standards in the industry. These inspections will be required on all residential dwellings once in a ten-year period and will be scheduled well in advance at the convenience of property owners. There may be occasions where potential water system cross connections need to be corrected by the property owner, but there will be no charges from the Village for the inspection services. We welcome any questions you have regarding our continuing efforts to protect your water quality.
