DEO'S IN DENMARK

- DEO Dzekute conducted the drug take back event during the trade fair at the high school. There wasn't as much turned in which is a good thing because that means we don't have as many bottles of pills out in our community. We will continue to keep the drop box in the village hall, but there will be some different instructions that will be posted for the box.
- Both DEOs worked during the trick-or-treating hours. The night was a great success with the biggest problem we had was running out of treats to give to the kids. Thank you to everyone for making the night a great and safe outing. It was great to see all the different costumes out there.
- DEOs continue to evaluate the specific enforcement needs of the village. Strategic plans and scheduling will allow us to continue to monitor problem areas as well as times of heightened problem rates in the village.

INFORMATION BULLETIN

- We have had some incidents in the village of vehicles that have been entered during the night. Just a reminder to keep all vehicles, homes, and outbuildings locked. We may trust our neighbors, but can we always trust the stranger that finds their way into the village. Don't be a "soft target" for criminal activity.
- The village will be getting a voicemail set up on the phone line in the DEO office. If we are not available please leave a message and one of us will get in touch as soon as we can. We will be checking the voicemail throughout our shift.
- If there are any drug issues that you notice throughout the village and you would like to report them please call the **Brown County Drug Task Force tip line: 920-437-DRUG(3784)**. The tips that come in from the village will get sent and viewed by both DEOs. We can then follow up on the tips.

- **If anyone has a police matter that isn't an emergency but you would like an officer to come out please use the non-emergency number: 920-391-7450. This is the easiest way to either get the Denmark DEOs or if they are not available you will get an available county officer. This also helps the Denmark DEOs track the type of calls and call volume. This is what we use to make**
