1. All contractors shall possess the applicable contractor credential(s) issued by the Wisconsin Department of Safety and Professional Services, for the project work described and shall include the required contractor credential number(s) with this application. 2. Permit and Plan Review applications are processed on a first come, first served basis. Review times are based on the complexity of the project and current workload volume of the department. Approvals and permit fees will be confirmed by email notification. 3. At the discretion of the Building Inspector, plans, data, specification, and surveys need not be submitted with an application to permit minor alterations to a structure provided the proposed project is sufficiently described on the permit application.
