

18- Please feel free to provide written comments concerning Cedar Lake, its current and / or historic condition and its management.

Cedar Lake has been a part of my life for nearly my entire lifetime. Installation of the lake well in the 70's had a huge & lasting impact on water levels & lake water quality. Today- the two main issues I see as concerns are Invasive Species & overall vegetation mgmt. AND uncontrolled use of the large wake generating boats & their effects on shore lines & creating dangerous boating conditions.

Note: Displacement mode is when a boat intentionally or not, has not accelerated to a level

18- Please feel free to provide written comments concerning Cedar Lake, its current and / or historic condition and its management.

ALL IN ALL I BELIEVE THE LAKE PROPERTY OWNERS LOVE THE LAKE AND TAKE CARE OF IT AS BEST THEY CAN.

CONCERNS: LARGER MOTORS, LARGER BOATS (SHOULD BE ON LAKE WINNEBAGO), WAKE BOATS VERSUS INVASIVE WEEDS.

18- Please feel free to provide written comments concerning Cedar Lake, its current and / or historic condition and its management.

We bought on Cedar Lake to be on a motor boat
(FUN) Lake. We like the wake / No-wake hours
the way they are, feeling it is fair for everyone.
We accept the times the lake is shut down for
environmental (water level) reasons, etc., but would
definitely approve to hours changes. We love the 11-2
on Sundays.

18- Please feel free to provide written comments concerning Cedar Lake, its current and / or historic condition and its management.

Thank you to all the knowledgeable
people who care for Cedar Lake. We
appreciate your willingness and knowledge
in caring for Cedar Lake.

current and / or historic condition and its management.

It is evident that heavy boat traffic and wakes are causing shoreline erosion by the large amount of INCREASED shoreline protection being done in the last couple of years.

MY boat is a 17' DEEP V. I was anchored parallel to the shore. A large wake pushed the boat 10'-15' sideways. Luckily we were all seated.

Note: Displacement mode is when a boat, intentionally or not, has not accelerated to a level

current and / or historic condition and its management.

We have a general overall concern about safety on the lake during heavy boat traffic periods. We support & enjoy fast boating BUT also enjoy & appreciate lake time of peaceful boating & swimming.

Do you feel unsafe or uncomfortable at any time using Cedar Lake for your activities? Never ☐ sometimes ☒ all the time ☐

LARGE WAKES, WOULD NOT ADVISE USE OF SMALL BOATS BETWEEN 11:00 AM & 6:00 PM

If you feel uncomfortable at all, what days are the worst? Sun ☒ M ☐ T ☐ W ☐ TH ☐ F ☐ Sat ☒

We have a general overall concern about safety on the lake during heavy boat traffic periods. We support & enjoy fast boating BUT also enjoy & appreciate lake time of peaceful boating & swimming.

...that, local municipalities develop ordinances to address the
n." Cedar Lake is Manitowoc County's largest inland lake. After a discussion with Darre
e said the DNR would approve a town ordinance stating, "No boats may operate in a
displacement mode, or non-plane mode continuously unless 200' from shore."

ITS ABOUT TIME !!!

18- Please feel free to provide written comments concerning Cedar Lake, its current and / or historic condition and its management.

IT GOT SO BAD, AS FAR AS I'M CONCERNED, THAT ^I BEARLY
USE THE LAKE ANY MORE.

THE ORDINANCE WOULD ONLY BE
ENFORCED BY THE TOWN CONSTABLE

SHERIFF & DNR DO NOT ENFORCE LOCAL
ORDINANCES

My wife has been a permanent owner of our property since the 1970's when her parents transferred ownership to her. Her relatives were coming to Cedar Lake already in 1907 and her grandfather built the original cottage in the 1920's. In effect she has been on this lake her whole life!

The proposed ordinance is biased and discriminatory and may be illegal. It would seem that some people want to control and restrict good healthy recreational activities of our young people that helps build character and confidence and respect and accomplishment. Do we want to deny our young people the enjoyment of experiencing the excitement of what a lake has to offer?

Here we go once again! Trying to get laws/ordinances put on Cedar Lake as to what individuals can and cannot do. It would appear that some group of people want to control with their power of initiatives of some of the recreational activities when it comes to wake boarding and wake surfing. Our country has enough restrictions on us now and some people want more — this is crazy.

What about those individuals who want to try and succeed at these activities. I think we would all agree with the idea that the lake activities are healthy. Being active in all forms of water activities can keep young children and young adults on the right track and help develop respect in many ways.

As for the motorized surf board that has a battery powering the board, we really are getting to be control freaks!

Maybe we should restrict any watercraft that has 150 HP and greater to the same restrictions as the so called wake boats. And in addition lets ban all and any type of alcohol consumption on pontoons, jet skis and boats of any size. You can't have any open alcohol in a moving vehicle, which is no difference then driving some type of watercraft. I'm sure that would go over like a lead balloon. What's good for the goose is good for the gander.

current and / or historic condition and its management.

Thank you for all of your effort in keeping
our lake safe, clean, and nature friendly.

18- Please feel free to provide written comments concerning Cee

KEEP OUR LAKE USABLE FOR ALL. THANK YOU AGAIN!

current and / or historic condition and its manage-

Obviously a very biased survey, unfortunately. Question "17, it asked without said narrative, would make it seem less so. There is no question on the survey regarding limiting traffic in Cedar Bay. I disagree with the possibility of limiting this part of the lake, causing increased traffic in other parts of Cedar Lake. Also, I feel like some ordinances are "enforced" or discussed more than others, depending on the biases of the

Note: Displacement mode is when a boat, intentionally or not, has not accelerated to a level

Thank you Mike, John & Scott for all of
the work you do to make our lake
beautiful & safe

18- Please feel free to provide written comments concerning current and / or historic condition and its management.

- The number of outside boats needs to be limited for safety.
- The number of parking stalls was supposed to do this, but they park on Wash. Rd.
- Slow boats need to be encouraged to stay near shore when going past the weeds. Fast boats have to dodge them and it is dangerous.
- Jet skis should not be going between the weeds and shore. That is closer than is legal. They should go south of the weeds, that will help with the congestion there as well.

Note: Displacement mode is when a boat, intentionally or not, has not accelerated to a level

If you want to update My real comment would be something along the lines of –

We live on a beautiful fully recreational lake. The Sanitary District has done a good job of maintaining the lake. People enjoy the lake in different ways kayak, pontoon, surf, waterski, tube, wakeboard, swim, paddle board and/or fish. Let the people enjoy the lake and stop trying to pass an ordinance that the DNR cant enforce, the sheriff wont enforce and that divides the people. The Department of Natural Resources is the state wide governing body that will make decisions regarding allowed lake activities after thorough research and investigation. The Sanitary District should do what the DNR dictates in regards to weed cutting, lake water levels and allowed activities. The Sanitary District should not be taking the law into their own hands and passing ordinances based on their own opinions of what should be allowed on the lake.

Thanks again for all you do for the lake.
