

LAFAYETTE'S ABOUT TOWN NEWSLETTER - YEARS AT A GLANCE 2024-2025

ELECTIONS / REGISTRATION / ABSENTEE VOTING / INFO @ myvote.wi.gov by Clerk Konwinski

We encourage residents to obtain information regarding voting and election information only from our office or the Wisconsin Election Commission (including the MyVote website); other sources content is not always accurate. Be aware that 3rd party groups send mailings to voters that may be inaccurate and look like they came from our office. The only election mail you will receive from our office is an official ballot if we have a request on file from you. Our website, www.lafayettetownship.org or the myvote.wi.gov website has information on how to register and what you need to do for, absentee voting, and more. When applying for absentee ballots or registering to vote, please include your phone number. There are often times when ballots or registration forms are sent in and may be rejected due to missing information. To correct it, a simple phone call is usually all it takes. We want **ALL** votes to count!

2025 Election Schedule
Feb. 18th Primary - April 1st Spring
Mark your calendars!!!

PRTL Commission (Parks, Recreation, Tourism, Land Use) By Commission Chair Scott Faris

This Commission is made up of town residents appointed to 4-year terms by the Board of Supervisors. The Commission meets at the Town Hall at 7pm on the second Monday of each month. These meetings are open to the public. This Commission is charged with assisting in the orderly operation and development of the Town as it relates to these subjects. The Commission makes recommendations to the Board of Supervisors who is the decision-making body. Parks include the Brick Boat Landing and Ray's Beach. Recreation and Tourism include the organized youth activities and leagues (soccer, t-ball, softball), ball courts near the Town hall, hiking trails, a disc golf course, lake activities including improvements of water quality, the reduction of invasive species, and the reduction of shoreline erosion.

The Land Use function includes the review, update, and advice on all land use planning, zoning issues, and rezoning requests, including new plats, new CSM's, and stormwater management plans.

The PRTL Commission has been very busy this quarter. We reaffirmed our support for the LWIPA (Lake Wissota Improvement and Protection Association) and the LWSP (Lake Wissota Stewardship Project). We also donated to the Wissota Firefighters Association fall fundraiser. The new playground equipment adjacent to the town hall was installed and the bike route signage for Lafayette is coming soon. There will also be some improved signage at Ray's Beach, the recreation building and the disc golf course. We've added new horseshoe pits (near the first tee box of the disc golf course), continued to improve the disc golf course, made improvements to the pickle ball court fencing and the ball field batting cages. Other active projects happening in the near future are replacing the 24' dock at the boat landing and grooming some cross-country ski trails on the Lafayette grounds, as snow permits.

HELP US HELP YOU!!

9-1-1 EMERGENCY REPLACEMENT ADDRESS SIGNS AVAILABLE

To improve Emergency Services response of Sheriff/Police-Fire-EMS, the Town of Lafayette is offering to township residents' free of charge, new double-sided reflective red/white emergency replacement E-911 address marker signs. Many of these signs were originally installed by Chippewa County in the 1990's and are suffering from maintenance issues. If yours is broken, missing numbers, faded, or broken off call the Lafayette Town Hall at 715-723-7692 and the Public Works crews will install a new free address sign as time permits. Please maintain your address marker signs by keeping them clear of brush and winter snows.

For new construction of residential or commercial buildings, Chippewa County Emergency Management will assign a new address number, followed by installation of a new address sign. Call them at 715-726-7728 for assistance.

By Supervisor Larson

THANK YOU! EVERYONE WORKING TOGETHER

MAKES A GREAT COMMUNITY! Many thanks to all our local organizations for their time, energy, and money spent on projects that enhance our town. And THANK YOU to our residents that help maintain the beauty and peace for us all in Lafayette. Your service and help are appreciated, and your help makes a big difference. Enjoy our playground areas, beach, disc golf court, horseshoe pits, pickle ball and basketball court. Residents may purchase a Brick Boat Landing sticker for \$ 5.00 for the year and enjoy the lake.

History Lesson -1991 Equalized values in Town of Lafayette were \$111,131,550.00. Value in 2024-year end is \$1,252,766,900.00 (billion). The Tax levy in 1991 was \$153,653.00, the 2025 proposed levy is \$1,726,182.00. Our population in 1991 was little over 4,000 and in 2025 its 6,525 Lafayette is a growing community.

ICE SKATING RINK

Mark is hoping to have the rink ready before Christmas. Watch the website for updates. Bring your family for some winter fun. Warming house will be open.

ATV / UTV'S IN LAFAYETTE

Lafayette Town Board approved all Town Roads, except for a couple of roads to be open for ATV UTV use. This does not include County Roads in Lafayette unless marked as open. Please stay off these sections of road and save yourself a \$200.00 fine. Please be considerate of your neighbors when driving your ATV/UTV in the subdivisions and stay safe on our roads.

If you are interested in joining the Lafayette ATV/UTV Club, contact Jim at 715-382-3445

ANNUAL DOG LICENSE REMINDER:

The State of Wisconsin requires dogs to be licensed. The license fees are divided between the Town and the County and help offset the cost of contracting with the County Humane Association; also known as the Howard Gibbs Memorial Animal Shelter, for enforcement and investigations. Our municipality is contracted with the Chippewa Humane Association and any stray dog or cat you recover can be taken to the center free of charge located at 10501 Cty Hwy S South. Residents may also surrender one of their animals for a reduced surrender fee. To report obsessive barking, animals at large, biting, an animal being mistreated, or a vicious animal; call Steve at 715-577-0503.

Dog Licenses-Tags: Fees \$11.00 for altered (spayed/neutered) dogs and \$16.00 for unaltered dogs. If you have not already licensed your dog, do so before April 1 to avoid a \$5.00 late fee. Dog licenses always run from January 1st to December 31st each year. Also be sure that your dog is up to date on his rabies vaccination. We are unable to license a dog if we cannot verify that it is current on its rabies. If you mail in your dog license fees/applications, ***be sure to send us a self-addressed stamped envelope*** so we can return the tag to you. Be sure to keep your dogs on a leash and clean up after them. Respect your neighbors. Thank you for your cooperation.

What is a stormwater pond?

A stormwater pond is a best management practice for stormwater quality and control. Stormwater ponds help to stop pollutants from stormwater runoff, before they reach bodies of water, by providing a permeable surface that acts as a filtering device. They are important in areas where there is not an adequate amount of green space like near roadways, sidewalks, parking lots, driveways, and other impervious surfaces. Stormwater ponds help to keep our waterways clean by acting as the first line of defense against pollution. Stormwater control is required by ordinance for land disturbing activities equal to or greater than 1-acre.

Subdivisions in Lafayette all have storm water ponds or ditches designed to handle major storm events. It is important that residents **DO NOT** put grass clippings, leaves or brush in these ponds or ditches which that could hinder water flow causing backups and possible flooding. Remember in 2018 flooding along 50th Ave. Remember only water goes in these ponds and ditches. **DO NOT** drive through any of these ponds with any type of vehicle, including UTVs ATVs and snowmobiles.

Stormwater Management in Town of Lafayette

The Town of Lafayette has a stormwater ordinance that requires stormwater management control for sites that propose land disturbance activity equal to or greater than 1-acre. This management includes the implementation of best management practices to treat and attenuate stormwater prior to discharging from the site. These practices typically include stormwater facilities, such as infiltration basins, vegetated swales, wet detention ponds or combination of practices to meet the requirements of the ordinance. Many of these facilities can be seen in commercial developments and subdivisions. After construction, continual maintenance is necessary to ensure the designed functionality these facilities.

By Chairman David Staber

Winter Regulations and Reminders

We encourage you to check our website (homepage) for updates during a snowstorm regarding plowing operations. The larger the snowfall, the more time it takes to plow; we encourage you to be patient. School bus routes and hills are always given priority. When possible, our drivers begin their routes in the middle of the night before commuters and school buses are on the road; however, depending on the timing of the snowfall this is not always possible. The Town Road Crew plows over 180 lane miles of roads after a snow fall. Remember, if you live on a County Road within the Town of Lafayette, your road is plowed by the County. Keep garbage cans off the road to help avoid the plowed snow from knocking them over.

PLOWING REMINDERS

Snow plowing and mailboxes. If the snowplow strikes your mailbox with the plow or the wing the Town Crew will replace it with a standard USPS black mailbox. If the mailbox is damaged or knocked over by snow coming off the blade or wing it will not be replaced. It is your responsibility as property owner to ensure your mailbox is securely mounted and able to withstand the snow that may strike it.

Plows must maintain speed when plowing snow to make sure it moves off the blade or wing rather than just pushing it ahead of the truck which could result in truck damage, especially if we're plowing wet heavy snow or slush.

Slow down for the safety of all!!

The **BATEMAN CEMETERY** is located on the corner of Cty Hwy X & Cty Hwy K. It is owned and maintained by the Town of Lafayette for the benefit of all citizens and is a non-denominational cemetery. The price of 1 plot is \$ 500.00. There are 4 plots per lot. Rules & regulations are set to insure proper care per the Cemetery Ord. Upon payment a Bateman Cemetery Deed will be given to the purchaser noting the Lot, Blk & Section. **CONTACT CEMETERY SEXTON -PETE KRUMENAUER 715 559-0030 FOR INFO.**

Road Work 2024 / 2025

With over 90 miles of road in Lafayette it's important to keep up with pavement replacement and maintenance. In 2024 we have done about 4 miles of road rebuilding, hoping they last another 25 years. All the roads in the Sundet addition just north of the Golden Eagle Restaurant were pulverized and repaved, along with Grove Lane just north of J off 167th. 45th Ave from 220th St. west to Hwy 29 along with 216th St. were done in late September. Also, in September, 30th Ave from Highway J to just west of 180th St. was pulverized and repaved. We did receive grant funding for both late September projects saving Lafayette about \$140,000.00. Most of the Town roads south of Highway 29 have been rebuilt in the last 5 years with a couple of exceptions, like 185th street which should be done in 2025.

By Chairman Staber

TOWN OF LAFAYETTE SEVERE WEATHER WARNING SIRENS

The Town of Lafayette has been very proactive in helping to notify our residents & visitors of approaching severe weather in our area with the installation of four weather warning sirens. A 3rd warning siren was added in 2018 at the location of 185th Street & 70th Avenue, while a 4th warning siren was added in 2022 at the intersection of County Highway "OO" & 190th Street.

The other two are located, one along County Highway "X" near the Lake Wissota Brick Boat Landing and the other at the Lafayette Fire Station. These warning sirens are activated by the Chippewa County E-911 Emergency Dispatch Center when either a Severe Tornado Warning or a Severe Thunderstorm Warning is issued for our area by the National Weather Service.

The four sirens are tested on the first Monday of each month at 11:00 am.

By Supervisor Larson

Chippewa Fire District Lafayette Station 3

WE NEED YOU - APPLY TODAY (NO EXPERIENCE NECESSARY)

Chippewa Fire District Lafayette Station 3 is currently staffed 24/7 with a 2-person paramedic/firefighter duty crew (1 career & 1 Part-time) that responds to fire and EMS calls. In addition, the station has 24 paid on-call volunteers (18 fire/EMS personnel and 6 dive personnel) under the direction of Deputy Chief Cory Jeffers. When available volunteers respond to fires and other emergencies in our coverage area and neighboring communities. Station 3 meets Wednesday nights for trainings, meetings, and work nights (members are paid for these). If you are 16 years of age or older and are interested in serving your community, please visit our website www.chippewafiredistrict.com, check us out on Facebook or

call Fire Chief Scott Bernette at 715-723-5488.

UPDATED BURNING REGULATIONS

Effective 5/2/2022, The Chippewa Fire District will be following the recommendations of the WI DNR for all daily burning and material restrictions, including no burning on Sundays. If burning is authorized on the day you call, please note that the following restrictions apply - fire is to be no larger than 6x6x6 and must be extinguished by midnight.

If you would like to burn outside of recommendations, you will need to contact the Fire District for a special permit which will require a site inspection and fee prior to burning. The site inspection will check the area for safety, proper clearances, materials to be burned, and weather conditions.

Questions regarding Burning, Permits, Site Inspections, Fire Inspections, and Fire Prevention within the Chippewa Fire District, please contact Fire Inspector Rebecca Shervey at 715-723-5488.

PLEASE DO NOT FILL IN ROADSIDE DITCHES

Town Supervisors and Public Works employees have noticed an increasing number of roadside ditches being filled in, presumably for aesthetic purposes to create a more level approach from residents' yards to the road. Roadside ditches offer a variety of significant environmental and infrastructural benefits, which is why residents/property owners are requested to NOT fill in the roadside ditches. Primarily, these ditches serve as an effective means of water management. During heavy rainfall or snowmelt, they help to channel excess water away from roads, preventing flooding and reducing the risk of road damage. This ensures safer driving conditions and prolongs the lifespan of road surfaces, which would otherwise be prone to erosion or collapse due to standing water.

Moreover, roadside ditches play a vital role in environmental protection. They help in the filtration of water by allowing it to slowly percolate through the soil, which can trap pollutants such as oils, sediments, and chemicals before the water reaches larger water bodies, such as Lake Wissota. This natural filtration process contributes to cleaner rivers and streams, such as Paint Creek, Stillson Creek, Yellow River, and other contributories to Lake Wissota.

In rural and agricultural areas, roadside ditches also aid in managing excess runoff from fields, preventing soil erosion and the loss of valuable topsoil. Additionally, they often provide habitat for wildlife, such as small mammals, amphibians, and insects, supporting biodiversity.

In sum, roadside ditches are essential components of the Town's infrastructure. They contribute to water management, environmental health in our rivers, creeks, and Lake Wissota, and road safety, making them an integral part of sustainable land use planning.

Most roadside ditches are within the road right of way, which on Town roads is controlled by the Township. In most cases, the right of way extends 33 feet from the center of the roadway. A significant portion of the Town's annual budget is directed toward road maintenance. Please understand that your investment of time and money to fill in a ditch may be undone should it be deemed detrimental to the long-term maintenance of the road surface, or a safety concern for drivers due to standing water on the road.

By Supervisor Mathwig

Lafayette Recreation 2024 Wrap-up.

By Bruce Kyes Rec Director

Lafayette Recreation wrapped up the 2024 youth sports in mid-October. Youth soccer saw its strongest year ever with 304 (spring) and 209 (fall) players. Tee ball filled 16 teams with 166 players. Girls Fastpitch had 28 players and the baseball instructional fielded 26 players. The total participation for the year is 567.

Newly added this fall is an 'All Girls' U8 Soccer division. Our past years' registration data showed sharp declines in 'girls' participation as they grew older. Based on post-season feedback, this new 'All Girls' division was well received and was form teams and sign up. We saw new teams from Cornell and Stanley sign up, which is great to see.

Facility improvements continued this year. All the old wooden bleachers have now been replaced. A new playground was built near the town hall where the old one was removed. One of our batting cages is being improved with a concrete pad throughout.

It takes so many to make this program work. 'Thank you' to all our volunteer coaches. We also appreciate our refs, umps, concessions workers, and our fine town crew who all make this a great program. Gratitude also goes to the Town of Lafayette for investing in and supporting youth sports.

Lafayette Youth Sports is a great tradition—we believe every kid should get a chance to play. Our registration fees are reasonable, and assistance is provided upon request.

Don't forget to check out our lighted ice-skating rink this Winter. Our Recreation building has a nice warm area with bathrooms to make it more fun.
