

## TOWN OF FARMINGTON

### REQUIREMENTS FOR SOLAR ARRAY PROJECTS

- A building permit and electrical permit are required for roof mounted and ground mounted solar projects. Building permit fee is \$50. The electrical permit fees are on application.
- Anything mounted on a roof will require structural calculations providing adequate support. A drawing of the existing support locations/or modifications and a copy of structural calculations are needed with the application.
- Ground mounted solar arrays will require a site plan and a self-certification form from Washington County.
