

NOTICE OF HILLTOWN CDC FIELD WORK

Hilltown CDC has been selected to prepare the FY26 Community Development Block Grant (CDBG) Application on behalf of the Town of Chesterfield. As part of the application requirements, Hilltown CDC staff will be conducting a randomized property conditions survey across the eligible Hilltown communities, including Chesterfield, Cummington, Goshen, Plainfield, Savoy, Westhampton, Williamsburg, and Worthington.

Over the coming weeks, Hilltown CDC staff will be driving through your communities to take general photographs for inclusion in the grant submission. The vehicle most likely will be a **pumpkin-orange Hyundai KONA**.

Please note:

- The survey is a standard requirement for the CDBG program
- **No addresses, personal information, or identifying features** are included in the application.
- All photos are used only to document overall housing and infrastructure conditions in aggregate.

Hilltown CDC will be reaching out directly to local law enforcement to make them aware of this activity and prevent any confusion or concern.

Thank you very much for your cooperation and support while the Hilltown CDC works to prepare a strong FY26 CDBG application.

Sincerely,
Hilltown CDC
