

Sewer rate increase  
Jul 15, 2013

The Village of Withee Board approved at the July 8th meeting a sewer rate increase for the residents of Withee. The Village purchases sewer services from Owen and received a rate increase for that service. The Village sewer account will not be able to stay in the positive if an increase is not passed on to the residents. The board approved the following sewer increase:

- per volume charge will increase to \$8.50/1,000 gallons used from \$7.50/1,000
- monthly meter charge will increase to \$6.75/month from \$6.50/month

These rates will become effective on the August billing.

Thank You!
