

Program Overview and Guidelines

Buffalo County is again offering an Ag & Household Hazardous Waste Clean Sweep Collection Program to residents, businesses and farms. Funds for collecting hazardous waste are provided by Buffalo County and grants from the Wisconsin Department of Agriculture, Trade & Consumer Protection.

Residents and farmers may bring their materials to the Clean Sweep collection site at no cost.

What Is Clean Sweep?

Clean Sweep is the common name for programs designed to safely dispose of hazardous waste products so they don't end up in landfills and the environment. There are three types of Clean Sweep programs: Residential; Agricultural; and Very Small Quantity Generator for businesses which generate and store smaller amounts. Clean Sweep programs are typically sponsored by either county or municipal governments.

Hazardous waste describes products that if not handled properly, can be harmful to people, animals, or the environment, particularly surface and ground waters.

Farmers and property owners may bring chemicals from active and abandoned farms for disposal at no cost. Agricultural businesses may be eligible for a subsidy to reduce the disposal fees.

Proof of Buffalo County residency will be required.

- Tires
- Infectious and biological waste
- Appliances
- Freon gasses
- Ammunition
- Used motor oil
- Batteries
- Empty Pesticide Containers
- Ag Plastics

UNKNOWN CHEMICALS

Unknown chemicals will be accepted from active & abandoned farms in quantities up to 50 pounds or 5 gallons. For larger quantities please contact: Buffalo County Recycling

Tony Pfaff

anthony.pfaff@buffalocountywi.gov

HOUSEHOLD CLEAN SWEEP

Buffalo County residents may bring household hazardous waste for free disposal. Wastes must be brought in their original containers. Please keep materials separate. **DO NOT MIX chemicals!**

To prepare your materials for transport, line a cardboard box with a plastic bag and place them in a box separated by cardboard.

BUSINESSES

Businesses that generate Ag Chemicals, and Very Small Quantity Generators (VSQGs), are eligible for reduced or subsidized disposal cost.

All businesses, industries and institutions must pre-register by May 1st. Some limitations apply.
