INDEPENDENT AUDITOR'S REPORT

Chairman and Members of the
Borough of Buena Municipal Utilities Authority
Minotola, New Jersey

Report on the Financial Statements

We have audited the accompanying financial statements of the Borough of Buena Municipal Utilities Authority, a component unit of the Borough of Buena, Atlantic County, New Jersey, as of and for the years ended December 31, 2012 and 2011, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and audit requirements as prescribed by the Bureau of Authority Regulation, Division of Local Government Services, Department of Community Affairs, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Borough of Buena Municipal Utilities Authority, as of December 31, 2012 and 2011, and the changes in financial position, and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As described in Note 2P to the financial statements, in 2012, the Authority adopted new accounting guidance contained in GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* and GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Borough of Buena Municipal Utilities Authority's basic financial statements. The accompanying supplementary schedules as listed in the table of contents and the Schedule of Expenditures of Federal Awards, as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, accompanying supplementary schedules as listed in the table of contents and the Schedule of Expenditures of Federal Awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated August 14, 2013, on our consideration of the Borough of Buena Municipal Utilities Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Borough of Buena Municipal Utilities Authority's internal control over financial reporting and compliance.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Chairman and Members of the
Borough of Buena Municipal Utilities Authority
Minotola, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Borough of Buena Municipal Utilities Authority, a component unit of the Borough of Buena, Atlantic County, New Jersey, as of and for the year ended December 31, 2012, and the related notes to the financial statements, which collectively comprise the Borough of Buena Municipal Utilities Authority's basic financial statements, and have issued our report thereon dated August 14, 2013.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Borough of Buena Municipal Utilities Authority's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Borough of Buena Municipal Utilities Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Borough of Buena Municipal Utilities Authority's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Borough of Buena Municipal Utilities Authority's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM
AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133**

Chairman and Members of the
Borough of Buena Municipal Utilities Authority
Minotola, New Jersey

Report on Compliance for Each Major Federal Program

We have audited the Borough of Buena Municipal Utilities Authority's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the Borough of Buena Municipal Utilities Authority's major federal programs for the year ended December 31, 2012. The Borough of Buena Municipal Utilities Authority's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Borough of Buena Municipal Utilities Authority's, major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Borough of Buena Municipal Utilities Authority's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Borough of Buena Municipal Utilities Authority's compliance.

Opinion on Each Major Federal Program

In our opinion, the Borough of Buena Municipal Utilities Authority, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2012.

Report on Internal Control Over Compliance

Management of the Borough of Buena Municipal Utilities Authority is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Borough of Buena Municipal Utilities Authority's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Borough of Buena Municipal Utilities Authority's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

REQUIRED SUPPLEMENTARY INFORMATION

MANAGEMENT'S DISCUSSION AND ANALYSIS

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the Borough of Buena Municipal Utilities Authority's (the Authority) annual financial report presents the analysis of the Authority's overall financial position and results of operation for the year that ended on December 31, 2012. Please read it in conjunction with the financial statements, which follow this section.

OVERVIEW OF THE FINANCIAL STATEMENTS

The Authority's Audit Report includes the required Basic Financial Statements, as described below, the Notes to Financial Statements, required supplementary information, which consists of this Management Discussion and Analysis and finally, supplementary information.

REQUIRED FINANCIAL STATEMENTS

The Authority is a single enterprise fund, which includes the Sewer Operation and the Water Operation. Enterprise funds are used to account for the operations that are financed and operated in a manner similar to those used by private business enterprises – where the intent of the governing body is that the costs (including depreciation) of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges.

The ***Statement of Net Position*** includes all of the Authority's assets, deferred outflows of resources, liabilities, deferred inflows of resources and net position and provides information about the nature and amounts of investments in resources (assets) and the obligations to Authority creditors (liabilities). It also provides the basis for computing rate of return, evaluating the capital structure of the Authority, and assessing the liquidity and financial flexibility of the Authority.

All of the current year's revenues and expenses are accounted for in the ***Statement of Revenues, Expenses and Changes in Net Position***. This statement measures the success of the Authority's operations over the past year and can be used to determine whether the Authority has successfully recovered all its costs through its wastewater treatment user fees, water user fees and other charges. This statement also measures the Authority's profitability and credit worthiness. The other required financial statement is the ***Statement of Cash Flows***. The primary purpose of this statement is to provide information about the Authority's cash receipts and cash payments during the reporting period. This statement reports cash receipts, cash payments, and net changes in cash resulting from operations, investing and financing activities, and provides answers to such questions as "where did cash come from, what was cash used for, and what was the change in cash balance during the reporting period?"

FINANCIAL ANALYSIS OF THE AUTHORITY AS A WHOLE

One of the most important questions asked about the Authority's finances is "Is the Authority, as a whole, better off or worse off as a result of the year's activities?" The Statement of Net Position and the Statement of Revenues, Expenses and Changes in Net

Position report information about the Authority's activities in a way that will help answer this question.

These two statements report the net position of the Authority, and changes in them. You can think of the Authority's net position – the difference between assets and liabilities – as one way to measure financial health or financial position. Over time, increases or decreases in the Authority's net position are one indicator of whether its financial health is improving or deteriorating. However, you will need to also consider other non-financial factors such as changes in economic conditions, customer growth, and legislative mandates.

SEWER OPERATION

FINANCIAL HIGHLIGHTS OPERATIONS

- The Net Capital Assets of the Authority's Sewer Operation total \$7.94 million, which is a \$3.39 million or 74% increase from 2011.
- The Total Assets of the Authority's Sewer Operation are \$9.86 million, which is a \$.028 million or .28% increase from 2011.
- During the year, the operating revenues of the Authority's Sewer Operation were \$1.49 million which is a \$.263 million or 21.54% increase from 2011 and its operating expenses increased by \$.009 million to \$1.21 million compared to 2011.

The total net position of the Authority's Sewer Operation increased from last year by \$.336 million. The analysis below focuses on the Sewer Operation's net position (Table 1A) and changes in net position (Table 2A) during the year.

Total Net Position	<u>\$ 3,700</u>	<u>\$ 3,364</u>	<u>\$ 336</u>	9.99%

The increase in current assets is primarily the net result of increases in cash, accounts receivable, grant receivable, and inventory and decreases in prepaid expenses and due from restricted.

The decrease in noncurrent assets is due to the net result of decreases in restricted cash and interest receivable and the increase in net capital assets.

The decrease in current liabilities payable from unrestricted assets is the net result of the decreases in interfund payable and unearned revenue and the increase in accounts payable. The increase in current liabilities payable from restricted assets is the net result of increases in retainage payable and project notes payable and the decreases in accounts payable-restricted, contracts payable, due to unrestricted and the current portion of revenue bonds payable.

The decrease in long-term liabilities is primarily due to the decrease of principal maturities of revenue bonds payable and New Jersey Environmental Infrastructure Trust Loans payable.

Changes in the net position of the Authority's Sewer Operation can be determined by reviewing the following condensed Statement of Revenues, Expenses and Changes in Net Position.

REVENUES AND EXPENSES

The total revenues of the Authority's Sewer Operation are approximately \$1.53 million for the year ended December 31, 2012. User Charges and Fees were \$1.28 million, accounting for 83% of total revenue. Septage Fees were \$.210 million, accounting for 14% of total revenue. Operating expenses include cost of providing services, which totaled \$.768 million, an increase of \$.042 million from the prior year, and administrative and general expenses of \$.187 million, a \$.023 million decrease compared to last year.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At the end of December 2012, the Authority's Sewer Operation had \$7.94 million invested in a broad range of capital assets. More detailed information about capital assets can be found in Note 6 to the financial statements. Total depreciation expense for the year was \$.254 million.

The following tables summarize the capital assets of the Authority's Sewer Operation, net of accumulated depreciation, and changes therein, for the year ended December 31, 2012.

Construction in Progress (net)	3,531

The Authority's FY 2013 capital budget plans for investing another \$1.85 million in capital projects, including the following (in thousands):

Upgrade and Expansion	\$ 1,514
Plant Operating/Office Equipment	25
Lines and Laterals	315
Total	<u>\$ 1,854</u>

The Authority plans on funding those capital projects using a combination of existing cash, including reserves, year 2013 revenue, and cost reimbursement from grant and/or loan funds.

Debt Administration

At December 31, 2012, the Authority's Sewer Operation had several outstanding bond issues and notes payable in the amount of \$5,650,853 that mature in various amounts through the year 2019 with interest rates ranging from 0% to 5.0%. The Authority also has accrued compensated absences in the amount of \$35,800. More detailed information about long-term liabilities can be found in Note 8 to the financial statements.

NEXT YEAR'S BUDGETS AND RATES

The budget for the year 2013 maintains the same rates for residential user charges and fees setting the rate at \$545 per unit per year. In addition, commercial sewer users are billed based on flow. Budgeted connection fees for new customers remain the same at \$3,500/unit.

WATER OPERATION

FINANCIAL HIGHLIGHTS OPERATIONS

- The Net Capital Assets of the Authority's Water Operation total \$3.047 million, which is a (\$.127) million or 4.00% decrease from 2011.
- The Total Assets of the Authority's Water Operation decreased .74% from the prior year to \$3.98 million.
- During the year, the operating revenues of the Authority's Water Operation were \$.761 million which is a \$.011 million or 1.44% increase from 2011 and operating expenses were \$.751 million, which is a 2.13% decrease from 2011.

The total net position of the Authority's Water Operation increased from last year by \$.042 million. The analysis below focuses on the Water Operation's net position (Table 1B) and changes in net position (Table 2B) during the year.

Total current assets increased due to the increases in cash and inventory and the decreases in accounts receivable and interfund receivable.

The decrease in noncurrent assets is due to decreases in cash, interest receivable and net capital assets.

The increase in current liabilities payable from unrestricted assets is the net result of the increase in accounts payable together with the decreases in accrued liabilities and unearned revenue. The decrease in current liabilities payable from restricted assets is the result of the decrease in the current portion of revenue bonds payable and interest payable on revenue bonds and notes.

The decrease in long-term liabilities is the result the decrease of principal maturities of revenue bonds payable and accrued compensated absences.

Changes in the net position of the Authority's Water Operation can be determined by reviewing the following condensed Statement of Revenues, Expenses and Changes in Net Position.

NOTES TO THE FINANCIAL STATEMENTS

BOROUGH OF BUENA MUNICIPAL UTILITIES AUTHORITY
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011

NOTE 1 GENERAL

The Borough of Buena Municipal Utilities Authority was created as a political subdivision of the State of New Jersey by ordinance of the Borough of Buena dated December 23, 1963 pursuant to N.J.S.A. 40:14B-6.

The Authority was created to install, construct, finance and maintain the operations of a water supply system and sewerage system in the Borough of Buena.

As a public body under existing statute, the Authority is exempt from both federal and state taxes.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of the more significant accounting policies:

A. Financial Reporting Entity

The commissioners of the Authority are appointed by the Borough Council of the Borough of Buena. The Service Agreement entered into between the Borough and the Authority obligates the Borough to pay annual charges, if necessary, to provide for any deficiency in the revenues of the Authority. As a result, the Authority meets the financial accountability criteria for component units set forth in Governmental Accounting Standards Board ("GASB") Statement No. 14. The financial statements of the Borough of Buena are not presented in accordance with generally accepted accounting principles and do not present the financial statements of its component units in accordance with GASB Statement No. 14. If the provisions of GASB Statement No. 14 were being complied with, the financial statements of the Authority would have been discretely presented with those of the Borough. The Authority does not have any component units for which it is financially accountable.

B. Basis of Presentation

The accounts of the Authority are an enterprise fund. An enterprise fund is a Proprietary type fund used to account for operations (a) that are financed and operated in a manner similar to private business enterprises- where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or the change in net position is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

The accompanying financial statements are reported using the "economic resources measurement focus," and the "accrual basis of accounting." Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

BOROUGH OF BUENA MUNICIPAL UTILITIES AUTHORITY
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
DECEMBER 31, 2012 AND 2011

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Authority are user charges and fees for sewerage treatment, water supply and septage fees. The Authority also recognizes interest on delinquent customer accounts and certain types of miscellaneous income as operating revenue. Operating expenses include cost of providing services, administrative and general expenses, and depreciation. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the Authority's policy to use restricted resources first, then unrestricted resources as they are needed.

D. Budgets and Budgetary Accounting

The Authority must adopt an annual budget in accordance with N.J.A.C. 5:31-2. The budget must be introduced by the governing body at least 60 days prior to end of the current fiscal year, and adopted no later than the beginning of the Authority's fiscal year. The budget is adopted on the accrual basis of accounting with provision for cash payments for bond principal. Depreciation and amortization expense are not included as budget appropriations. The Authority may make budget transfers and amendments at any time, which must be approved by resolution of the Authority and by the State of New Jersey Division of Local Government Services if the legal level line items are affected. Detailed line item transfers not affecting the legal level line items may be made by management at any time. There are no statutory provisions that budgetary line items not be over-expended.

E. Allocation of Common Costs

Certain costs not specifically identifiable to either the sewer or water operation that benefit both operations, including salaries, wages and benefits and other administrative costs are allocated between the sewer and water operations based on management's estimates.

F. Accounts Receivable

The Authority has provided for doubtful accounts by the allowance method. The allowance for doubtful accounts is based upon management's estimate of potentially uncollectible accounts.

G. Grants

Contributions received from various sources as grants are recorded in the period earned. Developer financed construction is recorded in the period in which applicable construction costs are incurred. Donated assets are recorded at fair market value at the date of the gift. Grants not externally restricted and utilized to finance operations are identified as non-operating revenue.

Grants externally restricted for non-operating purposes are recorded as capital contributions.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

H. Capital Assets

Capital assets, which consist of property, plant and equipment is stated at cost which includes direct construction costs and other expenditures related to construction.

Capital assets are defined by the Authority as assets with an individual cost of \$3,000 or more and an estimated useful life in excess of one year.

Construction in progress is stated at cost, which includes interest expense incurred during construction. The Authority reduces the capitalized project costs by the amount of interest earned from the investment of excess funds, which has the effect of reducing the cost of borrowing. Construction costs are charged to construction in progress until such time as the facility is put into operation.

Plant and equipment are depreciated using the straight-line method over the following estimated useful lives:

Water distribution system	50 years
Treatment plant and facilities	20, 40 years
Mains, interceptors and improvements	50 years
Machinery and equipment	5 - 15 years
Office furniture and equipment	5 - 10 years
Vehicles	5 - 15 years

K. Bond Discounts

Bond discounts arising from the issuance of debt are amortized over the life of the issue based upon the interest method as a component of interest expense. Bonds payable are reported net of the applicable bond discount ..

L. Deferred Amount on Refunding

The deferred amount on refunding is recorded as a deferred outflow of resources. It is amortized over the shorter of the remaining life of the old debt or new debt based upon the interest method as a component of interest expense

M. Cash and Cash Equivalents and Investments

Cash and cash equivalents include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase. Investments are stated at fair value.

New Jersey governmental units are required by N.J.S.A. 40A:5-14 to adopt a cash management plan and to deposit and/or invest its funds pursuant to that plan. The governing body of the Authority has adopted a cash management plan ("the plan") and, as required, approves the plan annually. The plan includes the designation of the public depositories to be utilized by the Authority to deposit public funds.

Eligible depositories are defined in section 1 of P.L. 1970, c.236 (C. 17:9-41) and are limited to banks or trust companies having their place of business in the State of New Jersey and organized under the laws of the United States or of the State of New Jersey or with the New Jersey Cash Management Fund. N.J.S.A. 40A:5-15.1 provides a list of investments which may be purchased by New Jersey governments and their component units.

N.J.S.A. 17:9-41 et. seq., which establishes the requirements for the security of deposits of governmental units, requires that governmental units shall deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act (GUDPA). GUDPA was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey. Public depositories include State or federally chartered banks, savings banks or associations located in the State of New Jersey or state or federally chartered banks, savings banks or associations located in another state with a branch office in the State of New Jersey, the deposits of which are federally insured. All public depositories must pledge collateral, having a market value of at least five percent (5%) of the average daily balance of collected public funds, to secure the deposits of Governmental Units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the governmental units.

The cash management plan adopted by the Borough of Buena Municipal Utilities Authority requires it to deposit funds in public depositories protected from loss under the provisions of GUDPA.

N. Subsequent Events

Management has evaluated subsequent events through August 14, 2013, the date the financial statements were available for issue.

O. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions. The estimates and assumptions affect the amounts reported in the financial statements. The actual results may differ from these estimates.

P. New Accounting Standards Adopted

During the year ended December 31, 2012, the Authority adopted the following new accounting standards issued by the Governmental Accounting Standards Board (GASB):

GASBS No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*

The objective of this Statement is to incorporate into the GASB's authoritative literature certain accounting and financial reporting guidance that is included in the following pronouncements issued on or before November 30, 1989, which does not conflict with or contradict GASB pronouncements:

- Financial Accounting Standards Board (FASB) Statements and Interpretations
- Accounting Principles Board Opinions
- Accounting Research Bulletins of the American Institute of Certified Public Accountants' (AICPA) Committee on Accounting Procedure.

Hereinafter, these pronouncements collectively are referred to as the —FASB and AICPA pronouncements.

This Statement also supersedes Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting*, thereby eliminating the election provided in paragraph 7 of that Statement for enterprise funds and business-type activities to apply post-November 30, 1989 FASB Statements and Interpretations that do not conflict with or contradict GASB pronouncements. However, those entities can continue to apply, as other accounting literature, post-November 30, 1989 FASB pronouncements that do not conflict with or contradict GASB pronouncements, including this Statement

GASBS No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*

This Statement provides financial reporting guidance for deferred outflows of resources and deferred inflows of resources. Concepts Statement No. 4, *Elements of Financial Statements*, introduced and defined those elements as a consumption of net assets by the government that is applicable to a future reporting period, and an acquisition of net assets by the government that is applicable to a future reporting period, respectively. Previous financial reporting standards do not include guidance for reporting those financial statement elements, which are distinct from assets and liabilities.

Concepts Statement 4 also identifies net position as the residual of all other elements presented in a statement of financial position. This Statement amends the net asset reporting requirements in Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*, and other pronouncements by incorporating deferred outflows of resources and deferred inflows of resources into the definitions of the required components of the residual measure and by renaming that measure as net position, rather than net assets.

GASBS No. 65, *Items Previously Reported as Assets and Liabilities*

This Statement establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. Concepts Statement No. 4, *Elements of Financial Statements*, introduced, and defined the elements included in financial statements, including deferred outflows of resources and deferred inflows of resources. In addition, Concepts, Statement 4 provides that reporting a deferred outflow of resources or a deferred inflow of resources should be limited to those instances identified by the Board in authoritative pronouncements that are established after applicable due process.

This Statement amends the financial statement element classification of certain items previously reported as assets and liabilities to be consistent with the definitions in Concepts Statement No. 4. This Statement also provides other financial reporting guidance related to the impact of the financial statement elements deferred outflows of resources and deferred inflows of resources, such as changes in the determination of the major fund calculations and limiting the use of the term *deferred* in financial statement presentations.

NOTE 3 CASH AND CASH EQUIVALENTS

NOTE 3 CASH AND CASH EQUIVALENTS (CONTINUED)

Custodial Credit Risk – Custodial credit risk is the risk that, in the event of a bank failure, the Authority’s deposits may not be returned to it. Although the Authority does not have a formal policy regarding custodial credit risk, N.J.S.A. 17:9-41 et seq. requires that governmental units shall deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act. Under the Act, the first \$250,000 of governmental deposits in each insured depository is protected by the Federal Deposit Insurance Corporation (FDIC). The Authority’s public funds in excess of the FDIC insured amounts are protected by GUDPA. As of December 31, 2012, \$250,000 of the Authority’s bank balance of \$993,274 was insured and \$743,274 was uninsured and collateralized.

At December 31, 2012 the Authority had \$293,191 invested in the New Jersey Cash Management Fund (“the Fund”) which is not covered by either federal deposit insurance or by GUDPA. The Fund is governed by regulations of the State Investment Council, who prescribe standards designed to insure the quality of investments in order to minimize risk to the Fund’s participants. Deposits with the New Jersey Cash Management Fund are not subject to custodial credit risk as defined above.

In addition to the bank deposits described above, the Authority also had \$425,825 invested in a government money market fund which is not covered by federal deposit insurance or by GUDPA, but which invests exclusively in general obligations issued by the U.S. Government and backed by its full faith and credit and which carries a credit rating of AAA.

NOTE 4 INVESTMENTS

Custodial Credit Risk – For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Authority will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the Authority, and are held by either the counterparty or the counterparty’s trust department or agent but not in the Authority’s name. At December 31, 2012 and 2011, the Authority invested \$720,000 and \$720,000 in certificates of deposits which were held in the name of the Authority.

Interest Rate Risk- Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The Authority does not have a formal policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk – Credit risk is the risk that an issuer or counterparty to an investment will not fulfill its obligations. N.J.S.A. 40A:5-15.1 limits the investments that the Authority may purchase in order to limit the exposure of governmental units to credit risk. The Authority’s Cash Management Plan also limits its investment choices to those permitted by N.J.S.A. 40A:5-15.1.

Concentration of Credit Risk – The Authority does not place a limit on the amount that may be invested in any one issuer. One hundred percent (100.0%) of the Authority’s investments are in certificates of deposits at Susquehanna Patriot Bank with a maturity of less than one year.

NOTE 7 PENSIONS

Substantially all of the Authority's employees participate in the Public Employees' Retirement System (the System) which is administered and/or regulated by the New Jersey Division of Pensions and Benefits. The System's Board of Trustees is primarily responsible for the administration of the System.

The Division issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the State of New Jersey, Division of Pensions and Benefits, P.O. Box 295, Trenton, New Jersey 08625-0295.

The State of New Jersey Public Employees' Retirement System is a cost-sharing multiple-employer contributory defined benefit plan which was established as of January 1, 1955, under the provisions of N.J.S.A. 43:15A. The System's designated purpose is to provide retirement, death, disability and medical benefits to certain qualified members. Membership in the System is mandatory for substantially all full-time employees of the State of New Jersey or any county, municipality, school district or public agency, provided the employee is not required to be a member of another state-administered retirement system or other state pension fund or local jurisdiction's pension fund. Vesting and benefit provisions are established by N.J.S.A. 43:15A and 43:3B.

The System provides specified medical benefits for members who retire after achieving 25 years of qualified service, as defined, or under the disability provisions of the System.

The contribution policy is set by N.J.S.A. 43:15A and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. Pursuant to the provisions of Chapter 78, P.L. 2011, effective October 1, 2011, the active member contribution rate was 6.5% of annual compensation. The member contribution amount increased to 6.64% effective July 1, 2012 and is scheduled to increase by 0.14% per year until the contribution rate reaches 7.50% in July 2018. Employer's contribution amounts are based on an actuarially determined rate. The annual employer contributions include funding for basic retirement allowances, cost-of-living adjustments and noncontributory death benefits.

NOTE 8 LONG-TERM DEBT

A. Project Note Payable

In November 2011, the Authority issued Project Notes in the amount of \$3,549,000, in anticipation of permanent financing of bonds to be issued to the USDA Rural Development to finance the Authority's construction of wastewater treatment process modifications and equipment to enhance the effluent quality and expand capacity of the wastewater treatment plant. The interest rate was 0.75% per annum.

The Project Note amount was increased to \$3,700,000 on November 8, 2012 and is due to mature on August 8, 2013. The interest rate is 0.95% per annum.

B. Bonds Payable

In September 2003, the Authority issued its Sewer Revenue Bonds (Series 2003A), in the principal amount of \$5,995,000. The proceeds derived from the issuance and sale of the Bonds were used to: currently refund the Authority's 1991 Revenue Bonds (Series A) dated November 1, 1991 then outstanding in the aggregate principal amount of \$1,390,000; currently refund the Authority's 1991 Revenue Bonds (Series B) dated November 14, 1991 then outstanding in the aggregate principal amount of \$1,082,093; currently refund the Authority's 1993 Revenue Bonds (Series A) dated July 1, 1993 then outstanding in the aggregate principal amount of \$2,455,000; advance refund the Authority's 1997 Revenue Bonds (Series A) dated October 15, 1997 then outstanding in the aggregate principal amount of \$590,000; currently refund the Authority's 2000 Revenue Bonds dated November 22, 2000 then outstanding in the aggregate principal amount of \$382,765; fund the Bond Reserve Fund to equal the Bond Reserve Requirement, make a deposit into the Bond Service Fund; and pay for the costs of issuance incurred in connection with the sale of the Series 2003A Bonds.

B. Bonds Payable (Continued)

The outstanding balance of the Series 2003A Bonds consists of serial bonds that mature annually to 2019 in various amounts ranging from \$245,000 to \$405,000 with interest rates ranging from 3.70% to 4.30% per annum.

The Series 2003A Bonds maturing prior to December 1, 2014 are not subject to optional redemption prior to maturity. The Series 2003A Bonds maturing on or after December 1, 2014 shall be subject to redemption prior to their stated maturity date, at the option of the Authority, on or after December 1, 2013 as a whole or in part at any time (and selected by lot of within a maturity) at a Redemption Price equal to one hundred percent (100%) of the principal amount of the Series 2003A Bonds to be redeemed, together with the interest accrued thereon to the date fixed for redemption.

In conjunction with the issuance of its Series 2003A Refunding Bonds, the Authority issued its Series 2003L and Series 2003T Bonds in substitution of, and in exchange for, its Series 1997L and Series 1997T Bonds originally issued to the State of New Jersey and New Jersey Environmental Infrastructure Trust respectively.

The Series 2003L and Series 2003T Bonds are issued pursuant to the Loan Agreement dated November 1, 1997 by and between the State, acting by and through the New Jersey Department of Environmental Protection; the New Jersey Environmental Infrastructure Trust (the Trust); and the Authority, and are subject to the same terms and conditions as the Series 1997T and Series 1997L Bonds.

The Series 2003L Bonds are non-interest bearing and mature in various amounts from 2013 through 2017.

The Series 2003T Bonds mature in various amounts ranging from \$55,000 in 2013 to \$65,000 in 2017 with an interest rate of 5.00% per annum.

C. Compensated Absences

Current policy allows employees who retire from the Authority via PERS will be reimbursed for fifty percent (50%) of accrued sick leave up to a maximum of \$12,000, calculated at the then current rate.

NOTE 9 POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS

Plan Description – The Authority contributes to the State Health Benefits Program (SHBP), a cost-sharing, multiple-employer defined benefit post-employment healthcare plan administered by the State of New Jersey Division of Pensions and Benefits. SHBP was established in 1961 under N.J.S.A. 52:14-17.25 et seq., to provide health benefits to State employees, retirees, and their dependents. Rules governing the operation and administration of the program are found in Title 17, Chapter 9 of the New Jersey Administrative Code. SHBP provides medical, prescription drugs, mental health/substance abuse, and Medicare Part B reimbursement to retirees and their covered dependents.

The SHBP was extended to employees, retirees, and dependents of participating local public employers in 1964. Local employers must adopt a resolution to participate in the SHBP. In October 2004 (effective January 1, 2005) the Authority adopted a resolution authorizing participation in the SHBP's post-retirement benefit program. Pursuant to that resolution, the Authority pays 100% of the premium charges for the benefits provided to certain eligible pensioners who are age 55 or older, who retire with 25 years or more of service in the retirement system and 20 years of service with the Authority, and their dependents, covered by the New Jersey SHBP and reimburses retired employees and their spouses for their premium charges under Part B of the Federal Medicare Program.

The State Health Benefits Commission is the executive body established by statute to be responsible for the operation of the SHBP. The State of New Jersey Division of Pensions and Benefits issues a publicly available financial report that includes financial statements and required supplementary information for the SHBP. That report may be obtained by writing to: State of New Jersey Division of Pensions and Benefits, P.O. Box 295, Trenton, NJ 08625-0295 or by visiting their website at <http://www.state.nj.us/treasury/pensions/>.

Funding Policy - Participating employers are contractually required to contribute based on the amount of premiums attributable to their retirees. Post-retirement medical benefits under the plan have been funded on a pay-as-you-go basis since 1994. Prior to 1994, medical benefits were funded on an actuarial basis.

Contributions to pay for the health premiums of participating retirees in the SHBP are billed to and paid by the Authority on a monthly basis. Plan members are not required to contribute to the cost of those premiums.

The Authority contributions to SHBP for retirees for the years ended December 31, 2012, 2011, and 2010, were \$35,455, \$24,957, and \$23,997, respectively, which equaled the required contributions for each year. There were 4 retired participants eligible at December 31, 2012, and 3 retired participants in 2011, and 2010, respectively.

NOTE 13 DESIGNATED UNRESTRICTED NET POSITION

As of December 31, 2012 and 2011, the Authority had unrestricted net position balances of \$974,483 and \$706,244 respectively.

The Authority has, by resolution, designated a portion of its Unrestricted Net Position for the following purposes:

	<u>2012</u>		<u>2011 (Restated)</u>	
	<u>Sewer Operations</u>	<u>Water Operations</u>	<u>Sewer Operations</u>	<u>Water Operations</u>
Designated for Equipment Renewal and Replacement	\$ 290,000	\$	\$ 290,000	\$
Designated for Post Employment Benefits			60,000	
Designated for Subsequent Year's Expenditures	121,561	89,112	118,204	132,140
Less: Amount Transferred to Undesignated Net Position		-	(44,051)	-
Designated Unrestricted Net Position	<u>\$ 411,561</u>	<u>\$ 89,112</u>	<u>\$ 424,153</u>	<u>\$ 132,140</u>

The unrestricted net position-designated for subsequent year's expenditures at December 31, 2012 and 2011 has been appropriated and included as anticipated revenue in the Authority's 2013 and 2012 budgets respectively.

NOTE 14 RISK MANAGEMENT

The Authority is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Authority purchases commercial insurance for risks of loss. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

NOTE 15 COMMITMENTS AND CONTINGENCIES

The Authority has been under an obligation to cease discharge of treated wastewater to the Deep Run Stream since 1995 by the Pinelands Commission. In 1990 the BBMUA received an approval from the Pinelands Commission to upgrade its existing wastewater treatment plant and construct a force main to convey the treated effluent to a facility that would discharge the wastewater to groundwater. As a condition of the approval, the BBMUA wastewater treatment plant was to cease its discharge into the Deep Run by June 1, 1995 and implement a discharge to groundwater program. The BBMUA spent several years and contributed a substantial amount of resources investigating the possibility of utilizing deep and shallow well injection facilities for effluent disposal. Ultimately the use of injection wells for effluent disposal was not approved by the New Jersey Department of Environmental Protection (NJDEP).

In an effort to meet the Pinelands Commission requirements, the BBMUA entered into a Memorandum of Agreement (MOA) dated March 27, 2007 with the Pinelands Commission and Buena Vista Township.

DECEMBER 31, 2012 AND 2011

NOTE 15 COMMITMENTS AND CONTINGENCIES (CONTINUED)

The MOA would have permitted the BBMUA to construct Infiltration/Percolation (I/P) Lagoons within a Pinelands Agricultural Production Area in the Borough of Buena. The Pinelands Commission required measures to be taken to ensure, at a minimum, an equivalent level of protection of Pinelands resources. In order to meet this requirement Buena Vista Township, as a part of the MOA, permanently deed restricted 232 acres of municipally owned land in Forest and Rural Development Areas within the Pinelands against future development. In exchange for providing the necessary land preservation offset, Buena Vista Township will receive a share of the total wastewater flow allocation.

During 2008, the Authority submitted an application to the USDA Rural Development for funding in the amount of \$4,603,000 for the proposed construction of the facilities described above together with certain related improvements. In April 2009, USDA Rural Development made its funding determination with respect to the proposed project and approved funding of \$4,603,000 consisting of \$3,549,000 in loan funds and \$1,054,000 in grant funds.

In June 2009, the Authority submitted its application to the Local Finance Board for its review of a proposed financing by the Authority to finance the proposed construction of the facilities described above (the "2009 Project"). The Local Finance Board held its hearing on July 8, 2009 and issued positive findings with respect to the proposed project financing. The amount of debt proposed to be issued was \$3,549,000, with a not to exceed amount of \$3,700,000.

The Authority acquired the land necessary to construct the proposed project and conducted extensive geotechnical and hydrogeologic testing on the property and analyzed potential groundwater mounding conditions under the proposed wastewater loading conditions. In 2011, the results of the testing were reviewed by the Pinelands Commission staff, the Authority's engineers and the staff of the United States Geological Survey who concluded that the property cannot satisfactorily infiltrate and percolate the hydraulic load from the Authority's sewage treatment plant.

Given the fact the Authority previously investigated numerous alternatives to meet its wastewater disposal needs as previously described, none of which proved to be feasible, the Pinelands Commission on May 16, 2011 conducted a public hearing regarding a proposed first amendment to the March 27, 2007 MOA and on May 27, 2011 adopted a resolution authorizing the Executive Director of the Pinelands Commission to enter into a first amendment of the March 27, 2007 MOA amongst the Pinelands Commission, the Authority and the Township of Buena Vista. The amendment to the MOA, among other things, eliminated the Authority's obligation to construct the infiltration/percolation facility, authorized the continued discharge of treated wastewater from the Authority's sewage treatment plant into a tributary of the Deep Run and required the installation of best available wastewater treatment technology at its treatment plant.

Because the amended MOA results in a change in the type of project to be undertaken, the Authority on June 8, 2011 authorized the filing of an application to the Local Finance Board for its review of a proposed financing by the Authority to finance the proposed construction of the facilities described above (the "2011 Project"). This application did not change the amount of debt originally proposed to be issued for the 2009 Project, only the description of the project. The Local Finance Board held its hearing on August 10, 2011 and issued positive findings with respect to the proposed project financing.

NOTE 15 COMMITMENTS AND CONTINGENCIES (CONTINUED)

As described in Note 8, in November 2011, the Authority issued Project Notes in the amount of \$3,549,000 in anticipation of permanent financing of bonds to be issued to the USDA Rural Development, which together with a USDA Rural Development grant in the amount of \$1,054,000 are being used to finance the Authority's construction of wastewater treatment process modifications and equipment to enhance the effluent quality and expand capacity of the wastewater treatment plant. A construction contract in the amount of \$3,912,000 was awarded in November of 2011 and was subsequently amended to \$4,052,546. Costs incurred on that contract at December 31, 2012 totaled \$3,379,574.

NOTE 16 COMPLIANCE WITH THE RATE COVENANT CONTAINED IN THE AUTHORITY'S BOND RESOLUTION

Section 612 of the Authority's Bond Resolution requires the Authority to estimate, compute, make, charge and collect rates and charges so that Revenues, as defined in the Resolution, will be at least sufficient to pay Operating Expenses of the Authority for the year; provide an amount which will at least equal 100% of the Annual Debt Service Requirement for the year; to provide the amount needed, if any, so that the amount on deposit in the Bond Reserve Fund will equal the Bond Reserve Requirement; to provide for the payment of amounts due on Subordinated Indebtedness and all other charges or liens which are related to the System whatsoever; and to provide for payment of any additional amounts which are necessary to comply with the provisions of the Resolution and all other statutory and legal obligations of the Authority. For the purpose of Section 612 of the Resolution, Revenues are deemed to include "any funds, which the Authority deposits in the Revenue Fund, regardless of the source thereof." For the years 2012 and 2011, Revenues as defined were sufficient to meet the rate covenant contained in Section 612 of the Authority's Bond Resolution.

NOTE 17 CUMULATIVE EFFECTS OF CHANGES IN ACCOUNTING PRINCIPLE

As discussed in Note 2, during the year ended December 31, 2012, the Authority adopted the following new accounting standards issued by the Governmental Accounting Standards Board (GASB) resulting in a change in accounting principles:

GASBS No. 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements;

GASBS No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position

GASBS No. 65, Items Previously Reported as Assets and Liabilities

The change in accounting principles is retroactive to prior reporting periods and resulted in the adjustment detailed below:
