Agricultural Hazardous Waste Clean Sweep 2026

Many commonly used agricultural products such as **pesticides, herbicides, fertilizers, and fuel additives** can be hazardous if not handled or disposed of properly. These materials require special care when it's time to discard them. The Clean Sweep program is an event specifically designed to help farmers safely and responsibly dispose of unwanted or unused hazardous agricultural products.

? **When:** April 25th, 2026
9am–Noon
