Regarding the above referenced application: I oppose the Request

The traffic area of this proposed development is already at an over capacity amount for our neighborhood streets and, in particular, the intersection of Glenwood Avenue and Marigold Streets. The apartments being proposed and the amount of parking being provided in the proposal is insufficient for the number of cars this development will bring into the area. Our neighborhood will be flooded with overcrowded on-street parking by the apartment residents. Take a look at the on-street parking from the apartments on N Strawberry Glen Road and N Coffey street; that's what our neighborhood streets will be turned into.

Thank you for your consideration of my comments.
