Dear Mayor and City Council,

As a long-time resident of Garden City and a proud member of The River Club for the past five years, I am writing in strong support of SAPFY2023-0001.

This proposed development aligns with the Specific Area Plan that was thoughtfully approved by City Council two years ago. It represents a well-balanced and forward-thinking approach to growth in our community—an approach that maintains the integrity of our neighborhoods while securing the long-term viability of treasured amenities like The River Club.

Preserving the golf course is important not just to members like myself, but to the broader community. It provides open space, supports local wildlife, and contributes to the beauty and character that make Garden City such a special place to live. The improvements outlined in this application are key to keeping that legacy intact.

I appreciate the City Council's time and dedication to ensuring thoughtful development in our city, and I respectfully urge your support for this application.

Sincerely,  
Deanna Turner
