---

I am writing in support of the Townhomes project on State street and changes to River Club golf course.

I do not live in the Plantation/River Club neighborhood and am not a member of the HOA. However, I am a Garden City resident and member of the River Club.

The River Club Townhomes project will enable the River Club (golf course and other amenities) to thrive going forward. The golf course area is a gem in Garden City and one of the oldest courses in the state. Supporting the townhomes project will preserve and enhance the course and club.

Thank you for your support of the River Club Townhomes project.

Genger Fahleson
