Dear Sir,

My husband and I live in Willowbrook senior community, and have been here four years.

Such a beautiful and peaceful place to live. We are a community of one story homes, that have the sun, moon and sky to look at daily. We now realize a community of four story apartments will be built behind us. They will totally block the view of the sunset, and sky from our homes at that height. There are no buildings standing that tall around the College.

We ask you help in keeping this a low height community, at max 35 feet tall for building height. Would you approve this height of construction behind your home. I also feel they only want permission to do drips and dabbles of approval, then spring on you and us on what the true project will be.

Please listen to our concerns and treat us as you would want to be treated in your home area.
