---

I wish to be an interested party in regards to this proposed development. I somehow missed opening the letters and missed the neighborhood discussions on the 29th of September. I have contacted the developer and someone is supposed to get back to me. I wanted to let my concerns be known. As a direct neighbor, I am not keen on 3 three story units being built. I understand why it's 3 stories. So as many units can be crammed onto a property as possible. I don't like the ever increasing congestion on the streets. With the height of the units I lose all sense of privacy to my backyard. Every unit built will be in direct line of sight. Planting a couple little bushes along the fenceline is not going to change that. The owner stated he was going to build a single story residence and now it's 3 units. I would like to know what the outcome is and what can be done to address some of these issues. Thank you.
