To inhibit light pollution, I vote to remove this:

This electric marquee will be on 24/7 and look like an eyesore for the neighborhood. It will flash into driver's eyes while they go 50 mph on that stretch of Chinden. If the owners don't want it flashing into their yard at night, we don't either. The one for the fairgrounds is bad enough.

Please reduce all lights as much as possible and large gaudy signs.

Thank you,
Melissa Bahr
