RE: Request for Formal ACHD Determination Regarding the Adams Street Connection

Dear Director Head,

As the City of Garden City considers adoption of the Heron Commons Specific Area Plan implementing code, I respectfully request that ACHD provide a formal determination regarding the future function of the proposed Adams Street Connection, the stubs between 36th and 37th Streets.

The City understands that ACHD has previously indicated that motor-vehicle access through the Adams Street Connection would be addressed during future development review. However, because the issue is central to the SAP circulation framework and neighborhood expectations, the City believes it would be beneficial to resolve it prior to code adoption.

Specifically, the City requests that ACHD indicate whether the Adams Street Connection must function as a public motor-vehicle connection or whether it may function, per the City's preference, as a bicycle, pedestrian, and emergency-access connection that prohibits general motor-vehicle through traffic.

The City further understands that, if general motor-vehicle traffic is prohibited, ACHD would likely not consider the connection to be an ACHD facility.

Thank you for your consideration and continued partnership with Garden City. We appreciate your assistance and look forward to your response.

Sincerely,

Bill Jacobs
Mayor
