DESCRIPTION OF WORK: The Shasta Valley Resource Conservation District (SVRCD) is acting as lead agency for this project, and the grantee is the City of Weed Fire Department. The SVRCD will administer the contract and serve as the primary contact during implementation.

This fuel mitigation project is located within and around the City of Weed in Siskiyou County, California. The treatment will protect habitable structures within the city of Weed and surrounding areas. The objective of this project is to provide immediate fuel mitigation to reduce fuel loading within the project area and to ensure a lasting effect on the community to reduce the fire hazard for many years after the project is complete. Funding for this project is provided by the California Department of Forestry and Fire Protection's Wildfire Prevention Program.
