

**- ATTENTION LANDOWNERS -**  
**RIGHT-OF-WAY MAINTENANCE SEASON**

Sometime during the next several months, contractors working for Barron Electric Cooperative (BEC) will be clearing right-of-way in your area. This may include mechanical chopping, hand cutting, side trimming and removals. ROW may be cleared 20 feet, ground to sky. **No chemicals will be used.**

Please communicate and clearly mark survey pins, markers, or any other privately owned facilities that may be situated in the ROW work zone. When fences in ROW are not routinely maintained by property owners, BEC and contractors representing BEC cannot accept the responsibility of fence repair due to age and normal deterioration.

Members of BEC will receive a mailing with their October billing to complete and return. If you are not a member of BEC and have a concern, please contact us at:
