Hours of Operation: Monday- Friday, 8:00 am- 4:30 pm

WALWORTH COUNTY
WISCONSIN
Health and Human Services

6/5/2026

Walworth County Division of Public Health is happy to present to you the opportunity to have your private well water tested by trained crews for four common pollutants; nitrate, bacteria, arsenic, and lead. This program is not offered to those with city water or a water system regulated by the DNR.

On the dates listed below, sampling teams will be in your area to collect water samples, deliver samples to the laboratory, and answer questions about water testing and contaminants in drinking water. Appointments typically take no more than 15 minutes. Sampling will require access to a clean faucet in your home; a kitchen faucet without a pulldown hose/sprayer or a bathroom faucet work well. A metal faucet with a removable aerator is preferred.

The following certified tests are available:

Nitrate (\$10)	3 business day for results
Bacteria (\$10)	
Arsenic (\$20)	10 business days for results
Lead (\$20)	

In-Home Sampling Dates and Times:

Tuesday, July 7th: 10:00am-2:00pm

Thursday, July 9th: 9:00am-1:00pm

Monday, July 13th: 1:00pm-4:00pm

Wednesday, July 15th: 10:00am-2:00pm

Saturday, July 18th: 8:00am-2:00pm

You will be required to apply a code when making your appointment online. Select Service East Blue Water Sample. Your code is: EASTBLUE

Participation in this opportunity is completely voluntary. There are no regulations requiring your private well to be tested. The results of your test will be kept confidential and you will not be required to take any action to remove contamination from your water; however, Public Health Staff can help interpret results as well as discuss next possible steps. This program is designed to promote awareness of possible contaminants in your water that may impact the health of you and your family.

To schedule an appointment, please scan the QR code, use the URL <https://tinyurl.com/2tawsf5j>, contact us via phone at (262) 741-3302, or email us at walcoph@co.walworth.wi.us.
