SECTION VII – SITING AND CONSTRUCTION OF ANY NEW MOBILE SERVICE SUPPORT STRUCTURE AND FACILITIES

A. Application Process

1. A town zoning permit is required for the siting and construction of any new mobile service support structure and facilities. The siting and construction of any new mobile service support structure and facilities is a conditional use in the town obtainable with this permit.
2. A written permit application must be completed by any applicant and submitted to the town. The application must contain the following information:
 - a. The name and business address of, and the contact individual for, the applicant.
 - b. The location of the proposed or affected support structure.
 - c. The location of the proposed mobile service facility.
 - d. If the application is to substantially modify an existing support structure, a construction plan which describes the proposed modifications to the support structure and the equipment and network components, including antennas, transmitters, receivers, base stations, power supplies, cabling, and related equipment associated with the proposed modifications.

e. If the application is to construct a new mobile service support structure, a construction plan which describes the proposed mobile service support structure and the equipment and network components, including antennas, transmitters, receivers, base stations, power supplies, cabling, and related equipment to be placed on or around the new mobile service support structure.

f. If an application is to construct a new mobile service support structure, an explanation as to why the applicant chose the proposed location and why the applicant did not choose collocation, including a sworn statement from an individual who has responsibility over the placement of the mobile service support structure attesting that collocation within the applicant's search ring would not result in the same mobile service functionality, coverage, and capacity; is technically infeasible; or is economically burdensome to the mobile service provider.

3. A permit application will be provided by the town upon request to any applicant.

4. If an applicant submits to the town an application for a permit to engage in an activity described in this ordinance, which contains all of the information required under this ordinance, the town shall consider the application complete. If the town does not believe that the application is complete, the town shall notify the applicant in writing, within 10 days of receiving the application, that the application is not complete. The written notification shall specify in detail the required information that was incomplete. An applicant may resubmit an application as often as necessary until it is complete.

a. Review the application to determine whether it complies with all applicable aspects of the political subdivision's building code and, subject to the limitations in this section, zoning ordinances.

b. Make a final decision whether to approve or disapprove the application.

c. Notify the applicant, in writing, of its final decision.

d. If the decision is to disapprove the application, include with the written notification substantial evidence which supports the decision.

6. The town may disapprove an application if an applicant refuses to evaluate the feasibility of collocation within the applicant's search ring and provide the sworn statement described under paragraph 2.f.

7. If an applicant provides the town with an engineering certification showing that a mobile service support structure, or an existing structure, is designed to collapse within a smaller area than the set back or fall zone area required in a zoning ordinance, that zoning ordinance does not apply to such a structure unless the town provides the applicant with substantial evidence that the engineering certification is flawed.

8. The fee for the permit is \$3,000.

B. Limitations.

1. The Town Board may impose additional conditions on the permit pursuant to the Town of Lamartine Zoning Ordinance except for conditions prohibited by Wis. Stat. § 66.0404.
