Tappahannock Central Park Phase Two Complete; New Restroom Facilities Now Open

Tappahannock, VA — ??? — The Town of Tappahannock is proud to announce the completion of Phase Two of Tappahannock Central Park, bringing a new set of enhancements to one of the community's most beloved gathering spaces. With the conclusion of this phase, the park's permanent public restroom facilities are now officially open for residents and visitors.

Phase Two included the addition of two 16x20-foot pavilions, the construction of permanent restrooms, the conversion of existing stone pavers into smooth concrete pathways to improve accessibility, the installation of an additional shaded bench near the playground area to provide more comfort for families, and the placement of new flag poles—all designed to make Central Park more welcoming, functional, and inclusive.

“These improvements represent our continued commitment to building a park that meets the needs of our community,” said Mayor Roy Gladding. “Phase Two adds important amenities that enhance comfort, accessibility, and the overall park experience for everyone who visits.”

Town Manager Steve Wright added, “We are confident that the Park will be a central location for residents and visitors to the Town to meet, socialize, hold and enjoy events, and make memories, thereby fostering a stronger sense of community”.

Central Park has quickly become a hub for recreation, relaxation, and community connection in Tappahannock. These latest upgrades ensure the park is even better equipped to support public events, family outings, and everyday enjoyment.

Residents and visitors are encouraged to visit Central Park and experience the newly completed improvements.

For updates on upcoming events and future park developments, please visit the Town of Tappahannock’s website or follow the Town on social media.
