

Dog waste and our water!

Did you know?

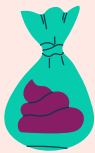

That your beloved pooch produces about 3/4 lbs. of solid waste per day? That contains 7.8 billion fecal coliform bacteria!

How does pet waste get in our waterways?

Do your part, pick up the poo!

Always bring a plastic bag when you walk your dog

Don't put dog waste down storm drains

Dispose of dog waste in the garbage or down the toilet

Be a good neighbor, pick up your piles!

Cheshire Dog Waste By-law

The Town requires that everyone pick up their dog waste or pay a fine.

Article 17 Section 5 of Cheshire By-laws
