Optional: If you would like to describe progress made on any incomplete requirements listed above or provide any additional details, please use the box below:

The town has not yet completed reports on street design, parking lot guidelines, or local regulations for green infrastructure due to understaffing and a temporary service disruption from department relocations. However, the town has completed an inventory of town-owned properties within the MS4 area to document impervious surfaces, which will inform a future report. The full assessment is still in development. Additionally, with a recent hire to the DPW staff, the town anticipates regaining momentum on these efforts

Annual Requirements

Provided a with State	n opportunity for public participation in review and implementation of SWMP and complied Public Notice Requirements
⊠ Kept recor	ds relating to the permit available for 5 years and made available to the public
☐ The SSO in implement	nventory has been updated, including the status of mitigation and corrective measures ed
•	This is not applicable because we do not have sanitary sewer
\circ	This is not applicable because we did not find any new SSOs
\circ	The updated SSO inventory is attached to the email submission
0	The updated SSO inventory can be found at the following publicly available website:
☑ Undated th	e outfall and interconnection inventory and priority ranking as necessary
	The priority ranking of outfalls/interconnections is attached to the email submission
•	The priority ranking of outfalls/interconnections can be found at the following website:
	https://berkshire.maps.arcgis.com/apps/webappviewer/index.html?id=85368797413f4efca05598ac07ac071c
□ Updated sy	stem map due in year 5 as necessary
□ Provided to	raining to employees involved in IDDE program within the reporting period
Properly st	fored and disposed of catch basin cleanings and street sweepings so they did not discharge to vaters
⊠ All curbed	roadways were swept at least once within the reporting period
⊠ Implement transfer sta	ed SWPPPs for all permittee owned or operated maintenance garages, public works yards, tions, and other waste handling facilities
	ll road salt storage piles or facilities and implemented winter road maintenance procedures to he use of road salt
⊠ Updated in	ventory of all permittee owned facilities as necessary
⊠ O&M prog	grams for all permittee owned facilities have been completed and updated as necessary
⊠ Implement programs	ed all maintenance procedures for permittee owned facilities in accordance with O&M
	ed program for MS4 infrastructure maintenance to reduce the discharge of pollutants
✓ Inspected a	all permittee owned treatment structures (excluding catch basins)

Optional: If you would like to describe progress made on any incomplete requirements listed above or provide
any additional details, please use the box below:
Bacteria/ Pathogens (Combination of Impaired Waters Requirements and TMDL Requirements as Applicable)
Annual Requirements
Public Education and Outreach* Annual message was distributed encouraging the proper management of pet waste, including noting any
existing ordinances where appropriate
Permittee or its agents disseminated educational material to dog owners at the time of issuance or renewal of dog license, or other appropriate time
Provided information to owners of septic systems about proper maintenance in any catchment that discharges to a water body impaired for bacteria
* Public education messages can be combined with other public education requirements as applicable (see Appendix H and F for more information)
Optional: If you would like to describe progress made on any incomplete requirements listed above or provide any additional details, please use the box below:
Optional: Use the box below to provide any additional information you would like to share as part of your self-assessment:

Part III: Receiving Waters/Impaired Waters/TMDL

Page 5

Have you made any changes to your lists of receiving waters, outfalls, or impairments since the NOI was submitted? Make sure you are referring to the most recent EPA approved Section 303(d) Impaired Waters Lis which can be found here: https://www.epa.gov/tmdl/region-1-impaired-waters-and-303d-lists-state O Yes No
If yes, describe below, including any relevant impairments or TMDLs:

Part IV: Minimum Control Measures

Please fill out all of the metrics below. If applicable, include in the description who completed the task if completed by a third party.

Number of educational messages completed during this reporting period: 8

MCM1: Public Education

goal(s) please describe the method/measures used to assess the overall effectiveness of the educational program.
BMP:Pet Waste Flyer
Message Description and Distribution Method:
Pet Waste flyers distributed along with dog license renewal notices and posted at Town Hall
Targeted Audience: Dog Owners
Responsible Department/Parties: Town Admin
Measurable Goal(s):
reduce dog waste, increase education
Message Date(s): June 2024
Message Completed for: Appendix F Requirements ⊠ Appendix H Requirements ⊠
Was this message different than what was proposed in your NOI? Yes ○ No ●
If yes, describe why the change was made:
BMP:Pollution Prevention for Businesses
Message Description and Distribution Method:
Information pamphlet on how businesses can use pollution prevention to reduce stormwater pollution. Posted at Town Hall.
Targeted Audience: Businesses, Institutions, and Commercial facilities
Responsible Department/Parties: Town Admin
Measurable Goal(s):
Increase awareness

If yes, describe why the change was made:
This outreach is an additional component and was not orginally included in our NOI.
Add an Educational Message
MCM2: Public Participation
Describe the opportunity provided for public involvement in the development of the Stormwater Management Program (SWMP) during this reporting period:
SWMP is published on town website with contact information for public comment
Was this opportunity different than what was proposed in your NOI? Yes ○ No ●
Describe any other myllic involvement or menticipation amount witing and voted dyning this new outing wavied.
Describe any other public involvement or participation opportunities conducted during this reporting period : Conservation Commission held an open meeting to discuss and vote on stormwater management regulations.
Conservation Commission nett an open meeting to discuss and vote on stormwater management regulations.
MCM3: Illicit Discharge Detection and Elimination (IDDE)
Mens. Infett Discharge Detection and Emmination (IDDE)
Sanitary Sewer Overflows (SSOs)
Check off the box below if the statement is true.
☐ This SSO section is NOT applicable because we DO NOT have sanitary sewer
Below, report on the number of SSOs identified in the MS4 system and removed during this reporting period.
Number of SSOs identified: 0
Number of SSOs removed: 0
runnoer of 550s temoved.

Below, report on the total number of SSOs identified in the MS4 system and removed to date. At a minimum, report SSOs identified since the effective date of the permit (July 1, 2018).

Cheshire Page 11
Total number of SSOs identified: 0
Total number of SSOs removed: 0
MS4 System Mapping
Percent of Phase II map complete: 0
Optional: Describe any additional progress you made on your map during this reporting period or provide additional status information regarding your map:
Screening of Outfalls/Interconnections If conducted, please submit any outfall monitoring results from this reporting period. Outfall monitoring results should include the date, outfall/interconnection identifier, location, weather conditions at time of sampling, precipitation in previous 48 hours, field screening parameter results, and results from all analyses. Please also include the updated inventory and ranking of outfalls/interconnections based on monitoring results No outfalls were inspected The outfall screening data is attached to the email submission The outfall screening data can be found at the following website:
no outfalls were inspected
Below, report on the number of outfalls/interconnections screened during this reporting period. Number of outfalls screened: 0
realition of outland belocities.
Below, report on the percent of outfalls/interconnections screened to date.
Percent of outfalls screened: 100
Optional: Provide additional information regarding your outfall/interconnection screening:
Outfalls were initially screen in 2018. Additional screening was completed in Year 5 during stormwater mapping efforts. Outfall inspections were attempted with DPW limited staff several times but could not be completed due to a lack of the required 72-hour dry period after rainfall. The Town is working with an external contractor to advance outfall and mapping efforts in Year 7.
Catchment Investigations
If conducted, please submit all data collected during this reporting period as part of the dry and wet weather investigations. Also include the presence or absence of System Vulnerability Factors for each catchment. O No catchment investigations were conducted
 The catchment investigation data is attached to the email submission The catchment investigation data can be found at the following website:
https://berkshire.maps.arcgis.com/apps/webappviewer/index.html? id=85368797413f4efca05598ac07ac071c

Page 12 Cheshire Below, report on the number of catchment investigations completed during this reporting period. Number of catchment investigations completed this reporting period: 0 Below, report on the percent of catchments investigated to date. Percent of total catchments investigated: 0 Optional: Provide any additional information for clarity regarding the catchment investigations below: The town was unable to conduct catchment investigations due to limited staff and is currently in the process of developing the necessary resources and plans to implement these investigations in a scheduled manner. **IDDE Progress** If illicit discharges were found, please submit a document describing work conducted over this reporting period, and cumulative to date, including location source; description of the discharge; method of discovery; date of discovery; and date of elimination, mitigation, or enforcement OR planned corrective measures and schedule of removal. No illicit discharges were found • The illicit discharge removal report is attached to the email submission O The illicit discharge removal report can be found at the following website: Below, report on the number of illicit discharges identified and removed, along with the volume of sewage removed during this reporting period. Number of illicit discharges identified: 0 Number of illicit discharges removed: 0 gallons/day Estimated volume of sewage removed: 0 Below, report on the total number of illicit discharges identified and removed to date. At a minimum, report on the number of illicit discharges identified and removed since the effective date of the permit (July 1, 2018). Total number of illicit discharges identified: 0 Total number of illicit discharges removed: 0 Optional: Provide any additional information for clarity regarding illicit discharges identified, removed, or

planned to be removed below:

We have not yet formally identified any illicit discharges. However, during the stormwater sewer system mapping, catchments were investigated for potential physical evidence of illicit discharge. We are actively conducting further assessments to confirm the presence of illicit discharges.

Employee Training

Describe the frequency and type of employee training conducted **during this reporting period**:

The DPW Director, DPW foreman and a member from the Conservation Commission attended an annual

Cheshire	Page 13
meeting on topics and procedures related to IDDE.	
	Site Stormwater Runoff Control s, inspections, and enforcement actions completed during

Additional Information

Monitoring or Study Results

Results from any other stormwater or receiving water quality monitoring or studies conducted during the reporting period not otherwise mentioned above, where the data is being used to inform permit compliance or permit effectiveness must be attached.

Not applicable	
 The results from additional reports or studies are attached to the email submission The results from additional reports or studies can be found at the following website(s):	
f such monitoring or studies were conducted on your behalf or if monitoring or studies conducted by other entities were reported to you, a brief description of the type of information gathered or received shall be described below:	
Additional Information	
Enter any additional information relevant to your stormwater management program implementation during the reporting period. Include any BMP modifications made by the MS4 if not already discussed above.	e

Activities Planned for Next Reporting Period

Please confirm that your SWMP has been, or will be, updated to comply with all applicable permit requirements including but not limited to the year 7 requirements summarized below. (Note: impaired waters and TMDL requirements are not listed below)

Yes, I agree ⊠

Annual Requirements

- Annual report submitted and available to the public
- Annual opportunity for public participation in review and implementation of SWMP
- Keep records relating to the permit available for 5 years and make available to the public
- Properly store and dispose of catch basin cleanings and street sweepings so they do not discharge to receiving waters

- Continue public education and outreach program
- Update inventory of all known locations where SSOs have discharged to the MS4
- Sweep all curbed roadways at least once within the reporting period
- Annual training to employees involved in IDDE program
- Clean catch basins in accordance with catch basin cleaning procedures to ensure that no catch basin is greater than 50% full
- Review site plans of construction sites as part of the construction stormwater runoff control program
- Conduct site inspections of construction sites as necessary
- Inspect and maintain stormwater treatment structures
- Log catch basins cleaned or inspected
- Sweep all curbed streets at least annually
- Implement SWPPPs for all permittee owned or operated maintenance garages, public works yards, transfer stations, and other waste handling facilities
- Review inventory of all permittee owned facilities in the categories of parks and open space, buildings and facilities, and vehicles and equipment; update if necessary
- Review O&M programs for all permittee owned facilities; update if necessary
- Implement all maintenance procedures for permittee owned facilities in accordance with O&M programs
- Enclose all road salt storage piles or facilities and implement winter road maintenance procedures to minimize the use of road salt
- Review as-built drawings for new and redevelopment to ensure compliance with post construction bylaws, regulations, or regulatory mechanism consistent with permit requirements

Provide any additional details on activities planned for permit year 7 below:
