

2015 Summer Newsletter

The summer is here and the Village is bustling with energy. From repairing our roads and infrastructure to planning free concerts.....from beautifying our Village, by replacing trees destroyed by Sandy, to planning fun family events on our beautiful beaches.

It has been my pleasure to serve the residents of our Village for the last year. Working in close concert with our talented Village Board members, we have forged effective relationships with Town, County, and State officials in order to serve you better.

Looking forward to seeing you at all of our upcoming summer events and Board meetings.
