## Town of Neenah News

### Michels involved with 441 expansion

Michels Materials on Tullar Road in Town of Neenah is one of the contractors for the 441 Tri-County expansion project. Scheduled for completion in the summer of 2019, the project consists of 5 interchanges, 6 miles of mainline, a second Little Lake Butte Des Morts bridge, and intersection reconstruction.

The Town Office has received several phone calls from nearby residents regarding the noise of operations taking place at Michels Materials. With work on the project taking place throughout the night to avoid congestion, the company has permission from Wisconsin DOT to operate with extended hours. For the latest updates on the project type projects.511wi.gov in your search engine or twitter account

The Town of Neenah Annual Town Meeting was held on Tuesday April 17, 2018 with 37 people in attendance. During this meeting, Glenn Armstrong and Jim Weiss were sworn in as Town of Neenah Supervisors and there were several items brought up for discussion by Town Electors including how to fund the shortfalls for Town expenses. One suggestion was to consider a referendum to fund road projects, another was to sell the Town owned property to replenish the reserve fund account. The Town Board discussed the possibility of a referendum at a Town Board meeting in May and the general consensus was that there are other alternatives to consider prior to considering a referendum. At this same Town Board Meeting, the Town Board members discussed selling the Town owned property.

#### Town Owned Property

Currently the Town owns a total of 78 acres of land near Oakridge Road and Tullar Road. In 1999 and 2008, the Town purchased 112 acres as a tool to preserve town lands from being annexed to the City of Neenah. In 2014, the Wisconsin Department of Transportation purchased 35 acres from the Town of Neenah for a wetland mitigation site paying \$535,000 to the Town. There are 8 acres the Town of Neenah has designated for a future storm water pond and have approximately 70 acres remaining. At this time, the land is rented for agriculture purposes generating \$3,300 income annually.

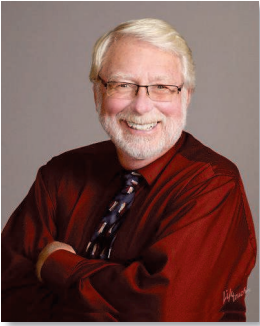

#### Dog Park

In recent months, Winnebago County Parks and Recreation Department approached the Town with a proposal to lease a portion of this property at a rate of \$10,000 annually for a County Dog Park. The dog park would be managed and maintained by Winnebago County at no added expense to the Town of Neenah. \$10,000 annually in revenues is equal to approximately \$8.7 million in assessed value of taxable land and improvements. Upon review, the Town Board voted to reject the lease presented by the County stating that some of the clauses in the lease were not favorable to the Town of Neenah, including a clause that gave the County the ability to terminate the lease but the Town would not have those same termination rights.

In May 2018, an ad hoc committee was formed and is doing further research on the options for marketing this Town owned property to generate interest from potential developers. Any sale of Town owned property requires approval from the Town of Neenah Electors. If the Town Board receives an offer on this land that they believe is favorable to the Town, a Special Meeting of the Town Electors will be scheduled giving the Town Electors the opportunity to vote on the sale of the property. Additional topics discussed included the Boundary Agreement with the

## CHAIRMAN'S CHATTER

Robert Schmeichel

Welcome to the 2018 spring/summer addition of Chairman's Chatter. As per usual, I am drafting this just prior to Memorial Day weekend so at this reading, I hope one and all had a wonderful time with friends and family. I will talk more about this national holiday later in my "Fun Facts".

Once again at our annual town meeting road maintenance was a subject of discussion. The 2017 highway budget was \$134,000. The 2017 actual was \$91,378. The 2018 budget is \$251,639. That works out to a 175.4% change in budget from 2017 to 2018. These numbers are for road maintenance alone and not the road reconstruction numbers for Sunrise Bay Road and Hunters Point Road. According to the Wisconsin Town's Association's transportation report; "The average town is crack filling a paved road every 16.1 years when it should be more like every 3 years. The average town process of seal coating, every 31.4 years per road when 5-7 is the norm. And, the average town road, in the state, is being reconstructed every 370.8 years! Roads just do not last that long." (This is data from the Wisconsin Towns Association). The State finally heard our town's pleas for more state aid and the Joint Committee on Finance came through with approximately \$23.5M. Our 2018 Transportation State Aid is \$71,431. We say "Thank You." However as you can see there still will be a short fall in highway maintenance monies. Our roads are a tad better than the average town roads. That is due to the work of our town road supervisor Ed DeKeyser working with the Winnebago County Highway Department. Together they have performed the best they can with the monies we do have. The overall 2017 town Public Works budget was \$870,091. The 2018 budget is \$900,221. That's a 35.1% increase. I, and the Town Board of Supervisors have been looking at ways to gain revenue. For some time now I have advocated that perhaps we should look at the sale of some of our town owned properties while still keeping adequate "Green Space". Now, the town board as a whole and members of the Planning Commission, are investigating that scenario. Because it is public owned land we will continue to update all of you on any potential town land sales.

Let's talk recycling. Our population is presently 3,537. The

Winnebago County Solid Waste Management Board (WCSWMB) 2018 Recycling Tonnage Report shows that per year, we average 66.29 lbs. of recycled materials per person. Our two neighboring towns of Clayton and Vinland average 74.84 lbs./person and 76.81 lbs./person respectively. The WCSWMB and the Signing Municipalities that participate in recycling earned surplus revenues in 2017. The 2017 Signing Municipalities portion of the surplus revenue is \$263,793 of which our share is \$7,971. These revenue monies are not shown in the budget. However revenue in any form is much appreciated. Soooo... Let's not let other towns show us up Right ! I know we can do better than what we are recycling now. Every little bit counts!

On a positive note, the annual Town Of Neenah's Fireman's picnic is the 19th of August. This is a great time for the whole family to come out and see department equipment, live demonstrations, and of course food and beverages. Please come out and show them your appreciation for their dedication of service.

**And for my Fun Fact:** As I stated earlier, by the time you are reading this, Memorial Day has come and gone. And so too has Armed Forces Day. Do you know the difference between these two important days in US history? Most do know that Memorial Day is in recognition for the many brave men and women who gave the ultimate sacrifice for Freedom.

Armed Forces Day is specifically for members of the military that are currently serving their country by recognizing brave men and women in our armed services. America has been honoring members of the military currently serving by celebrating this holiday on the third Saturday in May since 1950. The tradition began when President Harry S. Truman sought a specific day to honor all of our armed forces rather than have separate days for each individual branch. In August 1949, Defense Secretary Louis Jonson announced that Armed Forces Day would be created and celebrated the following May. On the first Armed Forces Day on Saturday May 20, 1950, President Truman declared: "Armed Forces Day, Saturday, May 20, 1950, marks the first combined demonstration by America's defense team of its progress, under the

# Town Board Supervisor Glenn Armstrong Retires from the Town of Neenah Fire Department after 40 years of service

On March 7th, 2018, Town of Neenah Firefighter Glenn Armstrong retired after serving the community for 40 years.....exactly 40 years. Glenn retired on the same calendar date that he joined the department back in 1978. Over the years, Glenn served the department in virtually every role and was involved in virtually every major change that occurred on the department over those years. Glenn prides himself as the “town’s unofficial historian” and always could pinpoint the year of a significant incident and who was there and what efforts were used to control the situation. He highlighted some of those incidents at the Annual Town Meeting in April when he was presented a plaque honoring his service.

Glenn also participated on many committees and projects ranging from the construction of the Fire Station/Town Hall on Breezewood Lane to being part of several committees involved with the specification and purchase of the fire department’s apparatus. Glenn also held the position of Fire Chief from 1985-1990.

Glenn’s involvement in the fire department will be missed as he was usually available to respond during the daytime hours due to being self-employed in farming.

Glenn’s experience and leadership will truly be missed around the fire station but, we wish him the best in retirement and we thank him for his 40 years of service to the Town of Neenah.

*Firefighter Glenn Armstrong studies the pump controls on the department’s 3,000 gallon water tender, known as Tender 39. Glenn often drove this unit as he understood the importance of getting water to a fire scene as quickly as possible.*

- ◆ Classic Car Show
- ◆ Raffle with multiple prizes
- ◆ Brats, burgers, hotdogs, and more

**Free and open to the public**

**Proceeds go towards equipment improvement**

## CONTINUOUS IMPROVEMENT, FIRE DEPARTMENT STYLE

Many of us have been involved in business organizations that are constantly working to gain a competitive advantage using tools found in Continuous Improvement programs. Fire Departments across the country are no different use the same tools and stress the importance training to maintain a "competitive advantage" when dealing with fire and medical emergencies. These continuing education efforts amounted to over 1,800 hours for 22 Town of Neenah firefighters as they work diligently to enhance their practical skills and knowledge. These 1,800 hours are in addition to the 36 hours of mandatory training each firefighter is required to complete each year.

When we start to talk about over 2,500 hours of training in 2017 by 22 individuals it's easy to see the level of dedication these men and women have for the role they play in assisting the citizens of the community. And let us not forget all of these folks perform these tasks as in a part time role with the fire department. All of these firefighters have full time jobs that they get up and go to even after being out half the night at an emergency call. Dedication....I think you'll agree that it is at levels that are "off the charts".

The following is a quick listing of the course work com-

pleted in 2017 and some of the hours involved:

- State Certified Firefighter 1, 120 hours
- State Certified Firefighter 2, 42 hours
- Driver/Operator Pumper, 66 hours
- Emergency Services Instructor, 40 hours of classwork and then 30 hours of teaching supervised by a senior instructor
- Fire Officer 1 and Fire Inspector, 40 hours each
- Emergency Medical Responder (First Responder), 80 hours plus another 24 hours of refresher training every 2 years.
- Emergency Medical Technician (EMT), 180 hours
- Hazardous Materials Operations, 24 hours

Another quick note, most of this training is done outside a nice comfortable air conditioned classroom in real life conditions of summer heat, winter cold, as well as rain and snow.

Please join me in thanking our Firefighters and First Responders as they respond daily to the emergency needs of the citizens of the Town of Neenah and know that they have the best training available to perform their roles.

Thank you,  
Fire Chief Ed King

## DANGEROUS DRIVEWAYS: PAH POLLUTION FROM TAR-BASED SEALANTS

*Tar-based pavement sealants are the primary source of toxic PAH pollution in urban landscapes. Those PAHs are harmful to human health and hurt fish and other aquatic life in our lakes and rivers*

### What are pavement sealants?

Pavement sealants, also known as “sealcoats” or “sealers,” are the jet-black coatings homeowners and contractors apply to residential, commercial, and industrial driveways and parking lots. There are two main types of pavement sealants on the market today: tar-based sealants (also called “coal tar-based”), and asphalt-based sealants.

### The problem with tar-based pavement sealants

Pavement sealants contain **polycyclic aromatic hydrocarbons** (PAHs), which are toxic compounds that can **cause cancer and developmental problems in children**. The American Medical Association and other public health groups have urged local and state governments to ban tar-based sealants due to their harmful health effects.

### How are people exposed to PAHs from tar-based sealants?

PAHs accumulate in soils, household dust, and carpets when particles of tar-based sealants are blown or tracked into homes, schools, and other buildings. The particles come from those sealants being worn down over time by weather, tire abrasion, and foot traffic. The toxic sealant particles are also washed off by rain and spring meltwater, ending up in our local water bodies.

### How significant is the health risk?

The coal tar pitch used in tar-based sealants is classified as a **hazardous waste**. Children living in homes where parking lots are coated with tar-based pavement sealants face a **14-fold increase in cancer risk** compared to those living next to unsealed lots, according to researchers at Baylor University and the U.S. Geological Survey. **A lifetime of exposure can lead to cancer rates 38 times higher.**

### How do tar-based sealants compare to other PAH sources?

Other sources of environmental PAH pollution have significantly lower concentrations than tar-based sealants. Fresh asphalt, for example is about 1.5 parts per million (ppm) PAHs. Smoke from wood fires can range from 2 to 114 ppm, engine exhaust 102-370 ppm, and used motor oil around 440 ppm. **Tar-based sealants are hundreds to thousands of times worse**, at 70,000 – 100,000 ppm.

## WE IN WISCONSIN NEED TO FOLLOW THE LEAD OF OTHERS AND END THE SALE AND USE OF HIGH-PAH SEALANTS TO PROTECT OUR HEALTH AND ENVIRONMENT.

*Visit [cleanwisconsin.org/our-work/pah](http://cleanwisconsin.org/our-work/pah) for more information.*

**How to be PAH-safe: Don't use tar-based pavement sealants** If you feel you must seal your driveway or parking lot, then use asphalt-based sealants, which have 1,000-times lower PAH levels.

**Remove your shoes:** If you don't have control over your parking lot or driveway, try to keep sealant dust and soil out of your home by taking off shoes before entering.

**Look for hidden PAHs:** Tar can have a lot of different names, and some other byproducts can have very high levels of PAHs. To be safe, check the “Material Safety Data Sheet” of the product (try searching online) and avoid anything including CAS #'s **64742-90-1, 65996-92-1, 65996-93-2, 65996-89-6, 69013-21-4, or 8007-45-2.**

Children living from birth to age 6 near parking lots with tar-based sealants have a **14x higher lifetime cancer risk.**

(continued from page 1)

Village of Fox Crossing. The Town of Neenah does not currently have a Boundary Agreement with the Village, rather we have a Memorandum of Understanding which states that the current boundary lines between the Town and the Village remain intact until November 2018 and that the two municipalities will make an attempt to negotiate terms for a long-term boundary agreement.

**Boundary Agreement/Annexation**

Another topic of discussion was related to the existing Boundary Agreement between the City of Neenah and the Town of Neenah. At the time of the Annual Meeting, the City of Neenah expressed interest in filing a petition to annex a one piece of property in the Armstrong Plat and a portion of Armstrong Street into the City of Neenah so they could extend Shooting Star Drive. The Boundary Agreement with the City of Neenah designates certain areas in the Town as 'City Growth' meaning the Town of Neenah will not contest the City's request for annexation, and other areas in the Town as 'Town Growth' meaning the City will not request annexation of these properties.

The Armstrong Street Area does not fall into either of these two areas and for this reason, the Town Board notified the City of Neenah that the Town will oppose any attempt by the City to perform the proposed annexation. The City of Neenah has not responded to this notice.

**2019 Annual Meeting  
Tuesday April 16, 2019.  
You won't want to miss it.**

## Little Brown Address Signs

Those little brown address signs at your property are a valuable resource to our Firefighters, First Responders, Law Enforcement and other emergency personnel when responding to call at your property. Hopefully, you never need to call 911, but in the event of an emergency, you want to make sure the responders can quickly locate your home. Please take a few minutes to clear the area around your address sign of brush, over grown grass, and other vegetation that might impair the visibility of your address sign.

This is also a good time of year to make sure your mailbox is securely attached to the post and properly installed to avoid problems during the winter snow plowing season

Ellen Skerke

## Clerk's Corner February – April 2018

The following is a summary of Town Board action taken during Town Board meetings.

- Approve Fire Fighter applications for Adam Benzshawel and Erika Jensen.
- Approved Resolution 2018-04 authorizing Clerk-Treasurer to apply for \$144,240 loan from Board of Commissioners of Public Lands to pay-off outstanding balance of sanitary sewer assessment for Franzoi Park and to notify TNSD#2 of intent to payoff outstanding balance.
- Awarded contract to MCC for Hunters Point Road and Sunrise Bay Road Reconstruction project in the amount of \$551,103.09
- Approved Resolution 2018-07 authorizing the execution and delivery of documents relating to the Fox Cities Exhibition Center.
- Accepted retirement of Glenn Armstrong.
- Approved compensation for Town Representative for the Appleton Redevelopment Authority Exhibition Center Advisory Committee and Fox Cities Area Room Tax Commission.
- Accepted applications for Fire Fighters/ First Responders Colleen Kaiser, Skyler Krutz and Eric Payne.
- Accepted 2017 Financial Report as presented by Schenck.
- Approved First Amendment to Incorporation Memorandum of Understanding between the Town of Neenah and the Village of Fox Crossing.
- Appoint Jody Andres, Donald Nussbaum and Pete Weyenberg to the Plan Commission for three-year terms.
- Appoint Daniel Hoel and James Pawlowski to the Parks and Trails Committee for three -year terms.
- Reviewed 2018 Town Board Liaison Assignments.
- Approved Ordinance 2018-01 – Amended and Restated Ordinance imposing a Room Tax.
- Denied proposed lease agreement with Winnebago County Parks and Recreation for a dog park to be located on Town owned property located near Oakridge Road and Tullar Road.

## ELECTION INFORMATION

**Partisan Primary Election Tuesday, August 14, 2018**

**General Election on Tuesday, November 6, 2018**

### *Offices to be Elected*

The upcoming Elections in August and November 2018 are for Governor, Lt. Governor, Attorney General, Secretary of State, State Treasurer, U.S. Senator, Representative in Congress, State Senator (odd-numbered districts) Representatives to the Assembly (all districts).

**County offices up for election:** Sheriff, Clerk of Circuit Court and Coroner.

Visit State of Wisconsin Elections Commission website or [myvote.wi.gov](http://myvote.wi.gov) for additional information about who is on your ballot.

A Photo ID is required to receive a ballot in all Elections. Learn more about Photo ID and Voting by visiting [www.bringitwisconsin.com](http://www.bringitwisconsin.com)

## REGISTER TO VOTE

If you need to register to vote, changed your name and/or changed our address there are several options to register or reregister:

**BY MAIL:** Complete the Voter Registration Application Online at [myvote.wi.gov](http://myvote.wi.gov). Print the form, BE SURE TO SIGN AND DATE THE FORM and mail to the Town Clerks Office at 1600 Breezewood Lane, Neenah, WI 54956 along with a copy of acceptable proof of residence. You may register to vote by mail until the 3rd Wednesday preceding the election.

**IN PERSON:** Register in the municipal clerk's office up to the Friday before the election. Proof of residency is required when registering.

**AT THE POLLING PLACE ON ELECTION DAY:** If you wish to register to vote at your polling place, you must provide proof that you have lived at your present location for 10 days preceding the election. For purposes of voter registration, a form of identification constitutes acceptable proof of residence if it includes your current name and current Town of Neenah address.

## ABSENTEE VOTING

In Person Absentee (Early Voting in the Clerk's Office)

In Person Absentee voting begins about three weeks prior to an election once the ballots are received in the Clerk's Office. The deadline for in-person absentee is 5:00 p.m. on the Friday preceding the election. Please make sure you bring your photo ID.

**Location:** Clerk's Office, 1600 Breezewood Lane, Neenah

### **General Office Hours:**

8:30 – 4:30 Monday

8:30 – 12:30 Tuesday through Thursday.

Check the website for additional hours prior to each Election. In Person Absentee Voting is not permitted on the Monday before an Election.

### **Absentee Ballot Request**

Any qualified elector who is unable or unwilling to appear at the polling place on Election Day may request to vote an absentee ballot. Whether voting in person or by mail, photo ID is required. To obtain an absentee ballot, you may choose one of the following:

Personally come to the Town Clerk's office to cast an absentee ballot, (form does not need to be filled out for in-office absentee voting) but you will need to show your photo ID;

You can make a request in writing or email and we will mail you an absentee ballot. The written request must include your voting address within the Town of Neenah, the address where the absentee ballot should be sent, if different, and your signature. You can also print the Absentee Ballot Request form. You will need to include a copy of your photo ID with your request to have a ballot to be mailed to you.

## PARKS AND TRAILS

### New Play Equipment at Mahler Park

There will be two new playsets installed at Mahler Park this summer. One to accommodate the younger children and a larger set for the older kids. Improvement such as these are funded through the public recreational impact fees assessed on all new construction. The Impact Fee is collected and used for construction and equipping public recreational facilities. The Parks and Trails Committee hopes you will take some time this summer to get out to the parks to enjoy the facilities, play games and walk the trail along CTH CB.

## MY VOTE WISCONSIN

My Vote WI website gives Wisconsin voters one-stop access to information about exercising your right to vote. Voters can register to vote, update name and/or address, request and absentee ballot and look up what's on your ballot. Visit [myvote.wi.gov](http://myvote.wi.gov) for more information.
