Hello I just have some questions, when coming into Sister Bay on 57 you see some neat looking apartments and landscaping . Over the last couple years you see a building moved onto a lot. For a while it just sat there and has become an eye sore for the Village. I've listened to some of the meetings on line, about the house that moved on the lot. How long does one have to complete the project or does someone who has a business in the village get special treatment. ? Can I just leave a old truck in my front yard on Birchwood and junk laying around and its ok with the Village ? This is not the image needed for the Village, but to have something go on this long what at eye sore and is very unacceptable. The Village is more concerned about a Habitat of Humanity trailer parked at the end of Ava Hope while building a Habitat Home then enforcing any rules about the building that never gets completed. Thanks, Russ Carpenter

Transportation Newsletter 2025 Quarter 1 FINAL.pdf;

Good afternoon,

Attached is the first quarter newsletter for 2025 that includes service statistics for Door County Connect (ADRC bus/van) and Door 2 Door Rides.

As mentioned in the last newsletter, one of my goals for 2025 is to be available to all municipalities in Door County to clarify services and to provide my contact information in case anyone has questions or needs information. I also welcome an invite to one of your meetings so that I can provide a brief overview of our services and answer any questions. Please let me know if you would like me to attend one of your meetings.

Also, if you are able, please add a link to our transportation website to your website. The following is the link that I would suggest:

<https://www.doorcountyconnect.com/170/Transportation>

Please include this email and the attached newsletter in your next meeting packet as correspondence.

Thank you,
Pam
