Current Use \_\_\_\_\_  
Applicant/Contact Person \_\_\_\_\_

The application must be accompanied by the following information:

1. Separate Permit applications shall be submitted for each structure to be demolished.
2. Two (2) copies of all staging and demolition plans including the dimensions of the existing structure. Structural details must be signed and sealed by a licensed engineer.
3. Two (2) copies of a property sketch showing the location (include front, rear and side yard setback dimensions) of the structure proposed for demolition. Please note all utilities, all existing structures, impervious surfaces (driveways, patios, pools, etc.), an on-site sewer or well system and any established easements or right of ways.
4. A signed Inspection Checklist Form
5. The Contractor's Information Sheet signed and dated. List "Homeowner" as the general contractor if work is to be completed at no charge by a resident of the property.
6. Contractor's verification application and fee when construction is performed by a paid contractor.

*Any property designated as a Class I or Class II Historic Resource is subject to review by the Historical Commission and the Board of Supervisors. See West Brandywine Township Code §200-191: Demolition of Identified Historic Resources*

**INSPECTIONS REQUIRED FOR DEMOLITION**

The issuance of this permit requires the applicant to comply with all provisions set forth in the International Code Council Building Code 2018.

The inspections marked below are the stages when the West Brandywine Township Building Inspector must be notified by the applicant. Inspections must be scheduled 24 - 48 hours in advance. Failure to notify the Township before proceeding to the next step (inspection) will result in a stop work order.

Twenty-four (24) hour notice is required to cancel a scheduled inspection. Failure to do so will result in a failed inspection. Fee for all failed inspections per current fee schedule.

Your signature at the bottom of this page acknowledges that you have read and fully understand the requirements contained herein. Please contact the Township prior to accepting the terms of this permit with any questions or concerns.

**PRELIMINARY INSPECTION**

Inspections will verify all utilities have been properly disconnected and the current location of the building demolition proposed at the time of this inspection. Safety parameters shall be established by way of barrier and or ribbon cordoning off area to prevent access to the site by unauthorized persons.

**FINAL INSPECTION**

Inspection to verify that the entire site has been left in a clean safe environment.

I HEREBY ACKNOWLEDGE RECEIPT OF THIS FORM

**CONTRACTOR'S INSURANCE VERIFICATION**

**FEE PER CURRENT FEE SCHEDULE**

DATE: \_\_\_\_\_

Contractor's engaging in any and all types of home improvements shall register with West Brandywine Township Codes Office prior to commencing home improvements within the Township. A check shall accompany completed application, made payable to West Brandywine Township.

Please complete the application in its entirety. Sign and date application, include current Certificate of Insurance naming West Brandywine Township as the Certificate Holder, specifying minimum general liability and workers compensation limits as outlined below. If you are filing a self-employment or religious exemption, and are not required to carry Workers Compensation Insurance, **please complete and have notarized the attached Affidavit for submittal along with the Application. If the Affidavit is not completed, processing of the application will be delayed. Also include a copy of your State Registration Certificate.**

The following minimum insurances are required to obtain a valid Registration Certificate:

- a. General Liability - 1) Per Occurrence - \$500,000; 2) Per Personal Injury - \$500,000; 3) Property Damage - \$1,000,000
- b. Workers Compensation and Employer's Liability - 1) Each Accident - \$100,000

**VALID FOR ONE YEAR FROM DATE OF ISSUANCE**

## **ASBESTOS PROGRAM FOR CONTRACTORS WORKING IN PENNSYLVANIA**

The Pennsylvania asbestos program includes federal and state regulations to help protect the public from exposure to hazardous amounts of airborne asbestos. The following is a brief summary of the regulations. Information in this fact sheet does not supersede any federal, state or local requirements.

### **WHAT IS ASBESTOS?**

Asbestos is a generic term used to describe a variety of natural mineral fibers. From the early 1930s until the 1970s, manufacturers added asbestos to products for strength and to provide heat insulation and fire resistance. Asbestos also resists corrosion and is a poor conductor of electricity. Because few products contained all of these properties, asbestos was widely used in the construction of homes, schools and other buildings.

### **HOW CAN PEOPLE BE EXPOSED TO ASBESTOS?**

Most people are exposed to small amounts of asbestos in their daily lives. However, if materials containing asbestos are disturbed—for example sawed, scraped or sanded into a powder—asbestos fibers are more likely to become airborne and inhaled into the lungs.

### **HOW IS ASBESTOS REGULATED IN PENNSYLVANIA?**

Because asbestos, in certain forms, has been determined to cause serious health problems, the Pennsylvania Department of Environmental Protection (DEP) regulates the removal, collection, transportation and disposal of asbestos-containing materials (ACM). DEP's Air Quality Program has adopted and enforces the federal Environmental Protection Agency (EPA) 40 CFR Part 61 Subpart M, the Asbestos National Emission Standard for Hazardous Air Pollutants (NESHAP) regulations, as amended on November 20, 1990. Should a project be subject to the NESHAP regulations, a minimum 10-day notification of the project is required to be made to both EPA and DEP. The EPA and DEP do not regulate the removal of ACM from private residences unless the residence is an apartment with five or more units.

The Pennsylvania Department of Labor and Industry (L&I) enforces the Pennsylvania Asbestos Occupations Accreditation and Certification Act of 1990 (Act 194 and Act 161), which requires certification for the following asbestos occupations: contractor, inspector, management planner, project designer, supervisor and worker. L&I requires a five-day prior notification for friable asbestos on indoor projects at regulated facilities (including the EPA/DEP exempt private residence when the friable asbestos is disturbed by someone other than the homeowner). Call L&I at 717-772-3396 for more information regarding Act 194 and Act 161.

Contact the municipality where the project is located to find out if there are any local regulations.

### **WHAT ARE SOME IMPORTANT DEFINITIONS IN THE ASBESTOS NESHAP REGULATIONS?**

- Friable ACM is material containing more than one percent asbestos that, when dry, can be crumbled, pulverized or reduced to a powder by hand pressure.
- Nonfriable ACM is material containing more than one percent asbestos that, when dry, **cannot** be crumbled, pulverized or reduced to a powder by hand pressure. It is divided into two categories:
  - Category I includes asbestos-containing packings, gaskets, resilient floor coverings or vinyl asbestos floor tile and asphalt roofing products.
  - Category II includes any other asbestos-containing material, except Category I nonfriable ACM, such as transite siding shingles, galbestos, concrete-type piping and other ACM concrete-type products.
- Regulated asbestos-containing materials (RACM) are: (a) friable ACM; (b) Category I nonfriable ACM that has passively become friable by water damage, fire damage or weathering; (c) Category I nonfriable ACM that will be or has been subjected to sanding, grinding, cutting, drilling or abrading; and (d) Category II nonfriable ACM that has a high probability of becoming or has become crumbled, pulverized or reduced to a powder in the course of demolition or renovation operations.
- Demolition – the wrecking or taking out of any load-supporting structural member of a facility together with any related handling operations **or** the intentional burning of any facility.
- Renovation – altering a facility or one or more facility components in any way, including the stripping or removal of RACM from a facility component.
- Facility – any institutional, commercial, public or industrial structure. A single residential building with four or fewer dwelling units is not a regulated facility under the NESHAP regulation unless it is part of an installation, which was previously subject to NESHAP regulations or its main use is not residential.

- Installation – a building or structure or any group of buildings or structures at a single demolition or renovation site that is under the control of the same owner or operator.

## WHAT DO I NEED TO KNOW BEFORE REMOVING ASBESTOS IN PENNSYLVANIA?

State regulations stipulate that it is illegal for anyone to engage in any asbestos occupation (worker, supervisor, project designer, inspector, management planner or contractor) without proper certification from L&I. These requirements, along with a five-day notification prior to the start of any abatement or demolition project where ACM is present, are outlined in Acts 194 and 161. Call L&I at 717-772-3396 for more information regarding these requirements.

The building must be thoroughly inspected for ACM prior to any renovation or demolition. If the amount of friable ACM that will be removed is more than 260 linear feet, 160 square feet or 35 cubic feet, the project falls under the federal NESHAP regulations. This requires that a notification be postmarked or hand delivered to DEP and EPA at least **10 WORKING DAYS** prior to the start of the project. **All demolitions of regulated facilities, as defined above, also require a 10-day notification to DEP and EPA, regardless of the presence of asbestos.**

Additional regulations exist for demolition and renovation of any building containing ACM in Philadelphia and Allegheny Counties. In Philadelphia County, call 215-685-7576. In Allegheny County, call 412-578-8133. It is important to contact the appropriate office if the project is located in either of these counties.

## WHAT ARE THE PROCEDURES FOR NOTIFICATION?

DEP is transitioning away from paper to online asbestos abatement and demolition/renovation notifications. DEP held a webinar on Wednesday, March 14, 2018 to introduce and explain the new online system. A recording of the webinar can be accessed from the following hyperlink:

- Training Webinar ([MP4](#)) ([WMV](#))

The **Online Asbestos Notification System** ([www.dep.pa.gov/asbestos](http://www.dep.pa.gov/asbestos)) is one of many applications on the DEP's [GreenPort](#) website. You will need to create a GreenPort account to access the system if you don't already have one. Regardless of how many DEP systems you want to access, only one GreenPort account is ever necessary. Once you create an account, you can self-register for the Online Asbestos Notification System by clicking on the "Enroll" button at the bottom of the screen, selecting "ePermitting," and then "Asbestos." Thereafter, an "ePermitting" button will be available on the right side of your application's screen. Those having problems creating a Greenport account should call the [DEP Service Desk](#) at 717-787-4357.

- [Online Asbestos Notification System User's Guide](#) (PDF)

Note: This online system is not for asbestos abatement and demolition/renovation projects in Philadelphia or Allegheny Counties.

While we strongly encourage the use of the Online Asbestos Notification System, links to the paper notification and its instructions are found at [www.dep.pa.gov/asbestos](http://www.dep.pa.gov/asbestos). Please mail paper notifications to the appropriate DEP regional office found in the instructions and not the Rachel Carson State Office Building in Harrisburg. Please contact the appropriate DEP regional office or [Craig Evans](#) by e-mail or by telephone at 717-772-3995 if you have questions or need additional information.

## WHERE IS THERE MORE INFORMATION?

To obtain copies of the NESHAP regulations, the notification form or other information, please contact the local DEP regional office:

**Southeast Regional Office** – 484-250-5920 (Bucks, Chester, Delaware, and Montgomery counties)

**Northeast Regional Office** – 570-826-2511 (Carbon, Lackawanna, Lehigh, Luzerne, Monroe, Northampton, Pike, Schuylkill, Susquehanna, Wayne, and Wyoming counties)

**South-central Regional Office** – 717-705-4702 (Adams, Bedford, Berks, Blair, Cumberland, Dauphin, Franklin, Fulton, Huntingdon, Juniata, Lancaster, Lebanon, Mifflin, Perry, and York counties)

**North-central Regional Office** – 570-321-6580 (Bradford, Cameron, Centre, Clearfield, Clinton, Columbia, Lycoming, Montour, Northumberland, Potter, Snyder, Sullivan, Tioga, and Union counties)

**Southwest Regional Office** – 412-442-4000 (Allegheny, Beaver, Cambria, Fayette, Greene, Somerset, Washington, and Westmoreland counties)

**Northwest Regional Office** – 814-332-6940 (Armstrong, Butler, Clarion, Crawford, Elk, Erie, Forest, Indiana, Jefferson, Lawrence, McKean, Mercer, Venango, and Warren counties)

For work done in Philadelphia County, contact Air Management Services at 215-685-7576.

For work done in Allegheny County, contact Allegheny County Health Department at 412-578-8133.

For more information, visit [www.dep.pa.gov](http://www.dep.pa.gov).

## ASBESTOS ABATEMENT AND DEMOLITION/RENOVATION NOTIFICATION FORM

**Complete all applicable sections of the notification.** Fax copies are not accepted, as the notification must be certified with an **original signature**. This form can be used to satisfy the notification requirements of the following agencies (see agency addresses below):

- PA Department of Environmental Protection (DEP)
- PA Department of Labor and Industry (L&I)
- Allegheny County Health Department
- City of Philadelphia Department of Public Health

### **Special Notations:**

- All REVISIONS to a previous notification should be highlighted.
- Item #5 - Check the box that best describes the entire project.
- Item #6 - The "Job No." portion of this Item is provided for those contractors who assign a unique job # to their projects.
- Item #12 - Please provide the information in the format requested.
- Items #26 and #27 - **Notifications must contain original signatures or they will be returned to the sender, unprocessed.** If a notification is returned for original signature, the ten (10) day reporting period will begin with the postmark date of the resubmitted notification with original signature.
- If additional space is needed for any descriptive text, please continue on a blank sheet, and attach.

**Fees:** If you are submitting an initial asbestos abatement or regulated demolition or renovation project that is subject to 40 CFR Part 61, Subpart M (relating to National Emission Standards for Hazardous Air Pollutants), or the Asbestos Occupations Accreditation and Certification Act (Act 1990 -194) (63 P.S. §§ 2101—2112) you must include a payment for **\$300** payable to "**The Commonwealth of Pennsylvania Clean Air Fund**". Initial notifications will not be considered complete unless accompanied by the fee. The fee must be submitted along with the notification form to the **appropriate DEP regional office** and it applies for all projects (NESHAP and Act 194). **No fee is due for a notification revision.**

The fee is not applicable for projects located within Allegheny or Philadelphia Counties.

You are not required to pay the fee for fire set for the purpose of instructing personnel in firefighting in accordance with 25 Pa. Code § 129.14(c)(2).

**For projects in Allegheny County or the City of Philadelphia**, this form **must be submitted to the appropriate address**, directly following. Allegheny County requires two copies, the City of Philadelphia, three. If this project requires a permit application, it must be approved prior to the start of the project, and 2 copies must be included with the notification. A copy of the facility inspection survey must also be included for all demolition projects. Do not send these documents to Harrisburg.

Allegheny County Health Department  
Air Quality Program  
Building 7  
301 39th Street  
Pittsburgh, PA 15201-1891  
Attn: Asbestos Abatement Permitting

City of Philadelphia  
Department of Public Health  
Air Management Services  
Asbestos Control Unit  
321 University Avenue  
Philadelphia, PA 19104-4597

Allegheny County - A permit is required if the project involves at least 260 linear feet or 160 square feet of any asbestos containing material. For Item #10, the survey must be included for demolition projects. Item #26 should be signed by the Contractor. Item #27 should be signed by the Facility Owner. Information can be obtained by calling 412-578-8133.

City of Philadelphia - A permit is required if the project involves 80 or more square feet or 40 or more linear feet of friable asbestos containing material and does not involve an exempted private residence. Information can be obtained by calling 215-685-7576.

**The PA DEP Central Office is no longer processing the asbestos demo/reno notification form. Do not send the notification form to the P.O. Box 8468 or the 400 Market Street, Harrisburg address.**

The notification submission addresses, listed below, are to be used depending on the county location of your project:

If the facility address is in Bucks, Chester, Delaware, or Montgomery Counties, send your notification information to:

PA DEP Southeast Region  
Asbestos Notification  
2 East Main Street  
Norristown, PA 19401-4915  
Telephone: 484-250-5920

If the facility address is in Carbon, Lackawanna, Lehigh, Luzerne, Monroe, Northampton, Pike, Schuylkill, Susquehanna, Wayne, or Wyoming Counties, send your notification information to:

PA DEP Northeast Region  
Asbestos Notification  
2 Public Square  
Wilkes-Barre, PA 18701-1915  
Telephone: 570-826-5547

If the facility address is in Adams, Bedford, Berks, Blair, Cumberland, Dauphin, Franklin, Fulton, Huntingdon, Juniata, Lancaster, Lebanon, Mifflin, Perry, or York Counties, send your notification information to:

PA DEP Southcentral Region  
Asbestos Notification  
909 Elmerton Avenue  
Harrisburg, PA 17110-8200  
Telephone: 717-705-4702

If the facility address is in Bradford, Cameron, Centre, Clearfield, Clinton, Columbia, Lycoming, Montour, Northumberland, Potter, Snyder, Sullivan, Tioga, or Union Counties, send your notification information to:

PA DEP Northcentral Region  
Asbestos Notification  
208 West Third Street, Suite 101  
Williamsport, PA 17701-6448  
Telephone: 570-321-6580

If the facility address is in Beaver, Cambria, Fayette, Greene, Somerset, Washington, or Westmoreland Counties, send your notification information to:

PA DEP Southwest Region  
Asbestos Notification  
400 Waterfront Drive  
Pittsburgh, PA 15222-4745  
Telephone: 412-442-4107 for Beaver, Greene, and Washington Counties  
Telephone: 724-925-5428 for Cambria, Fayette, Somerset, and Westmoreland Counties

If the facility address is in Armstrong, Butler, Clarion, Crawford, Elk, Erie, Forest, Indiana, Jefferson, Lawrence, McKean, Mercer, Venango, or Warren Counties, send your notification information to:

PA DEP Northwest Region  
Asbestos Notification  
230 Chestnut Street  
Meadville, PA 16335-3481  
Telephone: 814-332-6634

**Questions** relative to specific filing requirements and enforcement regulations should be directed to the governing agency. Addresses and phone numbers are provided. **Do not mail original notifications to L&I.**

B. Final clearance firm: (if different than 19A) \_\_\_\_\_  
 Street/Rural Address: \_\_\_\_\_  
 City: \_\_\_\_\_ State: \_\_\_\_\_ Zip: \_\_\_\_\_  
 Contact: \_\_\_\_\_ Telephone: \_\_\_\_\_

Final clearance firm was hired by (check one):  Contractor  Owner  
 Other: Explain: \_\_\_\_\_

---

20. AIR SAMPLE FIRM(S) (City of Philadelphia projects only):

A. PCM company name/individual: \_\_\_\_\_ Certification #: \_\_\_\_\_  
 Street/Rural Address: \_\_\_\_\_  
 City: \_\_\_\_\_ State: \_\_\_\_\_ Zip: \_\_\_\_\_  
 Contact: \_\_\_\_\_ Telephone: \_\_\_\_\_

B. TEM company name: \_\_\_\_\_ Certification #: \_\_\_\_\_  
 Street/Rural Address: \_\_\_\_\_  
 City: \_\_\_\_\_ State: \_\_\_\_\_ Zip: \_\_\_\_\_  
 Contact: \_\_\_\_\_ Telephone: \_\_\_\_\_

---

21. FOR EMERGENCY RENOVATIONS:

Date of emergency (mm/dd/yy): \_\_\_\_\_ Hour of emergency: \_\_\_\_\_  am  pm

Description of the sudden, unexpected event:

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

Explanation of how the event caused unsafe conditions or would cause equipment damage or an unreasonable financial burden as a consequence of complying with the ten (10) working day notification requirement:

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

22. FOR ORDERED DEMOLITIONS (attach copy of order):  
 Government agency that ordered: \_\_\_\_\_  
 Name of individual who ordered: \_\_\_\_\_ Title: \_\_\_\_\_  
 Date of order (mm/dd/yy): \_\_\_\_\_ Date ordered to begin (mm/dd/yy): \_\_\_\_\_

23. DESCRIPTION OF PROCEDURES TO BE FOLLOWED IN THE EVENT THAT UNEXPECTED ASBESTOS IS FOUND OR PREVIOUSLY NONFRIABLE ASBESTOS MATERIAL BECOMES CRUMBLED, PULVERIZED, OR REDUCED TO POWDER:  
 \_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_

24. PENNSYLVANIA CERTIFICATIONS/LICENSES:  
 Project designer: \_\_\_\_\_ Certification #: \_\_\_\_\_  
 Contractor (Individual): \_\_\_\_\_ Certification #: \_\_\_\_\_  
 Supervisor: \_\_\_\_\_ Certification #: \_\_\_\_\_  
 Contractor (Firm): \_\_\_\_\_ Certification #: \_\_\_\_\_

25. Fees (Applicable to projects subject to both NESHAP and Act 194 (Asbestos Occupations Accreditation and Certification Act))  
 If you are submitting an Initial notification for an asbestos abatement or regulated demolition or renovation project that is subject to 40 CFR Part 61, Subpart M (relating to National Emission Standards for Hazardous Air Pollutants), or the Asbestos Occupations Accreditation and Certification Act (Act 1990 -194) (63 P.S. §§ 2101—2112), you must include a payment for **\$300** payable to **"The Commonwealth of Pennsylvania Clean Air Fund"** and submitted to the respective regional office.  
**Initial notifications will not be considered complete unless accompanied by the fee.**  
 Please provide check # \_\_\_\_\_

**\* \* \* \* \* SIGN BOTH STATEMENTS \* \* \* \* \***

26. I HEREBY CERTIFY THAT AN INDIVIDUAL TRAINED IN THE PROVISIONS OF 40 CFR PART 61 SUBPART M (if applicable) WILL BE ON-SITE DURING THE DEMOLITION OR RENOVATION AND EVIDENCE THAT THE REQUIRED TRAINING HAS BEEN ACCOMPLISHED BY THIS PERSON WILL BE AVAILABLE FOR INSPECTION DURING ALL WORKING HOURS, AND I CERTIFY THAT ALL WORK WILL BE DONE IN ACCORDANCE WITH ALL APPLICABLE FEDERAL, STATE, AND LOCAL AGENCY RULES AND REGULATIONS.  
 \_\_\_\_\_ (Original Signature of Owner/Operator) \_\_\_\_\_ (Date)  
 Printed Name of Owner/Operator: \_\_\_\_\_ Title: \_\_\_\_\_

27. I HEREBY CERTIFY THAT THE FOREGOING STATEMENTS AND THE INFORMATION CONTAINED IN THIS NOTIFICATION FORM ARE TRUE. THIS CERTIFICATION IS MADE SUBJECT TO THE PENALTIES SET FORTH IN TITLE 18 PA. C.S.A. SECTION 4904 AND 35 P.S. SECTION 4009(b)(2).  
 \_\_\_\_\_ (Original Signature of Owner/Operator) \_\_\_\_\_ (Date)  
 Printed Name of Owner/Operator: \_\_\_\_\_ Title: \_\_\_\_\_

# Don't Let Storm Water Run Off With Your Time and Money!

## *What the Construction Industry Should Know About Storm Water In Our Community*

The construction industry plays an important role in improving our community's quality of life by not only providing new development, but also protecting our streams and rivers through smart business practices that prevent pollution from leaving construction sites.

Storm water runoff leaving construction sites can carry pollutants such as dirt, construction debris, oil, and paint off-site and into storm drains. In our community, storm drains carry storm water runoff directly to local creeks, streams, and rivers with no treatment. Developers, contractors, and homebuilders can help to prevent storm water pollution by taking the following steps:

1. Comply with storm water permit requirements.
2. Practice erosion control and pollution prevention practices to keep construction sites "clean."
3. Conduct advanced planning and training to ensure proper implementation on-site.

The remainder of this fact sheet addresses these three steps.

### Storm Water Permit Requirements for Construction Activity

Planning and permitting requirements exist for construction activities. These requirements are intended to minimize storm water pollutants leaving construction sites.

- Pennsylvania's Erosion and Sediment Pollution Control Program (25 Pa. Code, Chapter 102) requires Erosion and Sediment Control Plans for all earth disturbing activities.
- The National Pollutant Discharge Elimination System (NPDES) Permit Program (25 Pa. Code, Chapter 92) requires that construction activities disturbing greater than one acre submit a Notice of Intent for coverage under a general NPDES permit.

Knowing your requirements before starting a project and following them during construction can save you time and money, and demonstrate that you are a partner in improving our community's quality of life. For more information about these programs, contact your local county conservation district office or the Department of Environmental Protection.

### What is Storm Water?

Storm water is water from precipitation that flows across the ground and pavement when it rains or when snow and ice melt. The water seeps into the ground or drains into what are commonly called storm sewers. These are the drains you see at street corners or at low points on the sides of streets. Collectively, the draining water is called **storm water runoff**.

### Erosion Control Practices:

- Perimeter controls (e.g. silt fence)
- Sediment traps
- Immediate revegetation
- Phased, minimized grading
- Construction entrance
- Protection of streams and drainage ways
- Inlet protection

### An Ounce of Prevention

Rain that falls onto construction sites is likely to carry away soil particles and other toxic chemicals present on construction sites (oil, grease, hazardous wastes, fuel). Storm water, if not properly managed, carries these pollutants to streams, rivers, and lakes. Erosion and sediment control practices can serve as a first line of defense,

## **Pollution Prevention Practices:**

- Designated fueling and vehicle maintenance area away from streams.
- Remove trash and litter.
- Clean up leaks immediately.
- Never wash down dirty pavement.
- Place dumpsters under cover.
- Dispose of all wastes properly.

minimizing clean up and maintenance costs, and the impacts to water resources caused by soil erosion during active construction. Erosion controls can reduce the volume of soil going into a sediment control device, such as a sediment trap, therefore, “clean out” frequencies are lower and maintenance costs are less. When possible, divert water around the construction site using berms or drainage ditches.

In addition, use pollution prevention and “good housekeeping measures” to reduce the pollution leaving construction sites as well. This can be as simple as minimizing the pollution source’s contact with rainwater by covering it, maintaining a “clean site” by reducing trash and waste, and keeping vehicles well maintained.

## **The Best Laid Plans**

Plans such as erosion and sediment control plans and storm water pollution prevention plans are important tools for outlining the erosion control and pollution prevention practices that you will use to manage storm water runoff prior to breaking ground. Developing good plans allows for proper budgeting and planning for the life of the project. Proper installation and maintenance of erosion and storm water controls is essential to a plan that works. Training for on-site staff helps to ensure the proper installation and maintenance of erosion controls and pollution prevention practices. Inspect controls and management techniques regularly to ensure they are working, especially after storm events. If polluted storm water is leaving the site, you may need to repair or add additional storm water controls.

## **The Bigger Storm Water Picture**

Your community is preventing storm water pollution through a comprehensive storm water management program. This program addresses storm water pollution from construction, but it also deals with new development, illegal dumping to the storm sewer system, and municipal operations. It will also continue to educate the community and get everyone involved in making sure the only thing that storm water contributes to our streams is . . . water! Contact your community or the Pennsylvania Department of Environmental Protection for more information about storm water management.
