

Peppermill Lake in Adams County, Wisconsin
Website of the Lake District

PEPPERMILL LAKE ADVISORY COMMITTEE RECOMMENDATIONS

Fall Meeting
November 15, 2006

1. Slight expansion of the harvest plan area

2. Emphasize that (a) without a permit, property owners can manually harvest near piers, **but only an area 30 feet wide** from shore to "open water" (b) No harvesting by machine in water less than 3 feet deep.

3. Follow up on boat launching fee inquiries, as a possible means to maintain the landing and support lake management,

4. Pursue cost sharing on shielding to homeowner "yard lights" as demonstration project for light trespass.

5. Improve signs at landings re: invasive species

6. Conduct a survey of milfoil weevils

7 Identify dates when we can have a local workshop to help lake citizens with ID of exotic species.
