What's New at the Library?

It has been a crazy summer at the library! We just wrapped up our Summer Library Program, "Build a Better World," which was such a blast. Thank you to everyone who participated in the reading program and helped us cover the library in Lego's! Thank you also to everyone who joined us for programs this summer, including the 300+ attendees of our Solar Eclipse presentation with Mosquito Hill astronomer Steve Petznick and everyone who joined us for the Friends of the Library's End of Summer Party. We loved seeing the library so busy and colorful and are looking forward to another amazing program next summer!

In the meantime, we have decided that the Summer Reading Program was so much fun we are going to host reading programs year-round. The Fall Reading Program, "Fall in Love with Reading," will open when we return from Labor Day on September 5th. Participants will have the chance to fill out reading logs and earn entries for prize baskets, just like the Summer Reading Program, but on a slightly smaller scale. For each reading log participants complete, they will receive a leaf to put their name on and hang on our new Reading Tree to show off their accomplishment. Stop by the library to register and get reading! The program will close and prize winners will be announced on December 1st.

This fall we are hosting so many cool programs! Be sure to check one out and meet some amazing speakers, participate in cool classes, and meet new people with similar interests. The library is even coming to you with several outreach programs this fall! We will be hosting programs at Hortonville High School, the Fox West YMCA, and four Hortonville restaurants for Tourist in Your Own Town. We are looking forward to getting out in the community so much this season and bringing the fun to you.

I look forward to seeing you in the library soon to join in the fun and "Fall in Love with Reading!"
