#### Materials NOT Accepted:

- Latex paint (see below)
- CFL and fluorescent light bulbs
- Electronics (TVs, computers, etc.)
- Propane cylinders and gas tanks
- Vehicle and household batteries
- Explosives and ammunition
- Radioactive material (smoke detectors)

#### Latex Paint

Latex paint is not hazardous since it is made from water. Consider donating usable paint to friends, theater groups or housing assistance organizations

#### Latex paint disposal guidelines:

**For small amounts:** remove the lid and let dry in the can. Stir the paint occasionally to speed drying time

**For large amounts:** Place equal amounts of an absorbent material (kitty litter, sawdust, oil dry) to the paint and mix with a stick

Dispose of the dried paint and dried cans in the regular garbage

#### Why Participate?

When disposed of improperly, household and agricultural hazardous materials can threaten the quality of our drinking water, increase the threat of algae bloom and threaten the safety of sanitation workers.

Hazardous materials left around the house and garage pose an accidental poison risk to children and pets.

#### Who Can Participate?

All Adams County residents and farmers may participate free of charge.

*This hazardous waste collection event is funded with contributions from Adams County and the Wisconsin Department of Agriculture, Trade and Consumer Protection.*

#### Agriculture Guidelines:

**Pre-registration is required!!!**  
Call (608) 339-9178 #3

#### Household Guidelines:

- No liquids over five gallons in size
- No trailer sized loads
- Keep material in the original container with labels
- Unknown materials may be brought in, but may also be refused
- If you have large volumes or liquids over five gallons, call ahead to make special arrangements
