Permit not valid without official signature.

An unauthorized signature will not be accepted and can result in consequences to the submitting entity and signer.

A plot plan showing the tank installation location, structures, property lines, roadways, waterways, fences, gates, and other relevant information is required.

When guard posts are required, they shall be installed, meeting the following requirements.

1. Constructed of steel not less than four inches in diameter and filled with concrete.
2. Set with spacing not more than four (4) feet apart.
3. Buried three (3) feet in the ground in concrete not less than 15 inches in diameter.
4. Set with tops of the posts not less than three (3) feet above the ground.

The minimum separation between containers and buildings, public ways, or lot lines of adjoining property that can be built upon.

Container capacity (water gallons)	Mounded or underground container(s) (feet)*	Aboveground container(s) (feet)	Minimum separation between containers
Less than 125 gallons	10'	5'	None
125 to 250	10'	10'	None
251 to 500	10'	10'	3'
501 to 2,000	10'	25'	3'
