

DNR Regulations or where/how to find them on web site.

The Town of Rutland has a strong history of recycling and composting, and each of us has a role to play in continuing this success. The Town's commitment to reduce, reuse and recycle is shown by its comprehensive recycling regulations.

The Wisconsin DNR has laws that ban disposal and incineration of certain materials and delegate responsibility to local government responsible units for implementing municipal recycling programs to manage the banned materials. Information on specific materials can be found at:

WI.DNR [Recycle & Disposal](https://dnr.wisconsin.gov/topic/Recycling). <https://dnr.wisconsin.gov/topic/Recycling>

Alternative Sites for Materials NOT Accepted at Collection Center.

The Dane County Department of Waste and Renewables is responsible for the management and operation of Dane County's [landfills](#), [renewable natural gas \(RNG\) facilities](#), [Clean Sweep](#), [construction and demolition \(C&D\) recycling facility](#) and various other [recycling](#) programs. A comprehensive list of alternative sites and program regulations for Dane County municipalities can be found at this website.
